

THE LOCKED-WIRE FENCE CO., INGERSOLL, ONT.

The accompanying cut represents five panels of fence and gate of the LOCKED-WIRE FENCE which is now built with improved corrugated hardened steel stay and Bessemer steel clamp, a combination which is proof against the most unruly stock or designing men. The crimp in the wire, in combination with steel clamp, when locked acts as a spring, adjusting the fence to heat or cold.

—PERFECTLY—

**Safe, Stronger, Better
AND CHEAPER**

than any other fence, and without doubt the best fence on the American continent.

All persons having wire fences erected in the past, should use the stays and steel clamps of the Locked-Wire Fence Co. on them. The crimp consumes all the slack, makes the fence tight, and adds over 100 per cent. to its value, at a very small cost.

We desire to inform the farmers and public generally that we are prepared to supply the material or erect this fence throughout the Dominion of Canada.

Recollect, we are the only firm that is furnishing the genuine material in the form of the corrugated hardened steel stay and Bessemer steel clamp.

MANUFACTURERS OF HIGH-CLASS BELTS FOR DRIVING CREAM SEPARATORS.

Our belts are used successfully all over the world. It is settled they have no equal in price, quality, durability and workmanship. 10-y-om

... FARMER'S BINDER TWINE. ...

Prices on Binder Twine will shortly be advertised by our Company in this paper. Order forms and notes in any quantity can be had on application to President Joseph Stratford, Brantford, Ont. Terms will be same as last season, payable October 1, 1894. The duty of farmers and Patrons to this Company is very plain. If you want the principle established of buying direct, thereby saving about one or more cents a pound through middlemen or agents, unite with your neighbors, if only for a few hundred pounds of twine, and send your order straight to the Farmer's Company. You will by this means assist in establishing what you have been struggling so long for, FUR-HASING DIRECT FROM THE MANUFACTURER. Get your orders in early. Remember, goods on way freight trains are longer in reaching their destination than you figure on.

We Guarantee every pound of Twine we make.

STOCK GOSSIP.

Mills, Springfield, Ill., Secretary of the American Berkshire Association, asking if Canadian breeders would be allowed to compete for these pigs. The following letter was received in reply:—

Your esteemed favor received in reference to the premium offered for 'Prolific Berkshires' and the 'Best Ham.' Canadian breeders are most cordially invited to compete for said premiums. The publication of the premium, as proposed by you, will be duly appreciated by the Berkshire breeders of Canada and the United States, also by the American Berkshire Association. Yours truly, CHARLES F. MILLS.

Mr. Valancey E. Fuller, formerly of Canada, is now manager of a Jersey herd at Lowell, Mass., owned by Mr. C. I. Hood, a number of whose cattle were recently destroyed by fire.

Mr. Mortimer Levering, Lafayette, Ind., the talented and popular Secretary of the American Shropshire Registry Association, is now in England inspecting the flocks of British breeders.

E. Gaunt & Sons, Lucknow, report the following sales:—One cow, Vancouver 6th, to E. A. Christie, Utica, Ont.; the sixteen months' old bull, Banker, to J. A. McKenzie, Tiverton; and a heifer to T. Patterson, Gravenhurst.

We have just received from the editor, Mr. C. S. Stephenson, 76 St. Gabriel street, Montreal, a copy of the second volume of the Canadian Ayrshire Herd Book. Copies of this work can be obtained from Mr. Stephenson. Price, \$2.00. It seems to us a mistake has been made in binding an important book of reference like this in paper covers.

We are pleased to notice that W. C. Edwards, Pine Grove Stock Farm, Rockland, Ont., has engaged as stockman to manage his Shorthorn herd Mr. Joseph Barnett, who goes to Mr. Edwards well recommended, having been stockman for the Hon. John Dryden for a considerable term of years. He also had charge of the cattle, sheep and swine at the Ontario Agricultural College Farm for a considerable time. We know of Mr. Barnett's abilities as a stockman, and feel assured that Mr. Edwards' Shorthorns will go forward.

DISPERSION SALE.

Special attention is directed to the great dispersion sale of pure-bred stock at Mr. Joseph Stratford's "Oakwood Farm," Brantford, on Saturday, July 7th, an announcement of which appears in another column. The offerings include a grand lot of Shropshire and Dorset-Horn sheep, Jersey and Holstein cattle, and Chester White swine. The Jerseys are from the famous stock of Valencey E. Fuller, whose fame as a breeder and handler of Jerseys is world wide. The Holsteins are of the noted Royal Angio stock, exceptionally great as performers. This will be a grand opportunity to make selections to found pure-bred herds and flocks, as Mr. Stratford's advertisement elsewhere intimates. Read it carefully.

H. Bollert, Cassel, Ont., writes:—"My heifer, Jennie 4th, has now closed her second monthly milk record. During the thirty days she produced 1,385 lbs. 11 ozs., or an average of 46 lbs. 3 ozs. per day. Taking into consideration that she was only twenty-five months old, and that it rained more or less during twenty consecutive days of this time, so that pasture was at times all flooded, and that she had nothing but grass, I think it fully bears me out in saying (without fear of contradiction) that she is without an equal in the country, and that Maple Grove is the place where the best only are bred. I will from time to time report what she is doing."

J. Oughton, Crystal City, Man., in a letter to our office of recent date, reports the loss of a very promising five months' old Yorkshire boar, which he was fitting for the Winnipeg Industrial, he having been killed by a kick from a horse. His weight dead was 217 lbs., at five months lacking three days. Mr. Oughton, however, reports having "good luck" with his Yorkshire sows this season. A daughter of Lincoln Lass littered fourteen in her first litter, thirteen of which are now six weeks old and choice pigs. Lincoln Lass herself had fifteen strong pigs in her last batch. A young Gladier sow, out of Lady Laurence, bred by J. E. Brethour, Burford, Ont., has also a fine litter of pigs. The demand for York-shires, Mr. Oughton says, is good.

NORTH BRUCE BERKSHIRES.

The proprietor of this herd is Mr. J. H. Sieffert, North Bruce P. O., who began about five years ago by purchasing individuals of such character that they have already established him as a breeder of good reputation. Mr. Sieffert evidently does not believe in half-way measures, and found that the farmers of his locality were just as critical in their judgment as those living elsewhere. He therefore decided to commence with animals of the best blood obtainable, and not only of the best breeding, but individuals which were sufficiently good to speak for themselves. While inspecting the herd, during a recent visit, we were first shown the aged boar Jumbo, which is entitled to be numbered among the best we have seen. He was bred by Messrs. J. G. Snell & Bros., Edmonton, Ont., and by their celebrated prize-winning (imp.) boar, Enterprise, his dam being (imp.) Maid of the Painted Lady family. Another boar is Boydston Boy, which was bred by S. Coxworth, Claremont. He is by Highclere Prince, and is a very large-boned, lengthy, deep-sided hog, with good covering of hair, descended from (imp.) Sister A, bred by Major Peplow, Carnston, England. The (imp.) boar, Robin Hood, was also used in the herd. He is a fine, smooth, hog, of good length, with exceptionally large bone, and good full hams, strong loins, with an exceedingly good covering of hair of good quality. Among a number of good sows, Lady Oxford, by Huron Chief, is of the right type for present demands. She has exceptional length, with good depth of rib and even finish. She is the dam of Nettie (264), a very lengthy sow of over 700 lbs., with extra breadth, depth of side, a very neat head and even finish. Coquette, by (imp.) Pilot, is another good one which deserves mention; she is a very large sow, although not yet matured. But we have not time to note them all. We could not help admiring an exceedingly good lot of weanling boars, which are equal to any we have seen.
