SMUT

and its attack upon grain

When the smut fungus gains entrance to the growing stalk of wheat, it pushes its way in all directions, travelling in the spaces that surround the cells of the wheat-plant, and derives its nourishment from the sap carried in those spaces intended for the nutrition of the growing grain. At this stage no damage is apparent to the grain.

- A—Germinating smut spore.
- B—The growing portion of the smut fungus.
- C—Cells of wheat-plant.
- D—Spaces between cells filled with sap.

These Barns are Fire and Storm-Proof

Are yours, Mr. Reader? Sometimes your whole fortune is stored in those buildings. Fire and Lightning are no respectors of persons.

"Galt" Galvanized Steel Roofing and Siding are the best Fire Insurance Policy ever issued. A prevention is better than a cure—don't forget that.

The new "Galt" Shingle with its patented Gale-proof Closed-end Side-lock and continuous interlocking and over-lapping bottom lock absolutely defies wind rain or snow to penetrate or injure it.

Covered nailing flanges at both top and sides insure a tenacious grip of the sheathing, which no gale can loosen.

The handsome Gothic Tile pattern warrants their use on the best buildings.

"Galt" Corrugated Steel Sheets are the best made. Straight, true, close-fitting corrugations make a weather-tight roof—fire and lightning proof at the cost of a wood roof.

All "Galt" Galvanized products are made from the Best British Galvanized Sheets which will last a lifetime.

Don't accept inferior goods—the "Galt" kind cost no more than the others.

Our free Catalog "B-3" tells about these goods.
