The Ideal and the Real Priest.

THE CATHOLIG RECORD

The ideal priest has a pleasant life of it, He says his daily mass, recites his office, amuses himself with little children, visits his people and lives to a ripe old age. No trouble, no labor of any kind. The Largest in the World. J. D. KERGAN, M.D., Med. Supt. He for the want of religious instruction. He must found and support Catholic schools. He finds the intemperate habits of the people a stumbling block and a scandal. He must wage war against an influential element in his parish. The church, through some cause or other, is burdened with debt, or stands in need of repairs. The poor of the parish must be looked after and relieved. Here is work enough to do, and done it must be. Money is needed to support the schools. The ex-penses of the church must be met. The poor must not be allowed to starve, and money is needed for their support. The orphans require aid, and again money is needed. As Catholic charity knows no bounds, the real priest makes known to his flock the various needs of the Church, confident that many will heed his words HALL'S BLOCK Cor. of Griswold St. & Michigan Ave. 1000 confident that many will heed his words and correspond with his wishes. But how many there are, who seem to think that the priest is begging for himself, when he appeals for money on these different occa-tions. We pass by the uncharitable and unjust comments of the financial critics among the congregation who are, as a rule, the very men and women who have contributed least to the cause of religion only too glad to avoid it if he could be only too glad to avoid it if he could; but bis duty to God and to his people com-pels him to ask them to defray the ex-

The demand for the "Myrtle Navy" The demand for the "Myrtle Navy" Tobacco is still on the increase, and from every quarter the firm who make it are receiving unsolicited testimony of its growth in public favor. A gentleman from one of the mioing islands of Lake Huron writes, "Your 'Myrtle Navy' is an invaluable solace to the loneliness of the miner's life. I don't know how our men could get along withthe fonctimes of the miner's life. I don't know how our men could get along with-out it. If their stock ran out they would risk swimming to the mainland to re-plenish it, heedless of danger, and I believe they would cross the ice in winter on the same errand if it was not more than an inch thick. Mr. J. R. Seymour, Druggist, St. Cathand of R.
