One of the grand secrets of success in life is to keep ahead in all ways possible. If you once fall behind, it may be very difficult to make up the headway lost. One who begins with putting aside some of his earnings, however small, and keeps it up for a number of years, is likely to become rich before he dies. One who inherits property, and goes on, year by year, spending a little more than his income, will become poor if he lives long enough. Living beyond their means has brought multitudes of persons to ruin in our generation.
