POSSESSION OF ENTIRE HOLY LAND ONE OF STAKES IN PRESENT WAR

The Chief Interest is at Bethlehem, Nazareth and Jerusalem—Shall it be Under British or German Control?—One Report Says a Military Range Has Been Set up on Mount Calvary—Cardinal Bourne Thinks Sacred Shrines Will Still Remain in Christian Hands

LONDON, Mar. 13.—(Correspondence of The Associated Press).—The care of the Holy Places brought on the Crimean War, with the siege of Sebastopol, the battle of Inkerman and the Charge of the Light Brigade, just as the care of those Holy Places, so called, had before that convulsed all Europe with the three Crusades, and yet the care of these same Holy Places—the Holy Sepulcher at Jerusalem, the place of the Nativity at Bethlehem, and the countless other landmarks of the birth of Christianity—are changing hands as an incident of the present war, and almost imperceptibly because of the noise of the conflict in so many other theatres of warfare.

One report is that a military shooting range has been set up on Mount Calvary, the site above all others venerated by the Christian world as the place of the crucifixion. But inquiry establishes that if this rifle-range exists it is at the Gordon Calvary, so-called, after General Gordon of Khartum fame, who designated it as what he believed to be the real site, though it is not the Calvary commonly accepted by tradition venerated and guarded by Pilgrims and the Church, and contended for by European nations. This Gordon Calvary is in the outskirts of Jerusalem some distance from the traditional site of the Holy Sepulcher.

From a military standpoint, all attention to the German-Turkish military operations in Syria has been absorbed in the slow approach southward toward Egypt; and the Suez Canal, that rich prize supposed to be the link between Europe and the Orient. But while this main military object has been going on, it has involved at the same time the steady occupation of the entire Holy Land and advance, with military forces in control at Jerusalem, Bethlehem, Nazareth and throughout the region of the Holy Places, and the French, Italian, British and other custodians of these sites, expelled or interned. Seven of the Italian custodians at Bethlehem—the site of the Nativity—have recently been interned by a member of the Franciscan community located in the outskirts of London.

The sweep of this German-Turkish movement through the Holy Land is shown by the fact that the military railway, on which the approach to Egypt depends, is believed to be constructed to the desert outskirts of Beersheba. This is the same town referred to in Holy writ, and which created the Biblical phrase "from Dan to Beersheba," as it is the uttermost limit of the Holy Land, where it merges into the desert leading to Egypt. It is this biblical point, Beersheba, which is expected to be the military base, to which the railway will bring down supplies from the north, for the advance across the desert, should the attack on Egypt ever be carried out, as it has been loudly heralded. So that Beersheba to-day is performing the same function as in biblical days—the last outpost before entering the desert, 150 miles across, with an ocean of white sand and almost no water holes—none adequate for the watering of a great army. The only cavalry here must be such as is mounted on camels, with the dazing and throats of beasts and riders as poison gas is to the men on the firing line.

Cardinal Bourne, in the course of a talk with the Associated Press mentioned the solicitude felt for these sacred shrines and the gradual way their care was changing hands. He pointed out, however, that the Sultan of Turkey had in past years given guarantees for the continued Christian protection to the shrines, to that while the nationality of this care might change, the Cardinal felt that it would still be Christian. For specific inquiries on the Holy Places, the Cardinal's entourage referred to the Commissioner for the Holy Land a member of the Franciscan community located in the outskirts of London.

Seen at the Franciscan monastery, the Commissioner, Fr. Albert, gave such information as had filtered through. As to the report of a shooting range at Calvary he pointed out that this did not refer to the sacred spot accepted for centuries as Calvary, but to the so-called Gordon Calvary first located by General Gordon a few years ago. After Gordon's services in China, where he became famous as "Chinese" Gordon, he spent some time in the Holy Land and then in the Sudan where he was a victim of the Mahdi at Khartum, which had been guarded for ages.

before the Kitchener Relief Expedition arrived.

The last time Fr. Albert visited the Holy Land he was in company with Lord Bute, and as they passed this so-called Gordon Calvary, Lord Bute stated that Lord Kitchener had told him he supported the claim of General Gordon as to the Gordon Calvary. This was a curious circumstance—Gordon, the victim of Khartum, locating a new Calvary, and then Kitchener of Khartum, supporting the theory of the explorer whose fame was so closely lined with his own at Khartum.

The reports reaching Fr. Albert indicated that the Italian and French custodians of the different Holy Places had been interned by the military authorities, Austrians or some of the Eastern sects replacing them. There are many of their sects—Copts, Greeks, Armenians and even Abyssinians—though little is known of who is in charge, except that most of the Latin custodians are interned.

While changes do not constitute a loss of Christian control yet; they show the shifting of the nationality of that control, which has been a frequent cause of international complication in the past.

Besides the main points of military operation in this locality, like Beersheba and Jerusalem, the whole range of this biblical country is affected by the military activity. But the chief interest is at Bethlehem, Nazareth and Jerusalem. At Bethlehem is the sanctuary of the Nativity, a subterranean chamber 32 feet long, encased in rare marbles and constantly guarded and lighted, with a marble slab marking the place of the Nativity. At Jerusalem is the basilica over the Holy Sepulcher, first built by Constantine, often swept away and built again, and now a vast monument, embracing within its walls and beneath its dome the sacred tomb which had been guarded for ages.
