Wanted

SPECIAL REPRESENTATIVE in this county
and adjoining territories to represent and
advertise an old established business house of
solid financial standing. Salary \$21 weekly
with expenses, paid each Monday by check
drawn from headquarters. Expenses advanced.
Position permanent. We furnish everything.
Address, THE COLUMBIA, 630 Monon Build-
ing, Chicago, Ill.

Logs Wanted

The subscriber will pay cash for water-sun
and sawwood logs—delivered at his mill at
Greenbush; also for a large quantity of birch
timber not more than 10 nor less than 4 inches
in diameter, cut 10 or 12 feet long.
A. ROOT,
Greenbush

Around the Country-Side

ITEMS OF INTEREST ABOUT PLACES AND PEOPLE WE ALL KNOW

CHARLESTON

Miss Dora Webster is very ill with
typhoid fever. Dr. Parvis is attending
her.

Mr. A. W. Johnson is ill.

Mr. Beale, sr., is able to be out
again.

A great many went to Athens last
Sunday evening to hear Rev. W.
Warren Giles.

Miss H. Green has improved her
property with a new fence.

There was no school on Thursday
and Friday, as the teacher was attend-
ing the teachers' institute.

Mr. and Mrs. W. J. Berry, Seeley's
Bay, spent Sunday last with friends
here.

Mr. and Mrs. J. Flood, Trevelyan,
were here on Wednesday.

FRANKVILLE

Mrs. R. Richards and Miss A.
Oliver returned home from Plessis on
Thursday, having spent a few days
with Mrs. (Dr.) Haskins.

Miss McRitchie of Ottawa returned
home on Monday, having spent some
time at Rev. Mr. Oliver's.

Rev. Mr. Robertson of North
Augusta filled the pulpit in the
Methodist Church on Sunday.

Mr. Leacock, an old resident living
near here, was buried on Saturday.
The funeral services were held in St.
Thomas' Church by Rev. Howard, and
the remains were interred at Toledo.
He leaves an aged widow, one son,
several grandchildren and some great-
grandchildren.

The Foresters are to have an enter-
tainment in Montgomery's Hall on
Thursday evening. Mr. Cameron of
Toronto is to furnish the programme.
A good time is expected.

Mrs. F. M. Leely and Mrs. R.
Arnold of Brockville are visiting
friends here.

LYNDHURST

Mr. and Mrs. Geo. Roddick have
returned home from a wedding tour
in Western Ontario. Both are popu-
lar young people of this town and will
receive the best wishes of a host of
friends.

Those interested in skating have
begun operations for a rink at the side
of Mr. James Roddick's steam mill.
The building of a new cement dam,
for flood purposes, in connection with
Mr. G. Roddick's mill, is now finished.
Mr. Harvey has also made improve-
ments on his side.

The workmen employed at the
granite quarry here expect to close
operations this week. This quarry,
owned by Mr. G. Roddick, has
turned out a fine grade of granite and
the work will probably be resumed
next year.

We are sorry to learn of the serious
illness of Mr. John Harvey, a McGill
student, who is now confined in one of
the Montreal hospitals, with typhoid
fever. Mr. Harvey is a son of Mr.
R. Harvey miller and was at one time
principal of the public school here.

Mr. Ford Green is putting a stock
of groceries in his brick store at the
corner opposite the Riverside Hotel.

NEWBORO

Mr. H. M. Pearson of Belleville is
visiting at his home here.

Threshing is the order of the day,
and the sound of the whistle is heard
in our land.

What about a hockey league this
winter? Newboro will have a team
second to none in Leeds.

Mrs. J. P. Tett was in Seeley's Bay
last week, the guest of her daughter,
Mrs. (Dr.) Gardiner.

Mr. Geo. Taylor was in town last
week, extending the glad hand to his
many friends.

Mr. R. Caulder of "A" Battery,
Kingston, is the guest of his sister,
Mrs. J. Lyons.

Miss M. Green, nurse-in-training in
General Hospital, Boston, is visiting
at her home here.

Dr. McGonigle of Sudbury is the
guest of his mother, Mrs. McGonigle.

Mr. A. Wallace, who has been seri-
ously ill for some time, is slowly
recovering.

Mr. J. McGonigle is improving from
his recent serious illness.

Miss B. Sandon left on Wednesday
for New Brunswick, N. J.

Misses S. McCaffery and L. Thomp-
son were in Portland last week, the
guests of friends.

It is with deep regret we chronicle
the death of Mrs. Patrick McKian, a
highly esteemed lady of this place,
which occurred at her home here at an
early hour on Sunday morning. De-
ceased, who was Miss Catherine Brady,
was married to Mr. P. McKian, who
ran a large furniture store here for a

Look at Your Label

The date indicates the time to which your
subscription is paid. If you find that you
are in arrears for \$1.00 or \$2.00, we will
esteem it a favor if you will send the
amount in this month. Perhaps you for-
get this little matter. Of course, the
amount is small, but the aggregate sum is
several hundred dollars—rather more
than we can afford to carry—and so we
address this to you just as

A Gentle Reminder

POTATO BLIGHT AND ROT

Reports from many districts indicate
that potato blight and rot are again
this season causing serious loss to the
farmers of Canada. This disease has
been quite prevalent in many parts of
Ontario and Quebec, and although a
good preventive is known in Bordeaux
mixture few growers seem to have
sprayed their potatoes. Mr. L. H.
Newman of the Seed Division, who
visited nearly every county in Ontario
during the summer, confirms this state-
ment and reports that in many cases
he found growers sadly wanting in
knowledge of the disease and methods
of preventing it.

There are two known blights which
affect the potato in America, the early
blight and the late blight, which causes
the rot. The early blight causes the
spitting of the leaves early in July.
These spots increase in size, unite and
form large masses of diseased tissue.

The late blight is the one which
causes by far the greater loss, both by
causing rot. This disease passes the
winter in the tubers, and in the spring
when the vines begin to grow it starts
to develop, growing up through the
tissues of the potato stem. During
the latter part of July it produces on
the undersides of the leaves myriads of
tiny spores, which in the mass have a
frost like appearance. These spores
make the rust stage, which is caused
by the leaf tissues drying up where the
spores have been feeding on them, and
causing dark brown spots. It is from
this stage that future infection takes
place, as the spores are carried rapidly
by the wind and alight on the foliage.
They are also washed below the surface
of the ground and reach the young
tubers, and in time cause the rot. The
potato rot itself is a dry rot; the wet
rot comes through decay of the tubers.
It is when the tubers begin to form
that the blight begins to appear. If
the season is fairly favorable even the
earliest varieties may be kept growing
right on into September by thorough
cultivation and spraying.

Experiments conducted at the Ver-
mont Experimental Station proved
that over half the crop of marketable
potatoes was produced after August
22nd. In Ontario the potato vines are
usually dead shortly after that date.
The great gain in keeping potatoes
growing until late in September is here
very apparent. Very marked results
in spraying with Bordeaux mixture for
blight have been obtained by the Ver-
mont Station, the Irish Department
of Agriculture, and the Dominion and
Provincial Experimental Farms. In
1901 experiments by Mr. Macoun with
eight varieties showed an average
difference in favor of spraying of 100
bushels of marketable potatoes and in
1902 with 11 varieties the average
difference was 120 bushels per acre.
With the Empire State variety there
was a difference of 165 bushels per
acre. In 1902 the vines were sprayed
four times, on July 10th, July 22nd,
July 30th and August 13th, the formu-
la used being 6 lbs. bluestone, 4 lbs.
lime, 40 gallons water. While the
Colorado beetles were active eight
ounces of Paris Green were added to
each forty gallons of the mixture. For
large areas the expense for bluestone
would be in the neighborhood of \$6
per acre, and the total expense prob-
ably not more than \$8 or \$9. Even
at \$10 per acre the result of the above
experiment for 1902 would show a
profit of \$88 per acre, potatoes selling
at 40 cents a bushel.

These results should convince potato
growers of the importance of spraying
their potatoes for the prevention of
blight and rot. The work must be
thoroughly done. Spraying should be
begun in the middle of July and the
vines kept covered with the mixture
until the close of the season.

It is generally recognized that some
varieties of potatoes have greater power
than others to resist this disease, and
it is safer to cultivate only varieties
which are superior in this respect. All
diseased refuse from an affected
field should be burned. It is also ad-
visable to avoid using for seed pur-
poses potatoes from a diseased crop,
even though the tubers appear healthy.

ANNIVERSARY SERVICES

Services in connection with the
17th anniversary of St. Paul's Pres-
byterian church were held on Sunday
last. The Rev. G. A. Woodside, M.A.
of Carleton Place preached both morn-
ing and evening. No service was held
in the Methodist and Baptist churches
in the evening and the seating capacity
of St. Paul's was fully taxed to accom-
modate the large congregation that
assembled. It was a very bright ser-
vice, characterized by fine choral music
and devout attention to the words of
the speaker. The Rev. G. A. Wood-
side is an exceptionally able speaker,
clear, earnest and emphatic, and his
addresses were heard with pleasure.

On Monday evening the anniversary
entertainment was held in the high
school hall, and the room was crowded.
The pastor of St. Paul's, Rev. I. N.
Beckstedt, presided. The subject of
Mr. Woodside's address, "The Beauti-
ful," afforded full scope for his really
superior analytical and descriptive
powers, and his masterly treatment of
his theme was thoroughly appreciated
and enjoyed by the audience. The
programme opened with an anthem by
the choir. Mrs. Libbie Beach-Knox,
the talented vocalist, was the principal
contributor to the programme. Mrs.
Knox has before been heard in concert
by Athenians, but never to better
advantage, and she was rapturously
encored on each appearance. Under
the inspiration of the large and appre-
ciative audience, Mrs. Knox was moved
to change one of her numbers and gave
a thrilling song, one of the most diffi-
cult and beautiful in her repertoire.
To repeated encores she bowed
acknowledgments, but at length yielded
and sang "Comin' Thro' the Rye" with
becoming spirit and inflection. Mr. S.
Manhardt received his customary
cordial greeting, and his fine trombone
playing was rewarded with an encore.
One of the gems of the evening was a
quartet by Mrs. Lamb, Miss A.
Watson, Messrs. Kincaid and Clow.

At the conclusion of the programme,
Rev. Mr. Beckstedt expressed his
appreciation of the services rendered
by all who had contributed to the suc-
cess of the Sabbath and Monday even-
ing service, and the national anthem
closed what had proved to all a very
pleasant entertainment.

WANTED—Quickly, few persons to represent
long established wholesale house among
retail merchants and agents. Local territory of few
counties. \$18 salary and expenses paid weekly.
Expense money advanced. Commission extra.
Permanent engagement. Business successful.
Previous experience not essential. Enclose
self-addressed envelope. Address, REPRESENT-
TENT TRAVELERS, 22 Dearborn St., Chic-
ago.

Almost Impossible.
Jack—Why wouldn't she marry you?
She loves you to distraction. I know it,
because she told me so. George—She
insisted on my proving that I am not
already married, because she says there
is a great deal of bigamy nowadays.
Well, it is easy enough to prove that
one is married, but how the dickens
am I going to prove that I am not?

Painless Spanking.
Father (cutting the whip smartly
through the air)—See, Tommy, how I
make the horse go faster without strik-
ing him at all. Tommy—Papa, why
don't you spank us children that way?
—Glasgow Times.

A True Statement.
Cause of Sick and Tired Women.

Why are there so many sick
and tired women? Not one
woman in ten is as well as she
would like to be, or in fact as well
as she might be.

There are two special causes
for the ailments of women, 1st, a
run down condition, due either to
the stress and excitement of
modern life, the way of eating,
dressing and taking pleasure, or
to worry and overwork; and,
some uterine disorder.

The second cause, i.e., a uterine
disorder is often brought on by
neglecting the first, i.e., the run
down condition.

If a woman would heed the
warning of nature when she has
backache, or frequent headaches, is
nervous and irritable, and has that
tired and all gone feeling, and
would then take a box of Dr.
Hugo's Health Tablets for Women,
that admirable tonic for the fe-
male sex, to restore her weakened
vital powers, thousands of cases of
uterine disorder would be pre-
vented.

There are two special causes
of the uterine disorders which
affect so many women to-day.
The first is a neglected run down
condition, above referred to, which
if neglected too long develops into
a uterine disorder. The second
is some neglected menstruation
trouble, either irregular or painful,
or scanty or profuse menstruation,
any of which when neglected too
long is sure to bring on a chronic
uterine trouble.

Again, if those suffering from
such difficulties would take a box
of Dr. Hugo's tablets, an ideal
regulator for women, they would

prevent a uterine disorder, which
in the end may lead to a surgical
operation or even to the grave.

What we have tried to make
clear in the foregoing is this, that
Dr. Hugo's Health Tablets for
Women, taken in time, will in-
evitably overcome a run down
condition, will make women regu-
lar, and thereby prevent uterine
disorders and serious illness.

How necessary it is then for the
health and happiness of women,
that they should not neglect the
slightest uterine disorder, or even
that tired feeling which comes
from a run-down condition.

Just as surely as a stitch in
time will save nine, just so surely
will Dr. Hugo's Health Tablets
for Women, taken in time, save
women nine-tenths of the suffer-
ing to which they are subjected
simply through their neglect.

If you are in a run-down condition, feel tired, nervous, irritable or
melancholy, if you suffer from indigestion or constipation, if you have
any menstruation trouble, white or other uterine disorder, if, in a word,
you do not feel as well as you would like to, do not delay one moment in
taking Dr. Hugo's remedy.
The cost is small, the results are great. Only 50c. for 72 tablets
enough for an extended treatment. At dealers or by mail from S. N. Rob-
inson & Co., Coatsworth, Que.

LOVE.

Love's a whetstone to the mind—
Anacreon.

Love stoops as fondly as he soars—
Wordsworth.

Love's best habit is in seeming trust
—Shakespeare.

They who love are but one step from
heaven—Lowell.

Love is not where most it is pro-
fessed—Spencer.

The deeper the love the more exact-
ing it is—George Sand.

There is but one kind of love, but
there are a thousand different copies
of it—La Rochefoucauld.

Love is never lost. If it be not re-
ciprocated, it will flow back and soften
and purify the heart—Irving.

Love looks through spectacles which
make copper appear like gold, poverty,
like riches and foul tears like pearls—
Cervantes.

Natural Law.
The reputation of Mr. George Wash-
ington Jones for honesty had been
slightly tarnished for some years, but
his son Erastus was not supposed to
know it.

"Cur's how cold contracts 'tins," Mr.
Jones remarked thoughtfully one even-
ing. "Now dere's Max'milian Smith's
wood pile for a case. 'Pears like dat
wood pile is shrinking steady since dis
las' col' spell set in."

"Seems as if our pile behind de stove
was getting bigger, paw," hazarded
Erastus, gazing at his parent for ex-
planation of this phenomenon.

"Course it am, chile," said Mr. Jones
calmly, "'cause de room is hot an' heat
expands 'tins. 'Pears like yo' gwint
to school don' put much wisdom into
dat head of yours."

A Chinese Dog Story.
The following dog story is a favorite
one in China:

"There was a Chinaman who had
three dogs. When he came home one
evening he found them asleep on his
couch of teakwood and marble, whip-
ped them and drove them forth.

"The next night when he came home
the dogs were lying on the floor. But
he placed his hand on the couch and
found it warm from their bodies; there-
fore he gave them another whipping.

"The third night, returning earlier
than usual, he found the dogs sitting
before the couch, blowing on it to cool
it."
