

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. Correct any constipation by giving small laxative doses of Ayer's Pills. All vegetable, sugar-coated.

Old People of Athens Need Vinol

It Strengthens and Vitalizes

With old age comes feebleness and loss of power; the organs act more slowly and less effectively; the blood is thin, sluggish and watery; digestion is weak and food is not assimilated as it used to be.

Vinol repairs worn tissues and checks the natural decline. It tones up the digestive organs, aids assimilation, makes rich, red blood, and strengthens every organ in the body. In this natural manner Vinol replaces weakness with strength.

Vinol is not a patent medicine but a delicious cod liver preparation which contains all the medicinal body building elements of cod liver oil in a concentrated form, taken from fresh cods' livers, the useless oil eliminated and tonic iron added.

It is because we know so well of what Vinol is made that we offer to return money if it fails to benefit. J. P. Lamb & Son, Druggists, Athens, Ont.

RAILWAY SERVICE

The present business situation throws into clear relief one important difference between railways and most other public service corporations. Street railways, waterworks, lighting concerns, etc., feel more or less the effects of fluctuations in general business, but they do not suffer acutely from such changes because the number of people in a city does not decrease and the extent to which they must use street cars, water and light does not greatly diminish, even when industrial depression becomes pronounced. But railways bear such a relation to industrial and commercial enterprises of all kinds that every crop failure, every panic that shuts down factories and reduces the sales of wholesale merchants, reacts violently on traffic. The freight business of the railways of the United States has decreased enormously as compared with the corresponding period a year ago. The railway cannot like the manufacturer, reduce its operations in proportion to the decline in its business. To shut down entirely would be to sacrifice its franchise, and railroad commissions and the public protest violently against reductions in service, especially in passenger service, even when they are nowhere near in proportion to declines in earnings. Since railways are exposed to such fluctuations in business it is essential that in times of prosperity they should be permitted to earn much larger profits than most other concerns whose charges are subject to public regulation

in order to make good the losses sustained in periods of depression.

This consideration was advanced by many leading transportation experts during last year as an argument against adjusting rates solely with regard to the traffic being handled at that time, but usually the argument was jauntily dismissed with the gratuitous assurance that the country's prosperity was established on such a firm foundation that nothing could happen that would hurt the business of the carriers. Subsequent events show clearly who was right. It is to be hoped that the lesson will teach public authorities to adjust rates in future with more regard to actual conditions and with less regard to theories formulated with a cheerful ignorance of or contempt for facts and probable developments.—Railway Age, Feb. 14, 1908.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr Shoop's Restorative. The Restorative is a genuine tonic to tired, run-down nerves, and but a few doses is needed to satisfy the user that Dr Shoop's Restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of exercise and outdoor air ties up the liver, stagnates the kidneys, and oftentimes weakens the heart's action. Use Dr Shoop's Restorative a few weeks and all will be changed. A few days' test will tell you that you are using the right remedy. You will easily and surely note the change from day to day. Sold by all dealers.

BASE-BALL

We boys are gathering on the street, Base-ball is all the talk; The outside champions we'll meet, And over them we'll walk.

We have a little team in mind, Old Athens to uphold— A better bunch you will not find, We're worth our weight in gold.

Parson Parish will twirl the sphere— The man of many curves— While Mac, McClary, never fear, A biggest "back-stop" serves.

And sometimes Parish from the "box" With "first" trades for a space, Until the new man gets his knocks Or wins the ladies' grace.

For Earl will hold the sack on "first," As in the years gone by, While Guy to quench our burning thirst,

With water-pail stands nigh. At "second" Dar Wilson's face you'll see,

On his catch we all rely; A good swift player Dar will be, He'll get a hit or die.

On "third" Frank Dier, a man of speed, Who works up in the bank,— He'll make the swiftest men take heed, Will selfsame little Frank.

At "short" we have a brilliant star, A man of many a word; Jack Wiltse's fame is known afar, You're slow unless you've heard.

And in the "field" we have the men, That proved their worth last year,— Yes they're playing with us again, And of their work you'll hear.

With such a bunch we do not fear, To talk and boast and brag, Nor challenge any team that's near, To try and down our flag.

There's Delta, Frankville, and there's Lyn, With Brookville and Elgin too;— We licked them once,—we'll do it again,— Of course that's nothing new.

The old team that upheld this town, Was good we will admit; But since our bunch has come around, They're strictly out of it.

So don't be frightened if we yell, It's nothing but the team, Showing our faith is founded well, And not "just" an idle dream.

Salvation Army Praise

"I feel it my duty to testify to the benefit I have received from the use of Psychine. While travelling in New Ontario conducting special meetings I contracted a very bad cold, which gradually developed into Bronchitis of the worst form. I was advised to try Psychine, which I did, and after using but a few bottles I was completely restored to health. I recommend this wonderful remedy to sufferers from Bronchitis and other troubles."

Later: "I wish to add that my voice, since using Psychine, is stronger and has much more carrying power than it had before I had bronchitis, and the vocal chords do not tire with speaking."

P. TILLY, Capt. Salvation Army, Ann St., Toronto, Aug. 13, 1907.

An excellent remedy for Rheumatism, Lame Back, Etc., Etc.

Read the following testimonial from a man you all know:

Mr. W. A. Singleton, Portland, Feb. 8, 1908.

Dear Sir,—In the winter of 1905 I was laid up with La Grippe and unable to get relief from several other patent medicines. I was convinced by several of my neighbors to try St. Regis Lumbago Cure, and I can thankfully say it was the first thing that gave me immediate relief. Since that time I have never been without it in my house, and cannot speak too highly of it, especially for children, as it will break up a cold at once. I have also found it a sure cure for lame back.
