### TENACIOUS FORM OF SYSTEMAT-

Not an easy thing to cure, and a remedy that makes good deserves the credit. Catarrhozone cured Chas. H. Webb, of Woodstock, N. B., who writes, "For a number of years I was troubled with systematic catarrh. It was a very tenacious form of the disease and nothing helped. I used Catarrhozone and got relief. To build up my system I used Ferrozone. This combination can't be beaten. They cured me." Your case may be chronic, but Catarrhozone will drive out catarrh and keep it out. Two sizes, 25c. and \$1.00, at all dealers, sold under guarantee of satisfaction.

Flesherton Fire.

Flesherton, Oct. 4.—The worst fire Flesherton has had in two years occurred yesterday afternoon, when a house owned by W. A. Armstrong was destroyed. It was worth about \$600 and insured.

But its tenant, a Jew pedlar named Poevenit, lost about \$4,000 in household goods and stock, besides an account book, in which was \$1,600 of accounts due him by people throughout the county, was burned. Provenit was badly scorched about face and hands. Only a few months ago he was burned out in Teresto and his wife and child burned to death.

The information was by no means the most acceptable to many, and in view of the general complaint which greeted the announcement of the increase the following table of the prices of coal in other cities will be of interest:

"I am sure we all feel deeply for him in his trouble," added the Mayor.

ROUTINE MATTERS.

Ald. Potter made a verbal report

Ald. Potter made a verbal report stating that the Property Committee had selected the site for the new Civic Electric Light plant on the Waterworks Park, the building to be erected fifty feet back from Grand avenue, near the railway, from which a switch would be run in to carry in coal and machinery. The action of the committee was ratified by the Council.

Ald. Bullis wanted to know when the Council intended to take action with regard to the laying of a granolithic walk on Wellington street, between Adelaide and William Sts. This was badly needed, but seemingly the Board of Works neglected to take any action, although he had drawn the attention of the Chairman of the Board to it early in the season. It was also a fact that this portion of Wellington street was constantly blocked up with old buggies, which he thought had no right to be left as an obstruction to the street.

Ald. Westman remarked that there were several other cases such as Ald. Bullis drew attention to. The

The corner of Third and King streets—one of the most central portions of the city—was all summer littered up with old sorap iron, bricks, etc. He thought that the Board of Works should see to it that companies were not allowed to disfigure the streets in this manner.

On motion of Ald. Potter, the matter was referred to the Board of Works to report on at the next regular meeting of the Council.

Ald. Westman stated that he had moticed that several of the city street signs had been blown. He thought that the superintendent of
