SATURDAY BYP'G DEC. 31, 1881

The Cloffing Year.

We are within a few hours of the last of 1881, and at such a season it is natural that not only serious and nead, but also pleasant recollections of the year that is about to close should crown in on the memory. We have much to be thankful for during the year that is now near ite last. Our national blessings are among the dispensations of Providence; our national injuries are the works of man. The harvests have been abundant, manufactures extensive, business brist, and wages in general high. This is certainly a satisfactory state of affairs when we consider the universal stagnation of a few years ago, and there is many a nation besides cur own that has reason to rejoice at this marked change for the better. But it is annoying to think that in Canada much of the benefit that might accurate from this commercial resuscitation is handiseaped by the taxes imposed by our Gevernment, which have increased the cest of living from twenty-five to fifty per cent., and which increase bear appealedly hard on the mechanic and wages good, and with few exceptions there is comfort, plenty and content ment. We look to the people to right all these wrongs. The harvest have been accurated the cest of living from twenty-five to fifty per cent., and which increase bear appealedly hard on the mechanic and the said exceptions. The assassin these bracked off into a wages good, and with few exceptions there is comfort, plenty and content ment. We look to the people to right all these wrongs. The proper and the vast exceptions and triumph. In the energy of the people and the vast exceptions and triumph. In the energy of the people and the vast exceptions and the vast exceptions, as yet undeveloped, Canada has the prospect of a glorious future, and the centre of the course of examining a medical to the course of examining a medical the course of examining a as yet undeveloped, Canada has the prospect of a glorious future, and the coming year bids fair to be one of greater progress and prosperity than the

greater progress and prosperity than the past.

Standing as we now do between the old and new year, we wish all our distinct and readers a happy new year, and all the joys and health giving comforts of the season. It gives us genuine pleasure to think that we now wish the compliments of the season to so many, a very considerable number in fact, whe have been readers and warm friends of the season to so many, as a very considerable number in fact, whe have been readers and warm friends of side. a very considerable number in fact, whe have been readers and warm friends of the Mencury tor nigh twenty years, and to feel that our intercourse during that long period has been of the most "Col. Corkhill's head," said the witness, "has a very marked depression upon one side." the vicissitudes incident to journalistic life we have been able to retain the respect of our large circle of readers.

The Election on Monday.

Our readers all know that the voting Our readers all know that the voting for Mayor and Aldermen takes place on Monday. We have already very plainly expressed our opinion with respect to the Mayoralty and the third term, and we fully expect that the ratepayers, acting on their own judgment and good sense, will support our views, and give practical expression to their feeling that the highest office in the gift of the people in this city should not be held by any one man for a succession of years. As regards the wards the ratepayers know their duty, and if they do not elect the best men it will be their own fault.

Methers! Methers!! Methers!!! Methers!!!

Are you disturbed at night and broken or your rest by a sick child relating and crying with the excrusiating pain of cutting teeth? If so, go at once and get a bottle of Mss. Winslow's Soormine Syaup. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother o- earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic to the wards the ratepayers know their duty, and if they do not elect the best men it will be their own fault.

It is garied earn by the terms of the fault of the properties of the continuous contents to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

the Wassers of the Allan line, Capt. Archer, from Portland, bound to this port to leave with the people of other and more processors on the south-west point of Mnd Island, fifteen miles from Yarmouth, at 9 o'clock this morning during the dense fog. There was a strong breeze from the southward, with a heavy sea on shore, and hor foreward compartment has filled with water. Her earpe, which consists partly of wheat and flour, is being thrown overboard, and if the weather is favourable there will be a good chance of getting her off.

The pursar of the steamer Moravian, ashore at Mnd Island, has arrived as the armouth, and about half of her is afloat. The hands were throwing over grain, apples, beacon, and about half of her is afloat. The hands were throwing over grain, apples, beacon, and about half of her is afloat. The word to persons, meant thereby a sharper or swindler. But it is no longer or swindler is disturbed, and who is bordering or fanatioism, a distorter—an idiot outside of the asylum.

But smile scin the form of the first three will be a swindler or Ashore as mud Islam, has arrived at Yarmouth, and reports as follows:—The ship remained quietly on the bottom, and about half of her is afloat. The hands were throwing over grain, apples, beacon, and cheese, and were in the hopes of getting her off at high water. They were running out anchors to keep her bows straight on shore. Passengers and crew are all safe, and arrangements were made to land them on the island, with plenty of food and clothing, in case of a blow. If the weather continues fine no doubt the steamer can be got off safely with comparatively little damage. On word being received in the city to-night, the Dominion atsamer. Newfield was at once despatched with steel hawsers to assist in getting the Meravian off.

### Cause and Effect.

The main cause of nervousness is indigestion, and that is caused by weakness of the stomach. No one can have sound nerves and good health without using Hor Brrraus to strengthen the stomach, purify the blood, and keep the liver and kineys active, to carry off all the poisonous and waste matter of the system.—Advance.

An effort is being made to make Alexdrie, near Corn wall, the mechanical metropolis of the Canada & Atlantic Railway, a free site for the workshops and freedom from taxation being the bounty officered.

Annitoba lots are still being tried on in Toronto, and they are taken up at high figures though in nebulous regions All right, but wait for the reaction.

### The Peruvian Syrup

s an iron tonic, prepared expressly to supply the blood with its iron element. Being free from alcohol in any form, its energizing effects are not followed by cor; responding reaction, but are permanent, infusing strength, vigor and new life into all parts of the system, and building up an iron constitution. It is an excellent substitute for wine and brandy where a stimulant is needed. Sold by all drug-

One of the candidates for the civic chair in London get off a good thing on Monday. He argued strongly in favour of keeping the number of aldermen at the present figure because it was harder for the Great Western Railway to buy a larger than a smaller number. There may be something in that.

GUITEAU'S TRIAL

Guiteau—Fill bet you could put your foot in the depression of his head.
Witness—The depression is very similar to that noticed in the prisoner's head. (Laughter.)
Guiteau—On, he's cracked a great deaworse than I am.

The Canadian Embargo on Uattle.

The Globs very properly calls the a sention of the Minister of Agricultum to his persistent neglect of the most in was discussed at a late meeting of the Michigan Shorthorn Association, when a resolution was passed asking Congress to urge upon the proper department at Washington, "That an order be issued of a like character to that issued by the Dominion Government, to remain in force so long as such regulations shall continue, and if relief cannot be obtained in this way, we request our representatives to procure such legislation as will accomplish this purpose." In the face of such a declaration and recommendation, surely it is the duty of the Hon. Mr. Pope to take such action as will modify this one sided legislation of our Government.

McInnes, McInnes, O'Gilvie and McKay — all four Scotchmen — have been appointed to the Senate. Now for a howl from the Irish Canadian.

FIRST PRIZE.

The old town clock in the market tower Folled sadly the passing midnight hour, and seemed to say, as I bent to hear, "I, the last of all, say farwell. Old Year," Then in darkness the Old Year passed away, and the new one brought in the light of day.

SECOND PRIZE.

Now the merry bells are ringing,
Little children laughing singing—
Oer the snow we merrily aide,
Or on the lee weswiftly slide;
Or on the lee weswiftly slide;
With lightning speed worting slega;
With lightning speed with laugh and song;
Or nestle round the cheerful fire,
Not dreading now a parent's ire.
Joy reigns supreme, and festive other
With lightning speed seah one draws
Some treasured gift from Sante Claus.
