Reduction Sunday In a Number of Churches.

A rather small head mounted on the shoulders of a tall, slim man; a chin rather forward; a firm mouth hidden by a drooping gray mustache; sharp nose and a pair of small piercing eyes surmounted by eyebrows that rise and fall and are the most expressive feature of an expressive face, a rather low ahead and a good head of iron gray hair combed in two "cart wheels" over the forehead—such was the man who held a packed church for an hour and a half at the anniversary service of First Methodist Church, last evening. Such was the man as seen by the crowd tha. stood in the side aisles and overflowed: into the choir room—a man apparently of the anniversary services in St. Giles' Anniversary services in St. Giles' The Lost Chord' in the evening.

St. Giles' Anniversary.

Itection for the Lord's day. Do you think you can steal from God and escape? He has given you six days to provide for your own puny self and one exall from God and His Son.

Ar the magic hand a set all from God and His Son.

Ar the morning service Rev. Dr. Smith of Centenary preached a sermon of exceptional eloquence and beauty. His text was, "They pitched their tents to wards the sun rising." He pointed out that it would have been natural for the children of Israel to pitch their tents to wards the setting sun, as behind them were the records of God's great manifestations, but they resolutely set their tents to wards the stening sun, as behind them were the records of God's great manifestations, but they resolutely set their that it would have been natural for the children of Israel to pitch their long record of God's great manifestations, but they resolutely set their that it would have been natural for the children of Israel to pitch their long to provide the set along the set along th in the side aisles and overflowe! into in the side aisles and overflowe! into the choir room—a man apparently of nervous temperament but great activity; of southern accent modified by travel and contact with all sorts of conditions of men. What the congregation heard was the clear, ringing voice of a man of great personal magnetism, a man accustomed to denouncing sin and vice in every form in the most outspoken, numistakable words.

Dr. Sam W. Small, of Atlanta, sorgia, talked to the great gather-g from the text, Poverbs 14: 34: tighteousness exalteth a nation but

when you go down to the polls and help the gang which is helping to rob and debauch the people? A man who wants to keep his conscience void of offence will always seek the guidance of the

spirit of God upon such an occasion Dr. Small compared conditions in the old country and America, much to the canada. "I am especially pleased with the alertness of the people of Canada, the high tone of their ideals and the purpose with which they have prosecuted all good and just ends, and right here in Hamilton I see progress which gives me great confidence for the future. But we are not out of the woods yet. We have the same God to deal with. Do we think we can sin along the same lines as the nations of old and yet escape their punishment? If God destroyed Sodom and Gomorrah will he not also destroy New York and Hamilton if their sins are the same? When did we get such equality with the Omnipotent that we can say we will do as we please. We cannot do it. As surely as we commit the same sins we will suffer the same punishment as those other nations. They are digging up the ruins of those great cities of ages ago, and bringing them to our museums as evidence of their greatness and glory, and of their sin, degradation and ruin, and the same thing will happen to us unless we live nearer to God than they evidence of their greatness and glory, and of their sin, degradation and ruin, ment. and the same thing will happen to us unless we live nearer to God than they

ST. GILES' ANNIVERSARY.

The anniversary services in St. Giles' Presbyterian Church yesterday were attended by large and attractive audiences. Rev. J. J. Paterson, B. A., of Sarnia. was the speaker, and he had messages which commanded the atten-

tion of all.

In the morning he selected for his text the story of Shadrach, Meshach and Abednego. He said the man who wrote the book of Daniel belonged to the true Christian kind. At the time referred to the people had degenerated into such a state that their reply to questions which should have received very careful attention was "What's the use?" That in itself showed that they thought more of themselves than of the cause. Under such circumstances it must have taken For Sam W. Small, of Atlants Georgia, talked to the great gathering from the text, Poverbs 14: 34: "Righteousness exattet hantoin-but sin is a reproach to any people." Such, said Dr. Small, is the deliberate judgment of the wisest many who ever lived. After long experience he deliberately came to that conclusion, which has never since been challenged. This axiom is as true to the deliberate of the deliberate of the wisest many who ever lived. After long experience he deliberately came to that conclusion, which has never since been challenged. This axiom is as true to the conclusion, which has never since been challenged. This axiom is as true to the conclusion, which has been their used of the same as a matter of law, or was a debatable question. Since the time of Jesus Christ it is no longer debatable. We have varying standards of righteousness, set by various philosophers and fooleoophers, but since Christ came into the world as the book of Daniel, but it has been been concluded the property of the book of Daniel, but it has been their use of right or word of sin there must be a support of the same with the same and the book of Daniel, but it has been their conclusion, which would be a state that their reply to questions it was a matter of the same with a substance that might arise and proper the proper and the devil. What will that cloud the proper and the devil. What will that cloud the proper in the proper and the devil. What will that christian man answer the Holy Spirit when asked why he went marching to the polls and yould not say they delieve in the substance that might arise so he promised the Holy Ghost which would direct his followers. Suppose he had been their use ever since.

Christ said, "When the spirit of truth comes it shall lead you into all truth"—and that is what it is here for to-day. Sometimes the church divides upon the simplest of the proper and the could not have a substance that might arise so he promised the could not have a maswered. Carbon the proper and the could be a substance th

HARD WORK IN THE WEST

A large number of members and a rents of Ryerson Methodist Chur attended the services yesterday, when Rev. William Vance, B. A., of British Columbia, delivered excellent sermons. For some time Mr. Vance had been a advantage of America, and particularly For some time Mr. Vance had been a Canada. "I am especially pleased with preacher in the mining and lumbering the alertness of the people of Canada, camps in British Columbia, and yesterpreacher in the mining and lumbering camps in British Columbia, and yesterday described in an interesting manner the life and habits of the men among whom he preached. He spoke on the great number of temptations that surrounded these men and explained how, after receiving their wages, they were enticed to the saloons, where their money was soon separated from them. These saloons provided special attractions on pay night and it was these attractions on pay night and it was these attractions that made the work of a preacher so difficult. In relating his own experience the speaker said he had the greatest difficulty in getting any enticed to the saloons, where their meney was soon separated from them. These saloons provided special attractions on pay night and it was these attractions that nade the work of a preacher so difficult. In relating his own experience the speaker said he had the greatest difficulty in getting any person to attend the services and it was only after intermingling with them and becoming one of them that he was able to fulfil his mission. He also related many amusing and exciting experiences, which he had had. In conclusion, he made a strong appeal for young men to aid in the great missionary movement.

To an attentive and interested congregation the evils of the liquor traffic were expounded last evening in Emerald Street Methodist Church by C. K. Calhoun, Montreal, General Secretary of the houn, Montreal, General Secretary of the mean that infidelity of which it is said. The fool in his heart hath said there is no God.' I have no time to bother with that sort of fool. The infidelity I refer to is that sort which dishonors God while professing to serve him. It is the kind of infidelity which says God is not in our governments; that the question of license or other public evil is entirely between me and my constituency, and God has nothing to do with it."

Getting thus back to the liquor question again, Dr. Small said: Do you know the devil would not have a saloon in hell. He don't want them there. He is too much of a gentleman. If some power were to establish 78 liquor shops in hell—as they have in Hamilton—the devil would vacate and rule the place of wireless.

If there were none of this national infidelity there would be a greater pro-Y. M. C. A. for the Dominion, He divided

many of the breweries was depreciating in value, and it was only a matter of time when the stock will be of little value. The people were awakening to the evils of the liquor traffic, and it would not be long before it was entirely done away with. When a young man in business commenced to drink his value in the commercial world decreased. In referring to religion, Mr. Calhoun said that it was impossible for a hebitual drunkard to worship God, as his brain was crowded with passion and evil thoughts.

At the conclusion of Mr. Calhoun's ad-

dress Mr. Best, Secretary of the Hamilton Y. M. C. A., spoke briefly.

AGAINST COMPENSATION.

AGAINST COMPENSATION.

In Victoria Avenue Baptist Church last evening Rev. H. Edgar Allen, the pastor, preached a powerful sermon on temperance. There was no panacea, he said, that would meet all the evils that resulted from the liquor traffic. Man had a natural craving for excitement, and that craving too often found its satisfaction in stimulents. Man was meant to be social, and any remedy for the great evil must provide some kind of social intercourse. In a detailed manner Mr. Allen explained the many reasons why he was opposed to the liquor traffic. He read a number of statistics which showed the large number of deaths that were traced to the liquor traffic. In speaking of compensation Mr. Allen saio that a license was purchased from year to year, and the saloonkeepers understood that they would have to take a risk before they bought it. Their profits in the business were more than in proportion to the risk that was taken. In detail Mr. Allen further explained why no compensation should be given.

HERKIMER BAPTIST. HERKIMER BAPTIST.

On Sunday at Herkimer Baptist Church the anniversary of the Bible school was held in conjunction with rally and temperance day. In the morning a special piece of music was rendered by some of the scholars, and a special sermon was preached by the pastor, Rev. H. McDiarmid, B. A., to the young people. His subject was a bunch of flowers, namely the rose, lily, violet, daisy and a four-leafed clover (character, friendship, success and education), and he deduced various lessons from each. In the afternoon Dr. C. V. Emory, assistant superintendent of Centenary Sunday school, spoke on temperance to a large number of children and friends. He gave a fine address, and mentioned large number of children and friends. He gave a fine address, and mentioned the fact that at least 6,000 people die in Canada annually from the effects of strong drink. In the evening the pastor again preached and gave an eloquent discourse on the temperance question from and educational and moral aspect, and also explained how the local option is accessing the country.

CENTENARY CHURCH.

A large congregation gathered yesterday morning for divine worship. Dr. Tovell was the preacher, and gave a very practical discourse on "The Disciples Rowing Against Contrary Winds." He drew a vivid picture of the scene. Christ feeding the multitude, then sending them to their homes; then telling the disciples to row over the lake, while He went up into the mountain to pray. The preacher said most men prefer smooth sailing over the sea of life, and yet the storms that may come may after all be best for us. After the electric storm the air is clarified and we breathe a sailing over the sea of life, and yet the storms that may come may after all be best for us. After the electric storm the air is clarified and we breathe a purer atmosphere. After the transfiguration came the cruciffxion, and yet it was the latter that brought the universal blessing. Speaking about rowing against the contrary winds the preacher dwelt strongly on the fact when a man goes straight along the line of Christian duty he is sure to meet with elements of power going in the other direction. The electric storm drove Toplady into the cleft of the fock, and he came out giving to the world that hymn "Rock of Ages." The storm of persecution drove Bunyan into Bedford jail, and he gave the world the inimitable "Pilgrim's Progress." It was sorrow in the home of Tennyson that produced "In Memoriam." While these men were toiling against contrary winds, the eye of the Master was on them. He came to their side, saying "Be of good cheer." Then came a fine description of the optimistic side of the Christian life. The preacher held up a book giving a description of the life of the wonderful Miss Helen Kellar, so well known to the public. Such a life as hers tells the story of what God's grace can do for any troubled heart, no matter how constory of what God's grace can do for any troubled heart, no matter how contrary the winds of life may blow.

NEW SPIRIT.

Paris Newspaper Tenders Advice to the Vaticap.

Paris, Nov. 27.-The Temps considers the discussion of the church question in the Chamber of Deputies yesterday by Premier Briand, who spoke in reply to a speech of Abbe Gayraud, of great church question in France, whereas it stops at nothing to ensure peace and conciliate the Governments of other

countries.

The Temps points out that under the broad justice of Leo XIII. the situation would be treated with libersituation would be treated with liber-ality and common sense, and con-cludes with the assertion that religious peace will come when the church re-stricts its energies to religion, and the French clergy follow the dictates of conscience instead of intransigeant orders from Rome.

LATTER DAY SAINTS.

At the Latter Day Saints' Church, last night, Rev. H. O. Smith, of Buffalo, preached on "What is Salvation. He disputed the philosophy expounded by some preachers, that death bed repentences are sufficient for salvation. Mr. Smith said he believed that the preaching of the doctrine of death-bed repentences was more responsible for strengthening men in wickedness than any other doctrine that is preached. He said the gospel of Christ clearly shows the way to attain a full salvation. To be saved from sin or salvation is to cease from sin and accept Christ.

"Cook's story is suspicious both in

Washington, Nov. 28. —On behalf
of Samuel Gompers, John Mitchell
and Frank Morrison, the labor leaders, a petition was filed in the Supreme Court of the United States today for certiorari requiring the Court
of Appeals of the District of Columbia to certify to the nation's highest
tribunal for its revision and determination the appeal taken by them
in the famous Bucke Stove and Range
Company of St. Louis.

The petition says: "The questions involved in this case are of great public
importance, affecting the views and conduct of many millions of people, including two million who are by representation made defendants in the principal
afection."

The constitutional right of
people "of saying by word of mouth

afction."
The constitutional right of these people "of saying by word of mouth or printed publication to each other or to others that they do not propose to deal with the plaintiff or purchase its products" is advanced, and the argument is made that several courts had sustained this contention.

President Gompers and Secretary Morrison saw President Taft to-day for the first time since they were sentenced for contempt. Their call had nothing to do with the criminal proceedings, however, but was for the purpose of presenting to the President A. H. Gill and J. R. Clynes, two labor members of the British House of Parliament, who were fraternal delegates to the recent convention of the American Federation of Labor at Torouto, and James O'Connell, Vice-President of the American Federation.

KILLED THE BABY.

Woman Sprinkled It With Powdered Arsenic Instead of Talcum.

Salisbury, Ill., Nov. 27.—A well-meaning neighbor of Mr. and Mrs. Frank Davis came into their home to take care of their twelve-day old baby while Mrs. Davis was ill, and the well-meant attentions killed the child. Under the impression that she was using talcum powder, the nurse sprinkled her charge with powdered arsenic. The coroner's jury summoned yesterday brought ni a verdict of arsenical poisoning.

The arsenic and talcum powder, although plainly labelled, were in similar packages. Twice Mrs. Davis' neighbor dusted the child with the powder after she had given it a bath. Death ensued in a short time.
