WEEKLY REVIEW OF TORONTO WHOLE-SALE MARKETS.

PRODUCE. The market seems, on the whole, to have show some improvement since our last, though the ten-dency has varied a good deal on different goods. For the more important, however, the demand has shown some increase, and prices have been fairly steady. Receipts have been of fair amount during have not seemed inclined to force sales in any instance. Stocks have been on the increase, in face of very large shipments of bar-ley, and stood on Monday morning as fol-lows:—Flour, 13,776 bbls; fall wheat, 58,700 bushels; spring wheat, 129,792 bushels; oats, barley, 153,156 bushels; peas, barley, 153,156 bushels; peas, barley, 163,156 28,444 bushels; rye, nil; corn, ni, against corresponding date last year:—Flour, 20,610 barrels; dall wheat, 73,391 bushels; spring wheat, 258,873 bushels; oats, 12,638 bushels; barley, 199,644 bushels; peas, 11,638 bushels; rye, nil; and corn, No. 2, Extra No. 3. No. 3. been steady. It is true that in English markets red and club wheat have declined 1d; Rye..... but red winter has advanced 2d and peas 9d, and cargoes to-day are reported to be firm. Wheat, fall, new, per bush...... Receipts in English markets have continued to be Wheat, spring, do light. The total supply of wheat and flour in the week ending on the 11th inst., was equal to 372,500 to 400,625 qrs. vs. 411,000 to 420,624 qrs. weekly consumption, indicating a deficiency under consumption of 19,999 to 38,500 qrs. The supply of maize for the week was equal to 880,000 to 920,000 bushels, to the week was equal to 880,000 to 920,000 bushels, a warane weekly consumption in 1877 of Geese, each. against an average weekly consumption in 1377 of 1,261,124 bushels vs. 1,390,774 bushels in 1876, and 173,853 bushels in 1875. The amount of wheat and flour on passage for the United Kingdom, January 16th, 1879, as per Rearphylm's cable showed a distribution of the consumption o 773,858 bushels in 1875. The amount of wheat and flour on passage for the United Kingdom, January 16th, 1879, as per Beerbohm's cable, showed a decrease of 300,000 qrs. on the week, and was equal to 1,500,000 qrs. against 1,739,000 on the 2nd inst., and 2,366,000 on the corresponding date last year. The appearainate quantity expected to arrive of the foregoing fleet at ports of call for orders during the four weeks from Jan. 2 to Jan. 20, is 453,000 qrs of wheat comprising 55,000 qrs. from Azov and Black Seasand Danube, 41,000 qrs from American Atlantic ports, 352,000 qrs. from California and Oregon, 5,000 Wool, per lb. ports, 352,000 qrs. from California and Oregon, 5,000 grs from Chili and Australis, and 3,000 qrs. from Egypt; and during same period, 89,000 qrs. from his and oregon of maize, comprising 30,000 qrs. from the Danube, and 59,000 qrs. from American Atlantic ports; also 22, 800 qrs. from American Atlantic ports; also 22, 800 qrs. from American Atlantic ports; also 22, 800 qrs. from the Black Sea, Azev Sea and the Danube. Further cable advices to the 11th inst., state that there had been little or no improvement manifested in the Mark Lane market during the preceding week, sales being entirely from hand to mouth. The indications from the accounts so far received of stocks of wheat and flour in the United Kingdom, on the 31st ult, are that the aggregate on bushels will be considerably less than at the end of 1877. Continental advices by mail state that in France the weather was milder in the first week of the month, and the agricultural situation generally satisfactory, the only drawback being that due to autumn sowing having been effected under unfavour able auspices. Business was quiet, but prices were steady, there being a decline reported in only 17 markets out of 77 whence reports had been received.

At Marseilles arrivals of wheat in the week ending grs. from Chili and Australia, and 3,000 qrs. from markets out of 77 whence reports had been received. At Marseilles arrivals of wheat in the week ending on the 28th ult were 49,000 quarters, and stocks in the docks had fallen to 290,000 quarters. German markets were reported quiet but prices of wheat were steady both at Region and Markets were steady both at Region and Markets were steady by the steady both at Region and Markets were steady by the steady both at Region and Markets were steady by the steady both at Region and Markets were steady by the steady b en the 28th ult. were 49,000 quarters, and stocks in the docks had fallen to 290,000 quarters. German markets were reported quiet but prices of wheat were steady both at Berlin and Hamburg; at Konigsberg prices were too high to admit ef exports to England. In Roumania the weather was frosty but shipments were still practicable from Galatz, where an enquiry from Mediterranean ports prevailed. No change had occurred at Alexandria. The total quantity of wheat affoat from Calcutta to London for the week ending December 31st was 20,793 quarters, against 81,072 quarters at the same time hast year. Markets on this continent were quiet in the latter part of last week; at New York the demand was slack and paices were tending downwards. During the last couple of days, however, the situation has improved; the demand seems to have become more lively all over and prices in Western markets from three to four cents over those of Saturday. The total export of wheat from the United States from last year's are paresaid to have been 88,112,000 bushels which is estimated to leave 32,000,000 bushels still available for export. Street prices, 29 to 31c.

Balist—The demand has been slack; sales small and prices of all grades weak, closing at a further fall. No. 1 has not been offered, and prices have remained nominal. No. 2 has been scarce, with sales last week at 75c f.o.c. Extra No. 3 has been quiet, but has sold at 63c. No. 3 has been dull and slow of sale, but has gone off at 52c f.o.c. The market to-day showed a decided break. No. 3 was offered as low as 51c, without buyers; extra would not have brought over 62c, or No. 2 over 73c; the only sale reported was that of a car by sample at 60c on track. Un street from 50 to 85c has been paid, but good No. 1 is worth 90 to 93c.

Pass—The market has continued to be fairly ac.

HAY—Pressed has remained inactive and prices nominally unchanged. Receipts on the market have been very large and fully equal to the demand, and prices easier at \$6.50 to \$12, the general run being from \$8 to \$10. STRAW—The supply has been fully equal to the wants of the market and prices have been week; loose of inferior quality has sold down to \$4, but good is worth \$5, and oat-straw in sheaves has usually brought \$6 to \$7.50.

POTATORS—Car lots have been scarce and wanted at firm prices, buyers offering 80c to 82c. Street receipts have been small and prices firmer at 90c to 95c per bag.

being about \$1.50.

MUTTON—Has continued scarce, firm and wanted at from \$4.50 to \$5.50 per cental, according to quality, the laster-being for good lamb, which is the sort most wanted.

POULTEY—Street prices have been steady for farmers' lots since our last, but some inferior has been going lower. Really good have been steady at 35c to 45c; turkeys, 8rm, at 75c to \$1.25 generally, or \$1.50 for fas gobblers; ducks firm at 60c to 70c, and grees the to 65c. They lots have come forward. quiet at 50c to 65c. Box lots have come f slowly and have stood at 8c to 9c per lb. for t and ducks and 4c to 5c for fowl and geese.

FLOUR, Lo.c. BAG FLOUR, by car lot f.o.c. GRAIN, f.o.b

Business has been fairly active, one cause being that dealers are expecting an advance in duties and buying in consequence. Nails have advanced, as was expected at our last, but sales have been small. Tin plates have been in active demand, and selling freely at quotations. Canada plates are very scarce, stocks being now run low. Galvanized iron has been active and unchanged. Shelf goods have been going off freely at steady prices.

RUSSIAN WHITE WHEAT—I have tested the Russian wheat three years. In 1876 I imported 100 bis; I sowed it May 27th; I sowed Fife the same time; I thrashed 23 bush, per acre of Russian; I3 bush, per acre of Fife. The Fife was badly rusted, but there was no rust on the Russian, and it was a week earlier than the Fife. In 1877 I sowed Russian and Fife; I thrashed 32 bush, per acre of Russian, and 17 of Fife, the Fife being rusted, and none on the Russian. In 1878 I sowed Russian, and 1870 is sowed Russian, and had 27 bush, per acre; it stood up and was just as bright in straw as any fall wheat in the first of the season, when other spring wheat suffered from joint worm and blight, and was almost a failure. I have 400 bush for sale at \$2.00 per bush, bags free, Samples sent to any address. The whest can be seen at Bassett's Hotal, Toronto. Address JAMES TRAN, Belford. 356.2 \$3.70.

SALT—Has shown no change since our last. Liverpool coarse in small lots sells at 85 to 90c, and fine dairy at \$1.40 to \$1.70, the latter for small lots; sales have been few and small. Goderich has sold at 85c for cars, and 90 to 95c for small lots.

Daugo Afriks—Dealers have been offering at 3½c for round lots and seem to have got some; small lots usually sell at 4 to 4½c, with little doing.

Fruit.—The general feeling in box-fruits remains firm; there has been some movement in Valencias, about 1,400 boxes having sold in one lot of 600 and two lots of 400 each at 5½c; but these sales we believe were made to get the lots off the markets; round lots were held to-day at 5½c and lots of 100 boxes at 5½c. Layers have been quiet and unchanged; but a lot of 500 boxes of loose Muscatelles sold at \$1.60. Sultanas are scarce and unchanged but very firm. Currants have remained very quiet at former prices. Prunes have shown a better feeling with sales of several lots of 50 kegs each at 4½c. Nuts have been firm; job-lots of almonds have brought 14c. Prices are as follows, the outside being for retailers lots:—Raisins, layers, \$1.50 to \$1.65. Yelencias, 5½ to 6c; new seedless, none; \$1.60 to \$1.80; Currants, 1878, 4½ to 5c; choice, 6 to 6½c; old, 2½ to 3½c; Filberts, 5½ to 3½c; Walnuts, 8 to 3½c; Almonda, 14 to 15c; Prunes, 4½ to 5c; Brazil nuts; 7 to 7½c; Lemon peel, 22 to 23c; Orange do, 20 to 22c; Citron do, 24 to 27c.

353-13 No Fevers or Ague-Title Perfe TRADE—Has remained generally quiet and un-changed.

BEEVES—Receipts have remained of much the

with activity; within the next week one firm will ship 200 head from Boston, and another will ship 144 head from Portland, but of these lots not over one-third has been bought in this market, the rest coming from the States. All suited for shipment, consisting of steers weighing 1,300 lbs and upwards have been readily taken at \$4.75 to \$5. More enquiry has been heard for first-class for the local market; steers somewhat lighter than those suited for shipment, or good helfers, have been wanted and taken readily as about \$4.50. Second-class have been abundant and rather lower; the general run has been from \$3.56 to \$3.75, though a few of good quality may occasionally bring up to \$4 Third-class have been offering to a much greater extent than they were wanted; weak in price and very slow of sale at \$2.75 to \$3.25.

SHEEP—The market has been quiet with offerings small but probably sufficient, as the demand for the local trade has been slack and shippers want choice only. Really first-class, weighing 150 lbs, would still bring \$6 to \$6.50 per head or \$4 per cental; and second-class have ranged from \$4 to \$5.50 each. Third-class are nominal.

LAMES—The demand has been active and on the increase, as lambs are now taking the place of sheep for local consumption; all offering have been wanted and sold readily at firm prices. First-class, dressing not less than 45 lbs, have been the sort most wanted, and have found ready buyers at \$3.50 to \$4. Second-class have sold steadily at \$3 to \$3.25. Third-class are nominal.

CALVES—Offerings have continued to be very small but probably sufficients, and prices easy. First-class, dressing not less than 120 lbs, have been worth \$5.50 to \$8.50 per less on the sort most wanted, and have found ready buyers at \$3.50 to \$4. Second-class have sold steadily at \$3 to \$3.25. Third-class are nominal.
