Why Young Girls Grow Pale and Weak

The Blood Supply is Deficient and Unless the Trouble is Remedied Consumption May Follow

When girls grow weak, pale and miserable, then is the time for parents to take prompt steps. Delay means danger—perhaps consumption.

The girl in her teens cannot develop into a happy, robust woman without an abundant supply of rich, red blood in her veins. It is the lack of this good blood that is the great trouble with nine girls out of every ten. They grow weak and depressed; lose their appetite, are breathless after the slightest exertion and suffer from headaches and backaches.

When girls are in this condition there is no medicine can compare with Dr. Williams' Pink Pills. In the use of these Pills there is splendid vigorous health, with glowing cheeks and sparkling eyes, for every unhappy fragile girl who is struggling on to womanhood in a wretched state of health. This is why thousands of girls and women, now robust and attractive, are constantly recommending Dr. Williams' Pink Pills to their suffering sex.

Edith Brouseau, Savona, B. C., says: "At the age of fourteen I became very anemic. I was as pale as a ghost, suffered from headaches, severe palpitation of the heart at the slightest exertion. I had little or no appetite and seemed to be drifting into a decline. I was attending high school in Vancouver at the time, and the doctor advised me to stop. I did so and took his treatment for some time, but it did not help me in the least. Upon the advice of a friend I began taking Dr. Williams' Pink Pills and in a very short time

The band did not give its usual Friday night's concert on the stand on account of the Red Cross concert in the opera house by Chatham amateurs. When they next appear they will don their new uniforms.

The opening chapter of The Master Key, at the Happy Hour Wednesday night, drew a large house, and the picture gives promise of being an exceptionally good one. "The Sign of the Cross" on Thursday night was also very interesting and extremely touching.

The death of Mrs. Wm. Forsythe, of Boom Road, whose husband died about three years ago, took place suddenly in Hotel Dieu, Chatham, Tuesday morning, 22nd inst. they gave me back complete health and enabled me to resume my studies. I have enjoyed the best of health since, and owe it all to Dr. Williams' Pink Pills." Several exercises and recitations were given, the latter by Fred Russell, Margaret Gulliver, Fred McCormack, Eileen Scribner, Eldon Hayward, Constance Hayward, Gwyneth Belyea, Iva Gulliver, Della Savage, Janie White, Jack MacKay and Ella O'Donnell. Music was plentifully interspersed. The opening of mite boxes realized \$25 for missions. On behalf of the Primary Sunday school class, Mrs. L. R. Hethelinton was presented by the pastor with an appreciative address and a handsome cut glass water pitcher, as a small token of their gratitude for her splendid work in the school.

Refreshments were served by the ladies at the close. Rev. Mr. Richardson in his address announced that more room being needed for Sunday school and young people's work, it had been decided to build a new parsonage in the near future and take the old one for the needed extension of the church buildings.

Canadian Fruit Trade

'Canadian Fruit Trade' ... prqf4p. As showing to some extent how much a good fruit-growing means to Canada it is worth while noting the amount of trade formerly done by the countries at war that lies open for cultivation by this country. At the Canadian Fruit Growers' Conference held at Grimsby last September, Mr. J. A. Ruddick, Dairy and Cold Storage Commissioner, stated that he had taken a period of five years and that he had found the importations of apples from Germany to Britain varied each year from 5,000 to 14,000 bushel boxes, from Belgium from 100,000 to 500,000 boxes, from France from 50,000 to 575,000 boxes and from Portugal from 175,000 to 350,000 boxes. Of years the importations varied from 4,880 to 56,000 bushel boxes from Germany, from 262,800 to 568,480 boxes from Belgium and from 422,440 to 596,160 boxes from Portugal. Large quantities were also imported from The Netherlands which may not be available. Mr. Ruddick prognosticated an increased demand for dried and evaporated fruit from Great Britain for use in the army. In 1913 Canada exported of this line to the United Kingdom 121,188 pounds, to Newfoundland 10,899 pounds and to Germany 247,802 pounds. Of course the trade with Germany will be cut off but the exportations should expand in other directions.

Timely Topics ON PRINTING

FINE PRINTING IS AN ART

Do you know good printing? Do you like good printing? Do you know that it always pays to have the BETTER kind? Perhaps you have been used to the one class of printing and know no other. If this is so, it is time for you to have a look around and investigate and see what's what. Do you know you do not have to go any farther away than Newcastle to obtain the BETTER class of printing. Perhaps you have not given it a thought, but a great deal depends on the stock used in order to get a BETTER job. Investigate this. Last, but not the least, do you know that The Advocate Job Department turns out only this BETTER class of work. If you will read on a little further, we will tell you how and why.

1st—We cater to that class of people who use only the best stock, and who know what BETTER printing is.

2nd—In order to give these customers the class of work they want, we have to keep in stock only the best grades of material. We do not handle cheap lines.

3rd—In order, again, to be able to turn out that BETTER class of printing, we employ only experienced and competent printers, who keep abreast of the times and watch the styles.

4th—What is as important as the above is equipment. If The Advocate Job Department was not fitted out as it is, with the most modern machinery and the very latest in type faces, it could not handle the fast growing trade, that has developed in the past year, of turning out that BETTER class of printing. Only the best inks are used, because this is necessary when high grade stock is used.

Now, Mr. Business Man, if you will read the above over carefully, see how your supply stands, then get in touch with this office, we feel sure you will become a customer. Give up that old-fangled notion that first class printing comes only from the large city printing offices. As a matter of fact, the reverse is the case, and prices are invariably lower.

REMEMBER THAT WE DO ALL KINDS OF PRINTING

For commercial use, we have superior grades of Letter, Note and Bill Head Stock, at prices and quality to suit any business and any purse. Our prices range from \$2.50 to \$4.00 per thousand for Letter Heads, and from \$2.50 to \$3.25 per thousand for Envelopes. Our Envelopes are the same material as our papers, and therefore match. We are always pleased to submit samples of stock, and prices, on application.

More Business IS WHAT WE WANT

You want the work—we want to do it for you. We have just the grade of paper you want, so why not let us get together in a co-operative way and make a strong pull for increased business—more business than usual.
