North Esk Boom, N.B. August 20th, 1923. To Editor of Union Advocate.

Newcastle, N. B. Dear Sir,

Permit me to have a small space of your valuable columns to refute a statement which appeared in the "Chatham World" of the 18th inst. The article I refer to is entitled "Salmon Fishing Extension".

I have been engaged in the fishing business on the Miramichi M River for the past forty years and E at this stage of the game should G know something about it. writer of the article in question E states that it would not be in the T best public interests to have the E season for salmon fishing extended Re and gives as reasons that the M present run of fish are unfit for human consumption.

In answer to this I wish to say AI that salmon at the present time Pl and during all August are as good for human consumption as they are any time during the sea-Further—the salmon that Sr might he caught from now on, will Th in no way affect the salmon fisher- Ti ies of the Miramichi Ri er.

Every individual fish .hat comes W of going to their spawning grounds at the headwaters, and these grounds at present are well supplied with L spawning fish, so that the few W which might be taken between the Jo 15th and 31st of August would have Ha no effect in depleting the salmon W supply of our river.

In the early season runs many fish reach their destination at the spawning grounds and in September there is always a big run of salmon Mrs. Wright McLenaghen......25 Ernest Silliker

In future, people who are ig-who does know something about into print.

Thanking you for space.

Yours respectfully, JOHN McCOLM
