

Junior Red Cross Has 131 Branches

The New Letter of the New Brunswick Junior Red Cross has just come from the printers and will go forward at once to the 131 branches throughout the province. Of these 131 branches 10 were reorganized since the last Bulletin was issued, and 48 of them are new branches formed this year. The ten reorganized branches are: Miramichi Happy Helpers, Boom Road, Northumberland county; Sackville Bluebirds Westmorland county; Smiling Workers, Centre Village, West. Co.; Faithful Workers, East Florenceville, Carleton Co.; Sunbeams, Napoagan, York Co.; Ambitious Health Helpers, Bath, Carleton Co.; Busy Health Workers, Gilks School Northumberland Co.; The Helping Hands, Scott Mills, York Co.; Sackville name not given, Westmorland Co.; County Hospital Branch, East St. John.

A Dangerous Season For The Little Ones

Winter—with its extreme changes of temperature—one day warm and bright, the next cold and stormy is decidedly dangerous to the health of little ones. The mother is afraid to take the children out for the fresh air and exercise they need so much. The children are cooped up in over-heated, badly ventilated rooms and in consequence many of them are seized with colds or gripe. What is needed to keep the little ones well is Baby's Own Tablets. They are a sure regulator of the stomach and bowels and in this way drive out constipation and indigestion and break up colds or gripe. By their use baby will be aided in getting over the winter season with perfect safety.

The tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

James R. Douglas Of Amherst New Lt. Gov. Of N. S.

James Robson Douglas of Amherst, N.S., appointed Lieut-Governor of Nova Scotia in succession to His Honor MacCallum Grant who resigned. The appointment of Mr. Douglas dates from 21st of this month.

James Robson Douglas was born at Amherst N.S. March 27, 1876, son of the late J. Robson Lamy. He attended public schools at Amherst, the Horton Collegiate School and St. Joseph's College, Memramcook.

Death Rate In Canada Is Reduced

According to statistical reports which involve a million and a half of the industrial population received for the month of November last the health situation in Canada is very satisfactory the death rate being 7.6 per thousand, which is a remarkably low rate for that period of the year. The considerable decline since October is due largely to lower mortality from intestinal diseases, tuberculosis, chronic nephritis, cerebral hemorrhage and cancer. The combined mortality from influenza, pneumonia and other respiratory diseases is about the same as in the preceding month.

During the last five months only four cases of suicide and an equal number of homicides have been reported in Canada. These records contrast remarkably with the notoriously high rates that prevail in the United States.

Will Make Electricity From The Wind

Berlin—A new invention for generating electricity by wind power with an aero-dynamo is to be sent to England at the expense of the British Ministry of Agriculture.

The inventor, Major Blou a former German artillery officer gave a demonstration of the apparatus at Witteman, near Berlin and generated sufficient electricity to feed a battery supplying 320 volts from a low wind over. The aero-dynamo which is portable has the appearance of an ordinary windmill mounted on a steel concrete mast 30 feet high with propellers instead of sails. It is designed to provide power for lighting, water supply, for use in the kitchen and for numerous agricultural and industrial machines such as ploughs, dressing machines, saws and pumps.

WILL MAKE TESTS
The Ministry of Agriculture is taking the invention to England at its own expense and will set it up at Oxford where tests will be made.

The apparatus can be mounted or dismounted in six hours. The price of the smallest that could be constructed is about \$3500. The cost per watt of the electrical power generated is one quarter of that charged by the ordinary power houses. It is intended especially for farms and small workshops in isolated districts where no central power house is available.

When laden tables challenge

Wherever the neighbourhood gathers to eat—church socials, anniversary suppers, picnics—is yours the baking people ask for? Are you proud of it?

Bake with Quaker Flour—and your bread, cakes and pastry will always bring you fame among the cooks of your community.

Quaker Flour

Always the Same—Always the Best

Deal with the dealer who sells Quaker Flour. If you do not know his name, write us and we will direct you.

A product of The Quaker mills, Peterborough and Saskatoon

Chicago Liquor Kills 390 Men In 11 Months

Chicago, Jan 11—Moonshine took a toll of 390 deaths in Chicago in the first eleven months of 1924, Health Commissioner Herman N. Ruzdieson says in a brochure issued tonight entitled "Moonshine" the Light that Blights." It reads in part "Hootch is sending more than one a day to a slab in the morgue. Of the victims 239 died from moonshine poisoning and nothing else in 1924. But the coroner's records show that in 11 months 151 other deaths were due to accidents induced by alcoholism and murders and suicides directly due to alcohol. Total 390 with December and its Yuletide crop still to be added."

Moonshine poisoning is more prevalent than alcoholism was in pre-prohibition days, the Commissioner goes on and he exhibits figures to show it is rapidly increasing. More alcoholics are in Cook County Hospital than ever in its past history. In nine years up to 1923 there were 1503 deaths in Chicago directly chargeable to liquor. Of this nine years' death toll one-fourth is chalked up to the year alone.

The Commissioner says the city is swamped with bootleg hootch and he links it up with crime.

"Since moonshine causes mental unbalance" he concludes "one can readily see how it leads to crimes of the most atrocious variety. The suppression of the moonshine evil will also reduce crime."

FRUIT TREES

Just as the orchardist is able through nourishment to increase the vitality and resistance of his apple-tree to winter's cold, so is the body fortified with

Scott's Emulsion

Thousands now take it as regularly as they take food, to build healthy resistance and to protect them when winter's cold arrives.

Take a lesson from Nature—keep your body strong to resist weakness—take Scott's Emulsion!

Scott & Bowne, Toronto, Ont.

PILES
Do not suffer another day with itching, burning, bleeding or protruding Piles. No surgical operation required.
Dr. Chase's Ointment will relieve you at once and afford lasting benefit.
Dealers, of Edinboro, Pa., Toronto, Sample Box free on request. Enclose 2c.

A tea your grocer recommends is usually good tea

RED ROSE TEA "is good tea"

And most grocers recommend it.

C. N. R. Radio Bridges The Continent

Radio Station, CNRA has crossed the Atlantic several occasions and has now bridged the continent as well. Up to a few days ago Saskatchewan appeared to be the farthest point west recorded, but today's mail brought a letter from Alberta, Canada and another from Hydesville, California. The Alberta letter was from H.A. Develer, Dock Mountain House. Mr. Develer who is a former New Brunswicker, reports having heard clearly the concert of Jan. 2nd. The California letter was written by Harold Hale of Hydesville who reports hearing the broadcast of Jan 6th and mentions several of the orchestral selections heard.

The Farmer Is Interested In The Forest

Probably few are closer to the actual forest than the farmer, says the Natural Resources Intelligence Service of the Department of the Interior. As the pioneer he is opening up the country to settlement and living on the very edge of the primeval forest. As such, no one is so liable to suffer from forest fires. He usually has his all-family and possessions—beneath the roof of his first homestead. Clearing of course, must be done, and clearing fires are necessary but care must be exercised in the settling of clearing fires. Settlers should get in touch with their nearest forest ranger who is well acquainted with the danger of uncontrolled fires. He will advise when it is safe for clearing fires to be set and if conditions are favorable will issue a burning permit.

In another form also the forest appeals to the farmer. It is largely in the forest and wooded areas that he obtains his sport. Hunting

and shooting is usually the favorite recreation of the farmer and his family. Without the forest, or with nothing within his reach except a partially burned over area in his immediate neighborhood he would greatly miss this pleasure.

The latest figures available give the amount of firewood cut in Canada annually as nearly 9,000,000 cords. The larger centres of population use coal chiefly for heating purposes. It is the rural districts therefore, that are more intensely interested in firewood, not only because it means comfort in winter but it also provides a great deal of employment to those who require to help out the farm income. In many portions of Canada large quantities of railway ties, telephone poles, pulpwood etc. are taken out every year and sold by the settlers who, with a burned forest would be without this welcome help.

Then again, from the larger standpoint, the farmer is interested in the protection of the forest because it means so much in the wealth of Canada—and Canada to him means home. After agricul-

Crossword Puzzle Craze Extends To Royalty

The prevailing cross word puzzle craze has extended to Sandringham where it is stated that Queen Mary has taken up the pastime of solving the problem published by the newspapers. The lesser members of the Royal Family have also become addicted to the word hunting game. Word Problems are not new to Queen Mary. In her younger days she spent much time in solving acrostics and composing others for her attendants.

The cross-word popularity has grown to such an extent in England that the dailies are increasing their prizes for solutions. One paper is offering a total of 5000 pounds sterling in a competition which is in the nature of an eliminating contest to discover the first cross-word champion of Great Britain.

TEACHERS FEDERATION VISITS WINDERMERE BUNGALOW CAMP

Here are seen a group of Ontario teachers members of the Canadian Teachers Federation, who, with colleagues from every other province in the Dominion attended the annual convention of the Federation at Victoria, B.C. The Canadian Pacific provided special trains for their accommodation in both directions. Many of them returned via the Kettle Valley and the British Columbia Lake district, but this party preferred to pass through the Rockies again. They are seen at Windermere Bungalow Camp to which they made excursion. At Banff and Lake Louise they were entertained and local teachers organizations and Boards of Trade at many points along their west and east-bound routes turned out to greet the "Teachers Special" and to afford the delegates to the convention whatever entertainment time allowed. The next annual meeting of the Canadian Teachers Federation will be held in Toronto.
