

Patterson Bros. vs. Thomson and Williams.

A PROTEST DECIDED.

On the 19th of July last, the Kippen Reaping Machine came off on the farm of H. Hall, Esq., Hallett, in the presence of a large number of spectators. Two machines were entered for the "single" class, one by Patterson Bros., of Patterson P. O., and the other by Thomson & Williams, of Mitchell, each machine purporting to be the production of the firm exhibiting.

By order of the President there was a meeting called, held at Brucefield on the 25th of Aug., to consider the matter in dispute between Mr. McCutcheon and Thomson & Williams. Mr. Williams was present, but failed to satisfy the Directors that he had manufactured the machine above mentioned in his shop.

The Directors, after hearing the report of the delegates sent to examine the machine in dispute, and the satisfactory and equivocal statements of Mr. Williams, they came to the unanimous decision that the said machine was manufactured by Patterson & Bros., of Patterson, Ont.

The Directors, after hearing the report of the delegates sent to examine the machine in dispute, and the satisfactory and equivocal statements of Mr. Williams, they came to the unanimous decision that the said machine was manufactured by Patterson & Bros., of Patterson, Ont.

A Little Sum in Addition.

It appears that the treaty between the Indians and Dominion Government has been signed. The terms of this treaty are that each family of five persons shall receive 160 acres, that each man, woman and child shall receive an amount of \$3 each, and a present of \$5 each the first year.

1,500 souls at \$3 per head, as present, \$4,500
School for 1st year, \$2,000
300 families at 160 acres, 48,000
\$3 per head annually for twenty years at 5 per cent, will equal a principle of 90,000
Schools for the same length of time, 19,000
\$163,500

15,000 Indians will cost 15 times as much, \$22,445,000
Purchase money, 1,500,000
Extinguishing the Indian title by half-breed grant, 1,500,000
North-West expedition to pacify the country, 1,000,000
Management of Indian Department for 20 years, 100,000
Cost of making treaty, 40,000
\$26,585,000

Baltimore is said to have sittings for one-third of its population—a large proportion than that of any other city in the country.

Exploring the Tiber.

THE HISTORICAL TREASURES THAT MAY BE FOUND UNDERNEATH THE OLD ROMAN RIVER.

It appears that at last the bed of the Tiber is to be thoroughly explored. The overthrow of the temporal power will render practicable, it is said, what under other circumstances could never have been accomplished. An association has been formed, headed by Signor Alessandrino Cialdini, which is backed by a rich banking firm in Paris, and which will proceed at once to explore the river.

Every revolution, say the Italians, has had to pay its tributes to the river. The statues of unpopular rulers, the Imperial diadems, armor, and insignias of proscribed dynasties, the wrecks of galleys, the spoil of temples, the immemorial household gods committed to the stream in preference to allowing them to fall into the hands of plunderers are among some of the relics to be exhausted from the alluvial under the turbid waters. It is anticipated, of course, that the excavators will have to go down below the bed of the stream to insure good discoveries. The deposits of years, counted by the thousand, must be considered, and it will be no light task to penetrate them. The experience and machinery of engineers lately employed on the Tizana Embankment, are, however, to be brought into play, and from the accounts before us, the projectors have no adequate conception of the difficulties before them.

General News.

Large numbers of Brussels workmen have struck work.

Five of the female incendiaries of Paris are now sentenced, four to death, and one to 10 years solitary confinement.

The Empress who met at Vastin decided to leave the decision of the Roman question to Italy itself.

The anniversary of the occupation of Rome by Italian troops comes round on the 20th inst. The national guard will parade the streets.

The Ohio tobacco crop is this year double the usual yield.

Yellow fever is moderating at Charleston.

The Viceroys of Egypt dismissed all Americans in his service, on account of the jealousy of his Turkish officers.

The Dublin prisoners of the late riots were cheered by the people, while the 27 rioters arrested have been sentenced to three and four months imprisonment. There was savage fighting between the mob and police.

The Chicago Tribune calculates the profit in the recent "corner" in wheat in that city as twenty-two per cent, per month on the money put into the pool, which was formed about the 1st of August. The amount clubbed was \$70,000, and the variation in the price of wheat was about twenty cents. Of course, it is impossible to estimate the loss to the grain-growers, and the Tribune, watching the operation carefully on the spot, sees no help for the atrocious speculation.

A frightful hurricane accompanied by stocks of earthquake, has passed over the West Indies. Many lives have been lost and 6,000 people are left homeless.

The Buffalo Courier makes a comparison between the cost of the British Army and Navy and that of the United States which is not favorable to the support of superior economy on the part of the latter country. "Our army," says the Courier, "cost last year \$55,780,000; on the same scale of expenditure the British army, which is fourteen and a half times as large, would have cost \$161,000,000, its actual cost being about \$65,000,000. The United States navy cost for the same year \$19,430,000. On the same scale of expenditure the British navy, which is six times as large, would have cost \$116,580,000, its actual cost being about \$40,000,000.

Preachers in Iceland are not very well paid for their services. Not one of them has an income of upward of one hundred dollars a year.

Mr. H. D. R. of New York City, has given real estates worth \$90,000 for the benefit of the proposed New Methodist Conference seminary at Hartford, Conn.; and Dr. F. D. De Lass has been appointed agent of the institution.

SEN-PRINTING ON FRUIT.—Boys and girls, if you wish to astonish any members of the family, or any coming guests, by some day initiating them to discover their initials neatly printed on a pear, peach or apple as it hangs upon its branch, this is the way to carry out your plan: Just before the fruit ripens cut the desired letters from a sheet of thin, ton, paper, and paste them on the side of the fruit most exposed to the sun.

There are other ways of printing fruit, but this is the most simple.

Rev. Dr. Spring, of New York, has concluded the sixty-first year of his pastorate. For forty-six years he has been the oldest Presbyterian pastor in New York. On Sunday, 6th ult., he was in the pulpit, and at the close of the sermon, by Rev. E. N. White, of Buffalo, spoke for fifteen minutes on the great changes which had taken place in the religious world during his pastorate.

He takes the best attention to business to give a liberal and prompt payment. Goderich, Aug 15, 1870

UNFADING EYE PRESERVERS.

Lazarus, Morris & Co. Celebrated Perfected Spectacles and Eye Glasses.

PHYSICIAN, PERFECTED SPECTACLES. I have examined the public of Goderich since the 24th March 1867, during which period they have met with a success equalled by any other optician since the discovery, and use of Lenses, but may do me the justice to say that this famous "perfect" will be adopted by every person on the Continent of America having Optical aid, but that they will doubtless try it by the request of some of the public, and this is why I desire to mention that such other spectacles possess, and like all good optical inventions, will have to contend with unscrupulous imitations pretending to have similar goods for sale. It is admitted that a well fitting pair of Spectacles are of the greatest benefit which can be conferred upon those requiring them. Hence none but the best perfect should be used, as by that means the fatigue which the wearers of ordinary Spectacles experience is avoided.

We have spent neither expense nor labor to produce these justly Celebrated Spectacles and Eye Glasses; having adopted all the improvements which science discovered, and all perfecting them, combining the same of transparency with the greatest accuracy of Focus in the Lenses, being mounted in the most durable frames of Gold, Silver, Steel and Steel and the finest finish and form.

Physicians, Surgeons and the Medical profession can be assisted in their operations by our Celebrated Spectacles and Eye Glasses.

We take occasion to caution the public against those pretensions to our Agents, Charles V. Vinton, and only apply authorized Agents. We have established the agency for the sale of our Celebrated Perfected Spectacles and Eye Glasses.

J. F. JORDAN Goderich 22 June, 1871.

Notice to Debtors

All parties indebted to the undersigned, whose accounts were rendered last winter, are hereby notified to pay up on or before 1st June, failing which they will be put into court for collection.

Ayer's Cherry Pectoral.

For Diseases of the Throat and Lungs, such as Coughs, Cold, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so completely the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, to a point where it is now almost universally used.

It is a powerful expectorant, and has the effect of loosening the phlegm, and thus clearing the passages of the lungs and throat. It has a soothing and refreshing effect upon the system, and is a reliable protector against the attacks of colds, influenza, and other pulmonary affections. It is a powerful stimulant to the system, and is a reliable protector against the attacks of colds, influenza, and other pulmonary affections.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chills, Remittent Fever, Biliousness, Headache, Periodical Pain, and other ailments.

As its name implies, it does not cure the disease, but it cures the patient, and thus restores the system to its normal state. It is a powerful stimulant to the system, and is a reliable protector against the attacks of colds, influenza, and other pulmonary affections.

It is a powerful stimulant to the system, and is a reliable protector against the attacks of colds, influenza, and other pulmonary affections. It is a powerful stimulant to the system, and is a reliable protector against the attacks of colds, influenza, and other pulmonary affections.

Ayer's Sarsaparil.

FOR PURIFYING THE BLOOD.

The reputation of this excellent medicine, as a purifier of the blood, is deservedly high. It is a powerful stimulant to the system, and is a reliable protector against the attacks of colds, influenza, and other pulmonary affections.
