INDIAN LAND BROUGHT SIXTEEN DOLLARS PER ACRE

Upwards of Six Thousand Acres Sold by Public Auction Yesterday—
List of Parcels Sold Together With the Prices and the Names of
Purchasers.

That the lure of the land is stronger
today than it ever has been in the
west was shown at the Dominion
theatre on Wednesday afternoon when
ten sections of land comprising about
6,000 acres of the Stoney Plain reserve
were sold at prices ranging as high
as \$2.50 per acre and averaging about
\$1.75 per acre all through.

The placing of the reserve lands on
the market is in accordance with the
policy of the department of the interior
not to hold land unimproved longer
than necessary. The Indians have been
a great deal more than they needed
and relinquished about ten sections
in May of 1908. This has since been
subdivided and made ready to be
put on the market in quarter sections.

Stoney Plain reserve lies almost di-
rectly west of Edmonton. The land
put up for sale lies along the west
bank of the Saskatchewan about six
miles out from the town. It is de-
scribed as being good land, with oc-
casional poplar and willow bluffs.
Some parcels were of irregular size
and some bordering on the river com-
prised only about 10 acres. About
the Indian habitations some portion
of the land was broken and there
was said to be respectable looking
farm buildings on some parcels.

When Auctioneer Robt. Smith took
the platform at 1 o'clock to begin
the sale the large auditorium was
well filled. To the right sat J. A.
Markle, inspector of Indian agencies,
under whose supervision the sale was
conducted. In the gathering was a
sprinkling of disinterested citizens
but most prominent were a score or
so of Edmonton real estate men and
capitalists and young farmers along
the Stoney Plain road.

From the opening of the sale the
auctioneer did not let things drag
a minute. Every parcel of land had
over it a government bid and if the
public did not come to that the parcel
was temporarily reserved from the
market. In the hands of the auction-
eer was a paper giving a brief descrip-
tion of the quarter sections. This was
frequently referred to, as well as the
Following were the parcels sold with

Canadians Fugitive CAUGHT IN NEW YORK

Will Face Trial for Working the
Double Agreement-Sale Game
in a Mining Deal.

New York, June 24.—Wm. S. Mitchell, a Canadian and former member of the Consolidated Agreement living at 273 West Ninety-seventh street, was arrested this afternoon at the request of the British government on a charge of obtaining money by false pretences. He was committed to the Tombs without bail by U. S. Commissioner Alexander. The charge rests upon Mitchell's alleged appropriation to himself of \$40,000 in connection with the purchase of a mining claim in the Nipissing district of Canada two years ago. Mitchell, it is charged, made a private arrangement by which the claim was to be sold to a syndicate for \$120,000 while the real price was only \$90,000. Mitchell getting the balance. To obtain Mitchell's extradition to Canada the laws of the Dominion had to be changed at the last session of parliament and this was made possible only by the power of the influence which Mitchell is said to have deflected when he put through the mining bill. Among the enemies this made up are now his accusers, is Col. Sir Augustus Pitt Rivers, a son of the Duke of Cambridge, and a cousin of the King of England. The colonel was a member of the syndicate which for two years have been trying to punish Mitchell for his alleged double dealing.

The Massey-Harris Binder has the greatest name of any machine of its class in the entire world. We will prove it.

Manitoba Crook Sentenced.

Portage la Prairie, June 25.—J. A. McDowell, the Poplar Heights crook, was sentenced to a term of five years in Stony Mountain by Magistrate Marshall.

EDMONTON, BULLETIN, MONDAY, JUNE 28, 1909.

PROFESSIONAL GIRLS ARE TOLD SOME THINGS

English Lady Declares Craving for
Dress and Notability Destroys
Home-Making Instinct.

Following up the complaints made
several weeks ago with reference to
the incinerator, the outlet of the
north-east end of the city
have intimated to the city council
that they will begin actions for dam-
ages against the city and will take
steps to secure an injunction to pre-
vent the city from further use of the
incinerator.

At the adjourned meeting of the
city council Friday morning, at which
were present the Mayor and all the
aldermen but Messrs. Fraser and
Manson, a letter was read from Daw-
son, Hyndman & Hyndman solicitors
for one John Ropenky, stating that
they intended taking action as in-
dicated above on account of the "offen-
sive and pestilential odors." They
however, would give the city an op-
portunity of making any reparation
they might see fit previous to action
being taken.

A motion was passed that the city
should at once serve the writ.
The aldermen were of the opinion
that no other course could be taken.

The medical health officer, Dr.
Whitlaw, has already given his
opinion that the incinerator is not a
nuisance to the portion of the city
in which it is located.

City Threatened With Suit for Dam-
ages and an Injunction.

The council also decided to pave
Fourth street the full width, instead
of only a 36 foot strip, as at first con-
templated. This action was taken
as a result of a petition of property
owners, asking that the full width
or none at all be paved this year.

The aldermen were of the opinion
that no other course could be taken.
