

Schooner in Danger.

The Schooner "Vendetta" arrived here from Halifax last evening after a run of 8 days, with a new spar carried on deck, 12 new dories and 6 tons hard coal. The vessel left Halifax for Louisbourg to load coal for Fortune Bay on the 7th inst., but could not make Louisbourg and had to anchor on the coast. The vessel anchored in the vicinity of the place where the Sch. John Harvey came to grief, and was over-taken by the storms which have prevailed both here and in the provinces for the past few weeks. She had a particularly hard time of it on Thursday last in a blizzard which raged for hours and her two anchors which were out, parted at the chains and destruction seemed inevitable to all on board. By skillful seamanship, however, the vessel reached off the coast and in the weather which continued she received a hard buffeting with her anchors gone there was nothing to be done but to run her for the nearest port for shelter and she reached the narrows just before dark yesterday. When she anchored here yesterday all were delighted on reaching a haven of safety.

A razor that is being used by three million men to-day, and which is adding daily to its users, must certainly be giving abundant satisfaction. This razor is the Ever-Ready Safety, and we know a good many users of it in St. John's. Its simplicity, its serviceableness in use, its reasonable price, commend it widely, and there is no doubt that it has made a good million self-shavers. Why do you not try one? You will find it well worth while. Price, (with 12 blades complete) \$1.
Just received, a consignment of the well-known SAN-KNIT-ary Wash Cloths in individual Aseptic wrappers. Price 10c. each.

C. C. C. Athletics.

The lads of the C. C. C. are now practicing for the inter-company competition in hockey, basketball, and other athletic sports, and the competitions, when held, will be very interesting. Instead of medals as heretofore, a silk pennant will be the trophy. The election of officers, held Sunday resulted as follows: Chairman, C. Jardine; vice-chairman, W. Hart; Treasurer, A. Vaughan; Sec'y, J. Donnelly; Inside Guard, A. Lacey.

Millions of Folks Use Only Cascarets

They never have Headache, Biliousness, Sluggish Liver or Bowels or a Sick, Sour Stomach.
No odds how bad your liver, stomach or bowels; how much your head aches; how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets and quickly too.
Don't let your stomach, liver and bowels make you miserable another moment; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, grassy stomach, backache and all other distress; cleanse your inside organs of all the poison and effete matter which is producing the misery.
Take a Cascaret now; don't wait until bedtime. In all the world there is no remedy like this. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children; their little insides need a good, gentle, cleansing, too.

Should Be Attended To.

The condition of Duckworth Street opposite W. E. Beattie place constitutes a danger to citizens. Water from the hose while the fire was in progress there Thursday last cut the street into furrows and passers by, especially at night, are in danger of receiving broken limbs as a result. Yesterday evening a lady passing that way fell into one of these ruts and received a sprained ankle. Men passing had to assist her home.

Winter Shipments of Ore

After discharging her cargo of coal here the S. S. Woban will proceed to Bell Island to load ore for Sydney, where the N. S. S. Coy. require some 30,000 or 40,000 tons to complete their contracts. She will make 3 trips at least and likely another steamer will be chartered to bring ore to the Coy's plant at Sydney. Only on very few occasions have ore been shipped to Sydney in mid-winter, showing that there is a boon in the N. S. S. Coy's works at that place.

Strike Riots.

Special to Evening Telegram.
LAWRENCE, Mass., To-Day.
Riots among foreign operatives brought out the Militia. Several shots were fired and a dozen operatives injured. On Friday infuriated mobs stormed the mills. The uproar was caused by reduction of wages owing to shortening of time that women and children can be employed under the new law.

Police Court.

To-day two boys up for stealing a pair of rabbits from the store of W. E. Beattie. Saturday were released under suspended sentence. Should they come again before court they will be severely dealt with.
A drunk and disorderly in the house of Mr. M. Neil was fined \$5 or 14 days.
In the Central District Court the case of F. McNamara vs. N. Walsh, Catalina, for breach of contract, occupied the attention of the court all the forenoon. Plaintiff claims \$100 damages. Plaintiff's steamer was chartered to tow defendant's schooner or Drummer's Tax to Catalina, but the vessel sailed there without the aid of the ship. Messrs. Gibbs, K.C., and Jas. McGrath were the counsel engaged.

House Burned Down.

By the Prospero we learn that a disastrous fire occurred recently near Conche, where the residence of a man named McDonald, school teacher, was burned to the ground. The man and his family barely escaped with their lives in a severe storm which was raging. All his furniture and effects were destroyed and he had no insurance.

Lecture on the Coronation.

To-morrow evening at 8 o'clock, at the C. L. B. Gymnasium, the Hon. W. R. Warren, Speaker of the House of Assembly, will lecture to the members of the C. L. B. on the Coronation of King George the Fifth. Mr. Warren, who was one of the Colony's representatives at the great event, had no doubt many opportunities of observing the interesting doings of that time, and it is expected the lecture will be both interesting and instructive. Admission is free.

City Council Special Meeting

Yesterday a special meeting of the Municipal Council was held. Mr. W. R. Warren, acting on behalf of Bowring Bros., it was announced by the Mayor, would hand over Rae Island to the city to be used as a park. The matter was discussed, but before definite action was taken it was determined to hold a meeting on the matter to be participated in by Mayor Ellis and the representatives in the Legislature of St. John's East and West. Mayor Ellis also informed the meeting that Mr. Furlong, K.C., solicitor for the Reid Nid. Co., requested that the company be relieved from their contract of levelling the snow on the streets traversed by the street cars, and that the Council do the work at a figure to be approved of by both parties to the matter. It was

decided that the company be asked to pay \$3,000 yearly for the removal of the snow for a period of 3 years.

Wireless Telegraphy.

Transmission Over Ten Thousand Miles.

The progress of wireless telegraphy has just been marked by the installation of a station at Coltano, in Italy, which is capable of transmitting messages to and from ten thousand miles or more. It is the most powerful station yet constructed, and the calculation of its range is based upon the fact that the Trans-Atlantic station at Clifden, in Ireland, which has a considerably lower power, recently succeeded in communicating a message to Buenos Ayres, 7,000 miles distant. The importance of the development is emphasized by the prospect that high-power stations are shortly to be opened at Cadiz, Barcelona, Tenerife, and Las Palmas, at which both internal Spanish telegrams and external telegrams will be worked, and that these stations will immediately open services with Italy and with England and other countries. Thus the gradual co-ordination and world-wide efficiency of wireless telegraphy is approaching completion. The Coltano station was inaugurated under the personal direction of Mr. Marconi. Its available power is 1,000 kilowatts, as compared with Clifden's 500 kilowatts, and it is expected that the projected South American stations will be in communication with it.

An interesting incident prior to the opening of the Coltano station is reported. Mr. Marconi desired to communicate with the Marconi stations at Clifden, in Ireland, and Glace Bay, in Canada, and accordingly sent telegrams to those stations requesting them to tune up and be prepared to communicate with Coltano at a given hour. Later in the day, however, a telegram was received by Mr. Marconi informing him that his telegram had been received but was unintelligible owing to the storm. Whereupon Mr. Marconi decided to call both Clifden and Glace Bay by wireless, and at four o'clock sent a message from Coltano to Clifden, and received the immediate reply: "Your signals are strong and readable." With Glace Bay (Canada) equally satisfactory communication was at once established.—The Standard, London.

LONDON, Jan. 15.
Home Rule excitement is growing, particularly among the Unionists of Ulster, where a vigorous campaign is in progress in the hope of creating sentiment in England against the promised bill of the Asquith ministry. It is expected that the bill will be introduced into the Commons in March, but the plans of the Unionists contemplate keeping up the agitation far into the spring. The greatest demonstration is expected in April, when Bonar Law, the Unionist leader in the Commons, will address a Unionist rally at Belfast. The Unionists are making the most of the Pope's decree, forbidding Roman Catholics under pain of excommunication from bringing ecclesiastics into court. Their contention that an Irish Parliament would be overwhelmingly Catholic, and would therefore be dominated by the Pope is combated by Archbishop Walsh, in a communication to the papers. Irish anti-Catholic newspapers call on the Archbishop to say definitely whether the decree applies to Ireland, as to which some doubt is expressed. Nothing is known of opposition newspapers about differences between Asquith and Redmond over giving the Irish Parliament control of the Customs. Details of the Home Rule Bill are closely guarded, the ministry hopes to be able to withhold disclosures of the provisions until the Bill is introduced into the House of Commons.

Brainy Working Men.

LEARNED SHOEMAKERS, CHIMNEY SWEEPS AND TRAMWAY MEN.

Genius, like murder, will out, and the history of modern literature provides us with some striking examples of men and women who, although humbly born and denied by circumstances any educational advantages, have given to the world some remarkable literary works. At the present time, for instance, the compilers of the great Oxford English Dictionary are deriving much help in their work from a Concordance of the works of Thomas Kyd, a learned literary man and dramatist of the sixteenth century, which has been compiled by Mr. Charles Crawford, a London railway clerk.

Mr. Crawford is a great authority on Elizabethan English, and published his Concordance five years ago. His knowledge of words has been acquired through close study, and is certainly extraordinary; for often when experts have stated, without previous investigation, that such and such a word or phrase occurs only in certain writers, or does not appear in certain authors, Mr. Crawford has produced abundant evidence showing the statement to be incorrect.

The Shoemaker Historian.

An even more remarkable work than Mr. Crawford's Concordance, however, was that compiled by John Mackintosh, L.L.D., who died at Aberdeen four years ago. Although Mackintosh was a shoemaker by trade, he was one of the most notable personalities that the North Country has ever produced, and his "History of Civilization in Scotland," in four big volumes, has been described as one of the most complete histories of Scotland ever written. Mackintosh was born of poor parents in Banffshire, and was in early life apprenticed to a shoemaker. He was always a great reader, and when he settled in Aberdeen in 1864 and opened a small news agents' shop, he spent all his leisure time in the library of the University. Ultimately he decided to write his great work, "Amidst the noise and bustle of those stirring streets, the four volumes of my history were written and the proof sheets corrected and revised, all being done while customers were coming in and out, constantly interrupting me."

Chimney Sweep and Author.
It is only a few weeks ago that the University Extension Board appointed Mr. Walter Hunt lecturer on sociology. Mr. Hunt has had an amazing career. He started life as a sailor, spent some time in the fire brigade, and then set up as a chimney sweep at Streatham. He then decided to attend the Robert Browning

Why Not be Well and Strong

When weak and run down DR. CHASE'S NERVE FOOD will help you back to health.
This letter tells of two women who have proven this.
"Mrs. D. Stott, Cobourg, Ont., writes: 'After recovering from typhoid fever I was left in a very low state of health. I was weak, nervous and not fit to do any work. A friend of mine, Mrs. G. M. Brown, had used DR. CHASE'S NERVE FOOD and told me that it benefited her wonderfully. I took courage and began the use of the medicine. After taking the first box I began to feel an improvement in health and now after using four boxes I am completely cured. I now feel like myself once more and believe that I can attribute the cure to Dr. Chase's Nerve Food.'
Life is too short to spend weeks or months dragging out a miserable existence of weakness and suffering. Dr. Chase's Nerve Food cures by forming new rich blood and building up the system. You can depend on it to benefit you, 50 cents a box, 6 for \$2.50. At all dealers or Edzhanson, Baker & Co., Toronto.
