PORTSMOUTH, To-day.

A sprint of 100 yards was run at Portsmouth yesterday afternoon by Rear Admiral Sir Robert K. Arbuthnot and Captain Eric Back, British Navy, in fulfillment of a bet made by them twenty years ago. The captain won by a yard in the excellent time of 12 seconds. Both officers were serving in the Pacific Ocean on board the Warspite in 1893, when the challenge was given and accepted for the race to be run on the same date twenty years later. Admiral Sir Hedworth Meux was Commander of the Warspite at the time of the war and was stakeholder. Rear Admiral Arbuthnot is 49 and Captain Back, 48.

LONDON, To-day.

The country is again threatened with a great railway strike here. Liverpool as before will be the storm centre. The trouble began with the refusal of the Liverpool dockers to handle freight from Dublin, where the transport workers are on strike. Men to the number of 3,500 employed in the freight yards of various railways went out yesterday at noon were joined later by 4,000 from Birmingham. That a complete freight tie-up is expected on the Northwestern lines is indicated by the warning issued by Cunard officials to homeward bound Americans to carry all baggage with them. At Liverpool work was struck without the sanction of the Railway Union, and lack of support may prevent a national strike on the railways, but as other big centres are involved, the outlook is ominous. The only hopeful feature is the appointment of a Committee of strikers to negotiate with the companies.

Tragedy at Labrador.

FOUR MEN DROWNED.

A sad drowning fatality in which four fishermen, belonging to Avondale, lost their lives, has occurred at the Labrador. Messrs. Harvey & Co. received the following message, sent from Snokey via Pogo:

"Schooner Victoria, Mark's Hr. lost four men, including master, others Sullivan, Mansfield and Devereaux. Advise Father Sheehan." (Sgd.) BERTHA O'BRIEN.

The master and owner of the vessel was Frank O'Brien, a well-known and successful planter of Avondale. How the drowning happened will not be known exactly until more definite information is received, although it is believed that the four unfortunate men were swamped while hauling their trap.

Great Ventriloquist at Rossley's.

The Marcus Stock Co. are delighting thousands of people, and each night it is impossible to get a seat, after eight o'clock. The ventriloquist is certainly a great drawing card, and together with his funny wooden partner, has the audience highly amused. He is a very clever young man. The singing and dancing of the troupe are excellent, and Tommy Levene and Dave Harris, have the house in roars all the time. It is a splendid show, and everyone is looking forward to the next change, when the human mechanical doll, the wonder of the age, will be seen.

DOG-FISH PEST.—Dogfish are reported plentiful at Lawn and are giving the fishermen there much trouble.

A Task For the German Emperor.

Mr. Andrew Carnegie has set the German Emperor a task—to change the appearance of war into permanent peace.

Unveiling a bust of Sir Randall Cremer at the Palace of Peace he said:—"Surveying the world to-day, the most striking figure seen is another Emperor, the German Emperor, who has recently celebrated his twenty-sixth year of peaceful reign, his hands unstained by human blood—a unique record—hence Germany's astounding progress educationally, industrially, and commercially, proving that, the greatest of all national blessings is peace. At Lubek recently the Emperor said: 'I protect the merchant, his enemy is my enemy; God grant that German trade may develop as hitherto, under my protection in time of peace.'

"Let us suppose that the Emperor were now to invite the chief civilized nations to confer upon the best means of ensuring world-peace, which his own Empire has achieved so long. That they would attend and listen is certain. Success, I believe, is certain to follow. All seems so easy, too easy, perhaps; but pray remember that the great inventions, discoveries and steps forward have been achieved at last by seemingly slight and trifling advances, because the ground had been well prepared, conditions constantly changing and advancing during long years of obscure experiment. Most great advances have appeared to burst upon us suddenly in their perfection; so it will probably be with the change from barbarous war to civilized peace—one small spark off creates the flame. The German Emperor holds in his hand the torch, and should apply the needed spark."

The Country Boy's Creed.

"I believe that the country which God made is more beautiful than the city which man made; that life out of doors and in touch with the earth is the natural life of man. I believe that work is work wherever I find it; but that work with Nature is more inspiring than work with the most intricate machinery. I believe that the dignity of labour depends not on what you do, but on how you do it; that opportunity comes to a boy on the farm as often as to the boy in the city; that life is larger and freer and happier on the farm than in the town; that my success depends not upon my pluck, but upon when you work and playing when you play, and in giving and demanding a square deal in every act of life."—From Wallace's "Farmer."

"Say Hullo and How D'ye Do."

When you see a man in woe, Walk right up and say "Hullo!" Say "Hullo!" and "How d'ye do?" "How's the world a-using you?" Slap a fellow on his back, Bring your hand down with a whack, Wait right up, an' don't go slow, Grin an' shake an' say "Hullo!" Is he clothed in rags? Oh, sho! Walk right up and say "Hullo!" Rags is but a cotton roll, Just for wrappin' up a soul; An' a soul is worth a true Hale an' hearty "How d'ye do." Don't wait for the crowd to go, Walk right up and say "Hullo!" Say "Hullo!" and "How d'ye do!" Other folks are good as you, When you leave your house of clay, Wanderin' in the Far-Away, When you travel through the strange Country 't'her side the range, Then the souls you've cheered will know Who you be, and say "Hullo!"

DO MOVING PICTURES HURT YOUR EYES?

The corn crops may fail, Wall Street may go into bankruptcy, the high cost of living continue its star-climbing contest, the tariff plays ducks and drakes with industry, but so long as the moving pictures continue to "show" to five or ten millions of men women and children, there will be no decrease in the demand for eye-glasses. We are not technical, therefore we cannot enter into a scientific discourse as to the whys and wherefores of the subject, but common sense tells us that nobody can regularly strain the sight following the screen drama, without an appreciable weakening of vision. Emerging from a theatre after witnessing a motion picture performance of several hours' duration, we found ourselves suffering from actual pain and felt the effects of the strain for hours after. It is therefore quite pertinent to warn parents against the disastrous effects of motion photography upon the eyesight of the young, especially of children who have already evidenced visual weakness—Herbert Kaufman in Woman's World for September.
