The Royal Visit.

FIRST DAY'S PROGRAMME.

The arrangements for the reception and entertainment of His Royal Highness the Duke of Connaught on Wednesday, July 15th, are nearly completed. The day has been declared a bank and General Holiday, and facilities have been offered by the Reid Nfld. Co. in the way of special trains at reduced fares so that many visitors may be expected from the districts outside of St. John's.

The Governor will proceed on board H.M.S. Essex in uniform to receive His Royal Highness at the capital city of Newfoundland. His Royal Highness will land at the King's Wharf at 10 a.m., (not 9 o'clock as previously announced), and will be received by a guard of honor of 46 men of the Newfoundland Constabulary under the command of Inspector General Sullivan. The Band of the Methodist Guards will be in attendance and will play the first six bars of the National Anthem as His Royal Highness lands in St. John's.

The Mayor, who will be accompanied by the other Municipal Commissioners, will then present an Address bidding His Royal Highness welcome to the city of St. John's. The Duke will reply and will play the first six bars of the National Anthem as His Royal Highness lands in St. John's.

The following presentations will then be made to His Royal Highness: (1) The Premier and the Members of the Executive Council, (2) The heads of the religious denominations, (3) The Consular Body as representative of Foreign Nations.

The presentations being concluded, the Duke will leave by carriage, escorted by two mounted officers, for a tour of the city. The first halt will be made at the King George V. Seaman's Institute, where His Royal Highness will be received by the Directors and the Secretary of the Newfoundland Grenfell Association and by the Manager of the Institute. A guard of honor will be furnished consisting of one officer and 16 men furnished by the Catholic Cadet Corps.

After inspecting the Institute, the cortege will proceed by Water Street and up McBride's Hill and by Queen's Road as far as Rawlin's Cross, and thence to St. George's Field, where the party will arrive at 11.30 a.m. (not at 11 as previously announced).

At St. George's Field the cadet corps, consisting of the Church Lads Brigade, the Catholic Cadet Corps, the Newfoundland Highlanders and Co. "A" from Harbor Grace, and Co. "A" from Carbonear of the King Edward Cadets, will be drawn up in quarter column. The Duke will be received with a Royal salute, and the massed bands will play the first six bars of the National Anthem. His Royal Highness will then walk down the ground to inspect the Battalions while the massed bands play marches or selected tunes. The inspection over, His Royal Highness will take his place at the Saluting Base and the Battalions will form fours and march past, each battalion corps being played past to its own march by its own band. When the several corps have marched to their halting ground, the officers on parade will return to the saluting ground to be presented to His Royal Highness. Field Marshal The Duke of Connaught. The officers and the band of the Methodist Guards will be drawn up on the ground and the officers will be presented with these of the other Corps. The battalion, however, cannot appear on parade, owing to the loss of its equipment when the Armoury was burnt in 1912.

The Duke on leaving the Parade Ground will drive by Military Road and Kings' Bridge Road and enter Government House grounds by the East gate.

In the afternoon the Duke will drive along the Waterford Bridge Road, arriving at Bowring Park at 4 o'clock, where His Royal Highness will be received by a guard of honor and 16 men furnished by the Methodist Guards.

Sir Edward Morris will formally present the Hon. Edgar Bowring as the public benefactor, through whose generosity the Park has been formed, and Mr. Bowring will then pray His Royal Highness to declare the Park open for the pleasure and recreation of the public. The Governor will tender the thanks of the community. His Royal Highness will be asked to commemorate the occasion by planting a tree and to accept a memento of shade as a souvenir of the event. Tea will be served, and His Royal Highness will leave shortly after for the site of the Hospital for the treatment of Tuberculosis. (5.30 p.m.)

On arrival at the site, which for the beauty of the view is doubtless even Bowring Park, the Duke will be received by a guard of honor of an officer and 16 men of the Newfoundland Highlanders. Mr. W. D. Reid, the munificent donor of the Hospital, by whose aid tuberculosis, the most dreaded disease in the Colony, may be specially treated, will then be presented to His Royal Highness by the Governor. Whereupon Mr. Reid will pray His Royal Highness to lay the foundation stone of the Hospital. The ceremony being concluded by the presentation of a miniature silver trowel, Mr. Furlong will tender thanks to His Royal Highness on behalf of the donor and of the Directors of the Reid Nfld. Co.

The Duke will return to Government House where a dinner will be served to which a number of those who hold or have held high official positions will be invited.

His Royal Highness as Grand Master of the United Lodges of Freemasons in the British Dominions, has been pleased to accept an invitation arranged to visit the Masonic Building at 7.10 p.m. At the entrance a guard of honor will be furnished, composed of an officer and 16 men of the Church Lads Brigade, of which corps the Duke is Honorary Colonel-in-Chief. The Masonic Lodge will be brilliantly illuminated.

On the return journey the Duke will have an opportunity of seeing the many buildings which will be lit up on this evening and the next, out of compliment to His Royal Highness, and as a manifestation of the deep loyalty which Newfoundlanders have always displayed towards the Royal House.

The programme for Thursday, July 16th, will be announced shortly.

\$30 In Cash.

1. \$10 will be forwarded to the person sending us the largest number of words obtained from the words "Stafford's Liniment."

The Reporter.

By GEORGE FITCH.

Author of "At Good Old Slivash."

A reporter is a young man who blocks out the first draft of history each day on a rheumatic typewriter.

It is his business to accompany the earth in its revolutions and to transcribe notes of the trip into reading matter. There are about 50,000,000 square miles of land on this planet and if anything is to happen on any of this land without attracting the attention of some reporter with an industrious lead pencil it must take place in a furtive and secretive manner.

At one time, it was necessary to sit on the fence and interview passersby most of the time in order to find out what was happening. The reporter has relieved mankind of this burden.

While we sleep at night, the reporter attends fires, prize fights, murders, earthquakes, cyclones, tango parties, directors' meetings and secret gatherings of frenzied financiers and starts the proceedings thereof into the early morning newspaper. Thanks to the reporter, we can now learn at the breakfast table what is going to happen to-morrow and can make a fair guess at what happened yesterday.

At one time, it was necessary to attend political meetings during a campaign in order to hear the speeches. Now the reporters attend the meetings and the voter reads the speeches on his way down town in the street car. For this reason alone, the reporter is an inestimable boon to humanity.

To be a good reporter one must have an investigate disposition, an indomitable pair of legs, a set of feelings protected by Harveyized armor and a great aversion to sleep. He should also be well versed in politics, baseball, sleuthing in its various branches, the habits and hiding places of financiers, the movements of ocean steamships, the cost of bituminous pavement, the names of banquet dishes, the amount of butter fat in good milk, the legal rate of interest in Oklahoma, the legislation pending in 49 states, the batting averages of Capt. Anson.

In 1886, the names of Pierpont Morgan's children, the date of the Titanic disaster, the time of last cars on all lines, the changes in schedule K and several million miscellaneous subjects of equal importance.

At one time, a knowledge of English was also necessary, but the perfection of modern newspaper enterprise has fortunately relieved the reporter of this burden.

Reporters once followed events and gathered up news. Now they arrange events when news is scarce, accompany history hand in hand and meet invading armies with cameras and notebooks.

For all his work, the reporter gets as much money as a poor plumber. But he is permitted to hang around back of the scenes and watch humanity putting on its show—which is so interesting that reporting is as hard to give up as other stimulants.

Reporters do not become rich, but they could if they told all they knew. Because they do not do this, we should be grateful to them and not tell them all the things we don't know—which is at present the great American diversion.
