HENRY BLAIR.

His Grace the Archbishop's Address

TO HIS PEOPLE ON FINANCE MATTERS.

Dearly Beloved Brethren,—

In a sermon which I preached in the Cathedral during the month of October, reviewing the financial affairs of the Archdiocese, I intimated that at the close of the year a statement would be submitted to the congregation. You will remember that on that occasion I outlined the measures which I proposed to take for dealing with our financial situation. I stated that it was my intention to raise a loan for the liquidation of present indebtedness and for the undertaking of necessary ecclesiastical works in the near future. In pursuance of that policy two appeals were made to the congregation, one for subscribers to the new loan and a second to increase the offertory collections to such an extent as to make the new loan possible. It affords me very great pleasure to be able to state that both these appeals met with a response exceeding my anticipations.

Within a month after the circular letters setting forth the details of the new loan were issued I had applications covering the amount required and since that time further application to the extent of nearly \$25,000.00 have been made. All arrangements in connection with the new loan of the Corporation were finalised at the end of the year and the Trust Deed was signed by the Trustees and the Corporation. I have to express to the subscribers and to the others whose applications we have not been able to meet my appreciation of the spirit in which they entered into our Church finances. Their readiness to invest their money in Church securities reveals a spirit of loyalty to the Church and a desire to co-operate with us in our works that is beyond all praise. As I stated on a previous occasion, they will have the satisfaction of knowing that not alone are they making a remunerative investment but that their money at the same time is being utilized to forward the interests of the Church. The loan has been utilized for the paying off of all Diocesan indebtedness so that we are now free from debt. The balance—something over \$40,000.00—is on deposit at the Bank and will be expended upon ecclesiastical and educational works in the spring.

The second appeal made to the congregation was to increase the offertory collections. That appeal also met with a generous response. On the Sunday following my pronouncement from the pulpit the offertory collections were practically doubled and they have been in the main keeping up to that standard ever since. From the inauguration of the new system until the end of the year the offertory collections at Sunday Masses totaled \$2,293.17 or an average of \$299.00 a Sunday. Of that amount \$1,300.00 went to the liquidation of the old loan due the Bank and the balance \$493.17 was added to the revenue of the Cathedral for current expenses. Whilst the increase in the offertory collections has been most gratifying, at the same time, we shall not feel satisfied until the offertory collections average \$500 a Sunday. The sum of \$100.00 a Sunday is required for the purpose of the new loan. The balance of the offertory collections is all that we have with which to defray the very heavy expenses in connection with the Cathedral. The ordinary running expenses of the Cathedral, for light and heat, salaries and wages total nearly \$4,000.00 a year. In order to meet these expenses we should, therefore, require at least \$70.00 a Sunday over and above the amount required for the purposes of the loan. I, therefore, once again appeal to the Cathedral congregation to realize their obligations in this respect and to furnish us with sufficient funds to meet our ordinary current expenses. This can be done without involving any very heavy sacrifices on the part of the congregation. It only means that all should be prepared to bear their just and fair share of the burdens of Church expenses. I need not point out that there has been a large amount of work done on the Cathedral during the past year. The expenditure on its interior decoration and renovation was approximately \$13,000.00, all of which has been paid. That amount includes the magnificent new altar rail which is such an ornament to our Cathedral, the gift of the late Mrs. Morris, sister of the late Archbishop Hewley. Now that such has been done to beautify the interior of the Cathedral it should be, and I am sure it is, the wish and desire of us all that the Cathedral should be kept as far as possible in its present condition. This can be done only by the co-operation and the assistance of the congregation, every one of whom should have an individual interest in this Church. I feel sure that co-operation and assistance will be freely and generously given, because I know that our sentiments with regard to this noble Cathedral are the sentiments of the Psalmist of old: "We have loved, O Lord, the beauty of Thy

House and the place where Thy glory dwelleth."

THE P. ROCHE,
Archbishop of St. John's.

IMPROVING THE EYES.

You cannot change the color or
size of the iris, but you can change
and improve the white portion
of the eye. If this has an ugly yellow
look, instead of a clear, pearly or
bluish white, nine cases out of ten
you are bilious and as soon as you
clear out your system thoroughly, the
heavy look will be reduced and your
eyes will be better.

If the white portion of the eye is
bloodshot, and the tiny little veins
are red and inflamed, this is practi-
cally a feverish condition, which you
can reduce by both internal and ex-
ternal treatment. Bath the eyes once
a day with salt water, made with dis-
tilled water and common table salt,
thoroughly dissolved, or you can use a
boric acid wash.

Mix ten grains of boric acid with an
ounce of distilled water. The best
way to drop this into the eye, or to
bathe the eyeball, is to use the eye
cup. Fill the cup almost full with the
soothing lotion and hold the head
down so that the eye fits right into the
cup. Now slowly roll back your head,
holding the cup in position so that it
is inverted and the eyeball is literally
bathed and cleaned.

If the lower lid is baggy or puffed
one of two difficulties exist; either
you have some latent kidney trouble
or the eyeball is inflamed. If it is
case of inflammation, a very simple
remedy is this: Mix ten grains of bor-
ic acid with an ounce of camphor water—
not spirit of camphor. Bathe the in-
flamed eyes with this and use hot
water compresses. When the in-
flammation has existed for some
months and has become almost
chronic, you will need a slightly
stronger lotion.

Evening dresses are very short
with a square straight train falling
from the waist line.
