Any organ of the human structure unduly exercised is taxed at the expense of the rest. The brain burdened with care, grief or hard study, will withdraw a portion of the nervous element, which may be required to promote healthy muscular action, from the heart, lungs, stomach, etc., and thus cause them to degenerate and to become incompetent to perform their duties, so that disease follows. Consequently, although Fellows' Compound Syrup of Hypophosphites will surely cure many diseases of these organs, patients must abstain from excessive indulgences or such habits as cause or perpetuate the malady, if they would remain healthy after discontinuing its use.

A Chemical Food and Nutri-

	Without Phosphorus no thought, say the
	Germans, and they might add, no action,
	since Phosphorus and the Compounds are known to be the motive power of the nervous
	and muscular system. They constitute
	more than half the material of the human
	body, being found in every tissue, and their
	presence is absolutely essential to nutrition,
	as they promote the conversion of albumen in the food into fibrine, which is the vitali-
	zing agent of pure, healthy blood. They are
	now coming into universal use in Europe
	and America in the treatment of Scrofulous,
	Consumptive and Venereal diseases, which
	are caused by impoverished or poisoned blood; and in diseases of women suffering
	from irregularities, obstructions and exhaus-
	ting discharges, in pale, puny children, and
	that condition of nervous and physical pros-
	tration resulting from bad habits, excessive use of stimulants and tobacco, and all that
	train of evils known as a fast life. The great
	reliability and promptness in its effects in
	immediately and rermanently restoring the
9	devitalized constitution has made DR.
	WHEELER'S COMPOUND ELIXIR OF PHOSPHATES and CALISAYA a great fa-
