WEEKLY REVIEW.

This week's receipts of grains have been moderately good, oats, wheat, rye and peas being the principal kinds

Wheat sold from \$1 45 to \$1 50 at the beginning of the week; receipts were fairly good; buying was done by the shippers mostly, but it was hard to find out if for speculative account or immediate consumption. During the week the big markets became weaker and as the milling interest here nev seemed to have any confidence in the market since the boom started, there was little competition to keep price up, and the result was down it wen he surface appearance of the situation looks as if the shipping interest ere were to have it all their own wa Of course the surrounding marke ingintain a moderately good competition, but as far as we can learn thi market closed at 84c for old and 78c to 81c for good new, or at least 1c to 20 above a good many of the nearby markets. The close is \$1 35 to \$1 40 per

Oats sold at 70c to 75c per 100 lb mostly the latter. A few loads of new No barley came forward, and the prices given for it are based on last

Peas came in sparingly; the price canged from 65c for soft to 73c for good
