SOME OBSTACLES IN THE WAY OF IMMEDIATE SETTLEMENT

President Mitchell Is in Conference With Roosevelt at the White House This Afternoon.

Strike Leader Still Remains with the President concerning the Very Reticent.

NO STATEMENT WILL BE ISSUED

Mitchell Will Probably Consult District Presidents Again Before Making Public His Views.

Wilkesbarre, Pa., Oct. 15 .- President Mitchel!, of the miners' union, left shortly after 3 o'clock this morning for Washington, where he will confer with President Roosevelt today. He did not intimate that he was going until he left headquarters for the railroad station. It is known that the operators' proposition in its present form is not entirely satisfactory to Mr. Mitchell. Some of the local leaders are of the opinion that he is willing to accept a modified plan. The strikers feel that the arbitration scheme as it now stands is not fair to upon, it is probable a convention will be called to meet within four days from send the men back to work immedi-

miners that the end is near. It is their opinion that President Roosevelt and he will come to some understanding which will result in a speedy closing up of the negotiations. The superintendents of the coal com-

panies in this vicinity report that no additional men returned to work today. They do not look for any increase as long as the negotiations for arbitration are in progress.

SOME OBSTACLES

Sattlement. Secretary Root left the White House

REBATE HOLDS

Last Until That Time.

Ottawa, Oct. 15.-At a meeting of the

the Ottawa civic finance committee last night, urging that coal dealers be

placed on the same footing as muni-

of the ministers this morning, and the

same request was urged by Messrs. C. C. Ray and James Ballantyne, coal

dealers, acting on behalf of the local

members of the Government was held

in the forenoon, and this was followed

by a cabinet council at 4 o'clock. The

ministers, after due consideration, how-

ever saw no reason to depart from

their previous decision, and the rebate

as previously agreed upon remains in force until the 15th prox. The free

transportation of coal is intended as a measure of relief to those classes of the community who are most seriously

affected by the prevailing high prices

It is not expected, however, that the present abnormal condition of affairs

being entertained that before the ex-

piration of another month there will

be an abundance of fuel at more mo-

would be in sight. He said that he believed that these difficulties could be Cape Town, Oct. 14 .- A daring atremoved. He declined to particularize AID FROM THE WEST. Butte, Mont., Oct. 15. - The Butte Miners' Union has forwarded \$3,250 to the headquarters of the United Mine Workers at Indianapolis, for the benefit of the striking coal miners of Pennsylvania. The mil' and smelter men of Anaconda gave a benefit ball for the strikers, at which \$1,500 was netted for the Pennsylvania strikers.

OUR COAL IMPORTATIONS

Strike Leader Arrives in Washington, But Will Not Talk.

Washington, Oct. 15.-John Mitchell, president of the United Mine Workers, arrived in Washington over the Pennsylvania Railroad at 11:27 today in response to the invitation of President them. If a proposition is finally agreed Roosevelt to meet him in conference relative to the proposal of the anthracite operators for the appointment the time the call is sent out. It is of a commission to investigate and stated by some of these at headquart-settle the coal strike. Upon the arers that Mr. Mitchell has the power to rival of the train Mr. Mitchell was met by a group of reporters.
"I can only say now," he said,

Interesting Statistics Just Made Minister of Public Works Now Public.

Imports of Anthracite Show Extraordinary Decrease.

Ottawa, Oct. 15. - The effect of the coal strike on Canadian importations of coal during the summer months, when transportation is usually active, is evidenced by figures obtained at the statistical office of the customs department. What has been secured is bituminous or soft coal, the strike evidently keeping the anthracite mines

pretty will tied up. In July and August of last year 328, 459 tons of bituminous coal and 423,-002 of anthracite were imported. In the corresponding period of this year 388,595 tons of soft coal were brought in, but the supply of anthracite was but 22,335 tons, a decrease of over 400,000 tons.

NOBLEMAN WEDS PLOW GIRL

Nephew of Duke of Portland Renounces Church of England.

St. Paul, Oct. 13.-Arthur Fortescue, nephew of the Duke of Portland, has renounced the Church of England and married Olga Varinhoff, a plow girl, who is a member of a community composed of immigrants from Russia to Canada. On a recent trip to Assiniboia the scion of nobility became impressed with the simple life of the peasants, and his marriage followed. Fortesque returned today to St. Paul with his bride, but had little to say of his romance except that he fell in love with his present bride, whom he first saw working at the plow.

CREDITORS STILL COME

Dowie's Business Manager Asks More Time in Which to Settle Bills.

Chicago, Oct. 14.-Financial troubles from several different sources descended upon John Alexander Dowie yesterday in spite of the declaration of his Frank T. Moulton, the attorney who

Crisis Brought About by Snub From Czarina. Vienna Oct. 14.-A dispatch from

Belgrade says it is officially announced that the Servian cabinet has resigned. The Politische Correspondenz says that the crisis was brought about by the renewed postponement of the visit of King Alexander and Queen Draga to the Czar. Formal assurance was given to the King and Queen last year that the Czar would receive them, but since then they have been unable to obtain a definite date for the visit. They had, however, completed their preparations to start for Livadia, where the Czar is at present staying, when a cold, formal message was received asking them to indefinitely postpone their visit. The reason for the message is understood to be the Czarina's refusal to meet Queen Draga.

Machine to Fly Like Bird.

Paris, Oct. 14. - Among numerous types of flying machines now under construction in France, that of M. Frederick L'Hoste is now attracting much attention. His airship is com-pleted, and moves with huge wings, very birdlike, and is made entirely of aluminum. It is of torpedo form and seven meters long. The first experiment will take place

MR. TARTE IN THE EAST

Discusses Transportation and the Tariff Question.

Montreal, Oct. 14 .- Mr. Tarte address-

at Montreal.

ed the members of the Montreal Board of Trade yesterday afternoon on the transportation and tariff questions. The gathering which was presided over by Mr. Alex. McFee, president of the oard, was a large one, and Mr. Tarte was given a very cordial hearing. Mr. Tarte first took up the transportation question and proceeded to speak of Canada's geographical position show that this country had the short-est route between the west and the east, and that therefore we should be the carriers between these points. But it was not surprising that we had not done much of that carrying trade, as we had no equipment for it. He spoke of the improvements which had been made to the ship channel beween Montreal and Quebec, and said that when the season of 1904 opened, or very early in it, a ship drawing 30 feet of water would be able to run from Montreal to Quebec night and day by taking advantage of the tide at Batiscan and Quebec. "Let me ask the country," said Mr. Tarte, "whether Montreal should not be as free a port as it is possible to make it. We must not borrow any more money. duty of the country is to equip our national harbors, our national rivers, our national highways. I speak for myself. Perhaps I shall be accused once more of compromising my colleagues. I have no desire to do so, any more than to compromise myself, but on a question of that magnitude I think a minister should have at least the right of an ordinary citizen. Montreal should have a dry-dock; it is a pressing necessity. Quebec has one. and it has proved it should have two. When the equipment on the lakes is completed, when he have a larger fleet on the lakes, and when the St. rence improvements are completed, the port of Montreal will certainly be one of the most important shipping points on this continent."

Regarding the tariff the minister said: "It is with some little trembling that I speak of the tariff. I feel, though, sir, that I am bound to do so. Tariff, after all, is not a sacred thing that nobody can look into. It is a great, large, broad, public question, in which we are all interested. I have talked tariff for the last 25 years; I talked tariff before being a minister; I have talked tariff since I have been a minister, and I will talk tariff whether I remain a minister for some time or whether I will go to private life, which will certainly come some of these fine mornings. It cannot be helped. I quite recognize I am not bound to be a minister for all

time; I have no desire to be so." ROADS FOR TEMISKAMING

Ontario Government Makes Appropriation of \$20,000.

Toronto, Oct. 15 .- Owing to the large increase in the settlement in the Temis-caming region this year, it has been found necessary to continue the work of building colonization roads on an extensive scale. Therefore the Government at a council meeting yesterday decided on the expenditure of a further sum of \$20,000 to this end, making \$40,000 appropriated for the purpose this year. The work will be pursued as long as the weather is favorable.

It was also decided to offer \$100 reward for the capture of Noah Hale, the Sault Ste. Marie murderer, who is supposed to be at large somewhere in

the woods of Algoma. Fifty pounds was the weight of the heaviest salmon caught in the River Severn, England, during the past sea-

> Paul Kruger's Book. London, Oct. 15.-The first suggestion

from J. F. Lehmann, of Munich, who offered 500,000 marks. Mr. Kruger refused, saying he was only willing to work for his people not for his own ambition or for material interest. When the war had taken a decisive turn, the second suggestion came not from a publisher, but from Mr. Kruger's followers. Mr. Kruger consented, after

and fall alternately. The machine differs from anything hitherto used. Its total weight is 450 kilogrammes. It ist o be on view at the St. Louis Ex-
