STOCK MARKETS. C. Becher, broker, Bank of Com-

Carrington today: New York, Nov. 20-Noon,-Development In the stock market during the forenoon session has been highly satisfactory. Consistent strength has been maintained throughout the list, and no evidences of a reactionary tendency are manifested. Some of the buying this morning might be called good, and professional operators are not entirely desirous of further drives against the market during the present temper of the trading. There is a very wholesome confidence in the ultimate outcome being generated, and while the pro-cess of restoring the nerves to a healthy condition is necessarily slow, it is none the less effective. No weak spots appeared in the market today, and the general tone has been good. Southern Pacific was the feature, and there seems to be evidence in that quarter of poor manipula-tion. Naturally the Steel securities have felt the effect of the announcement of a cessation of syndicate operations. The stocks have been firm and the bonds un-usually strong. The tractions have been well held, and the railroads are aggressive in their resistance to any selling that savors of a drive. Estimates of loss of cash will be published shortly, and will

give a line on tomorrow's statement.

There are no indications of depression developing during the afternoon session. Sales to noon, 387,000 shares. TORONTO.

STOCKMEN DISSATISFIED

Canadians Do Not Like the Condition Laid Down by St. Louis Exposition.

There is said to be not a little feeling mong Canadian stock breeders regarding the conditions laid down by the St. Louis Exhibition management for the governing of Canadian live stock exhibits. If the conditions are not improved it is

said to be the intention of the breeders to take steps to induce the Dominion Live Stock Association to establish a live stock exhibition in conjunction with Toronto's annual fall show, and that the \$100,000 voted by Parliament for the St. Louis show be devoted to this purpose A dispatch says that the western breeders are inclined to favor the Western Fair at London instead of Toronto. Should this be done, stockmen from all over the Dominion would be able to prostock, while at the same time be assured pavement indefinitely. It is said that of much better prizes than St. Louis those who are opposed to California menced this year in any event, and it A LIFE-SAVER could offer.

of works recommending the repeal of the bylaw passed for a Trinidad asphalt pavement on King street there is quite a little talk as to whether a sufficient majority of the council is obtainable to secure the bylaw's repeal. Most people have an idea that it requires a two-thirds vote to repeal a bylaw, but as a matter of fact, a majority vote will do the trick. City councils are in the same class as most other legislative bodies, and as a law may be repealed by a majority vote in the Federal Parliament or in any Provincial Legislature, so a majority vote will repeal any law enacted by a city on that street.
