## C.P.R. Officials Here Officially Notified of Restoration of Crow's Nest Rates

# EXPECTED SOON

Divisional C. P. R. Officials McLaren Has Completed Two Notified Pass Rates Are Now in Effect.

1898 AGREEMENT

Official word was received late yesterday at the local C. P. R. freight office from headquarters at Montreal through Toronto of the fact that the Crow's Nest Pass agreement had automatically gone into effect again Sunday at midnight.

The telegram ran in part: "Rates on specific commodities from specific points to specific destinations in effect January 1, 1898, are being restored, effective today (July) in accordance with Crow's Nest Pass 23,254 miles.

The specific commodities referred them in pursuance of the terms of the agreement are: "All green and ed the east coast of Aris In Pursuance of the terms of the agreement are: "All green and ed the east coast of Aris In Pursuance of the terms of the agreement are: "All green and ed the east coast of Aris In Pursuance of the terms of the terms of the agreement are: "All green and ed the east coast of Aris In Pursuance of the terms of the t fresh fruits, 33 per cent; coal oil, 20 per cent; and binder twine, agricultural implements, iron wire, window glass and paper for building and intended to be used from Japan

result of the agreement going back ada. into effect after being suspended during the past two years would be difficult to describe. For instance, if in 1899, a shipment of certain goods, listed among the commodities subtaking. ject to reduced rates, was made from London to any city in Western Can-ada, now, since the agreement is again in effect, the rates on such similar shipment would be the same as in 1898. At the same time a simishipment could not be made to day from an intermediate point say St. Thomas, and secure the benefit the reduction in rates unless city during the previous period that the agreement was in effect. Such

basis so that it will be possible t compete with those of the C. P. R. under the terms of the agreement.

### DE LA SALLE SCHOOL ADDS MATRICULATION

Separate School Board Carries Out Plan of New Class

Each Year.

When De La Salle re-opens in September an additional classroom will make possible a complete course for entrance to Normal School or junior matriculation. The seperate school board, meeting last night, decided to commence a fourth-year matricular.

Kurile region.

The dangers in this region include not only rocky islets, fogs and storms but slow moving birds, one of which could easily foul a propeller.

The Canadian Air Force prepared from the beginning to welcome MacLaren at Vancouver with all possible help for the long flight across Canada. The itinerary was laid out to include a seven-day halt at Monireal commence a fourth-year matricula-tion class, which furthers the plan

## **COURT DISMISSES** APPEAL BY WOOD

Judge Ross Confirms \$500 Fine Imposed by Magistrate.

O. T. A. CASE

Special to The Advertiser

St. Thomas, July 7 .- The judgmen of Magistrate Maxwell, fining E. P. (Peg) Wood of London \$500 and costs, with the option of three months n jail, on conviction on a charge of aving liquor in a place other than a private dwelling, was sustained Monday morning by Judge Ross, following the hearing of the appeal last week. The fine imposed is the heaviest penalty of the kind inflicted so far this year in the city or county. Wood is now in Eligin county jail. Wood is now in Eigin county jail.
Wood was arrested in a Port Stanley garage by Provincial Constable
Felix Devlin, who followed him from
St. Thomas. A club bag found in his
car contained six bottles of whiskey, while another bottle was found in the car. At the trial Wood deposed that car. At the trial Wood deposed that he was merely carrying the liquor from his parents' home in London to their summer cottage at Port Stan-

Maxwell was in a much better position to pass upon the credibility of the witnesses than he was. His honor based his findings in large measure on the decision in the appeal hearing in the supreme court of the case of Rex vs Dean. He also found that Magistrate Maxwell had full jurisdiction to try the case.

Shops Reopen. The local Pere Marquette shops which closed down on the 25th o June, reopened on Monday, and will remain open till July 25, according to orders received from Detroit,

The M. C. R. shops are working also become obsolete.

Word has just been received by Inspector V. K. Greer that there will economy are the reasons given for the reductions in staff and in working hours.

Monday afternoon and evening members of the Holy Angels Church choir and their friends held an enjoy-able outing at Port Stanley. Supper was served on Invererie Heights at

## UTILITIES CABLE **WORK CONTINUED**

Heavy Network of Overhead Wires Will Be Eliminated.

LONDON LEADING

Workmen of the public utilities Workmen of the public utilities commission are engaged in the construction of a new underground cable from the Ridout street hydro substation to York street. This cable is an addition to the two-mile cable which will carry underground high transmission wires from the Ridout street sub-station to station No. 2 at Cabell and Kitchener streets.

The Ridout street construction work will do away with the necessity of the heavy net work of high transmission wires around the Ridout street station. An underground cable, four blocks in length, will carry power from the sub-station to York street, where it will be distributed to power notes.

where it will be distributed to power poles of the latter street.

The latest work is only part of a plan which, it is expected, will finally have all high transmission wires running underground and thereby eliminate storm damage. In this re-spect London is leading many of the

Canadian municipalities.

Commenting on the expenditure of \$55,000 for construction work for the first five months of this year, the general manager of the public utilities commission stated today that this had been largely for new meters, short lines and sub-stations. There were several small sub-stations. Canadian municipalities were several small sub-stations erected, but no lengthy nower lines.
