The Chinaman, who recently arrived from the Skeena river a few days ago, was examined by Dr. Milne, yesterday, and found to be of unsound mind. He will accordingly be sent to the Asylum.

Capt. Lewis and His New Work Capt. Lewis and His New Work.

Capt. H. G. Lewis, having been appointed shipping master for the port, will take over the office to-morrow morning. For the present, until new quarters are available seamen will be shipped and discharged by him at the office of Mr. Finlaison, customs

The Natives are Indignant.
On the authority of Bishop Durien, of New Westminster, it is stated that the intended meeting by the clergy of all the interior Indians, at Kamloops, has been postponed indefinitely, on account of the natives being in a state of high indignation over the treatment meted out to one of the Catholic priests. A meeting of the Lower Fraser and Coast Indians will be held at St. Mary's Mission, on the 30th instant.

Death of Mr. D. C. Heal, Early yesterday morning David C. Heal breathed his last, at his residence, corner Johnson and Blanchard streets. The de-Johnson and Blanchard streets. The deceased has been a resident of Victoria for many years, and a great favorite among his many friends. He was a native of Bowmanville, Ont., and has been in this country for the past 30 years, spending his earlier days in Saanich. He had been ailing but a short time prior to his death, and his demise was not even expected. He leaves a wife and four children for whom the greatest sympathy is felt. The funeral takes place to-morrow afternoon at 2:30.

The case of Mr. Blake came up in the Supreme Court, yesterday, before the Chief Justice. Mr. Luxton appeared for the Law Society, to urge the committal for contempt of the defendant, the claim being that he had practiced in Vancouver as a barrister without being qualified. After hearing the case, His Lordship decided that the matter could be sufficiently met, if the defendant was ordered to pay all costs of the action, warning him, however, against a repetition warning him, however, against a repetition of the offence. The plea set up by M Blake was that he had passed all the necessity.

Coal at Frisce.

In his recently received circular, J. W. Harrison writes: "The receipts of coal for the past week consist of 20,274 tons from the coast collieries and 13,493 tons from foreign sources. The market is still in a very discouraging condition. The supply of coast coals is heavy. There are several unsold cargoes of foreign grades on hand and en route, and these are being offered at even lower figures than ruled last week. All of our most prudent dealers have been misled in their purchases during the past six months. Time and time again it has been supposed that bottom quotations had been reached, but each succeeding month has witnessed a further decline in value." Coal at 'Frisco.

and in Valparaiso itself, but from advices received, the calm was only on the surface, there being in official circles a strong undercurrent of distrust as to the future of the Southern Republic. The lines of demarcation between the Progressists and the Clericals are drawn so distinctly, that by no human means can the interests of both assimilate, and it is not improbable that at an early date, the conflicting interests will again seek recourse to the sword, to decide which shall hold supremacy. Two days before the Nymphe left Valparaiso, a prominent Chilian official publicly declared that a civil war, bloodier than the last and farmore destructive to the public weak, would be the inevitable consequence of the opposition by the Clericals and Palacio's late adherents, to the reforms promulgated by the Montt administration. A gentleman just arrived from Chili, who is eminently fitted by his knowledge of the country and its inhabitants to form an opinion, said yesterday that he expected another revolution at Valparaiso inside of three months.

Shanglat describes the executioner rebellion in the recent rebellion in the recent rebellion in the later of the chiefs of the recent rebellion in the recent rebellion in the later at a wooden errors, there must and there, the future of the curion him here and there, so that the redent of a wooden errors, the executioner proceeding to cut later than the 20th inst. her officers or crew. She goes out of com-mission in the beginning of July. On Tues-day she goes over to Vancouver, taking with her all expired men and invalids, who are to return to England via the C.P.R. On the way in from Cape Flattery the Nymphe passed the Yorktown, Mohican and Adams, bound for Behring Sea.

'EYES FRONT!' The B.C.B.G.A.'s Annual Inspection—Col Holmes Gives Some Good Advice.

Yesterday afternoon, at 2 o'clock, the members of companies 2, 3 and 4, of the B. C.B.G.A. assembled at the drill shed and marched to Beacon Hill, where Col. Holmes, D.A.G., and staff were waiting for them. The battalion was headed by the band of C.

The battalion was headed by the band of C Battery.
On arriving at the Hill, the battalion marched past the flag in column, and again in quarter column at the double.
Then followed several battalion evolutions, which were performed in a thoroughly accurate manner, and proved to be the most praiseworthy effort of the afternoon's proceedings. When the wheeling, etc., were concluded the companies went through their manual and company drill, after which all accountements were thoroughly B.C. Benevelent Society.

During the past month, the B.C. Benevolent Society have distributed in cash and kind \$110. The president reports that, for the season of the year, there is more distress in Victoria than he has ever seen. The sewerage works brought many of the laboring class from the other side of the line, and, with their families, they appear to be "stranded" in Victoria. They are a big drain on the funds of the Benevolent Society.

Sound Service.

The Port Townsend Leader says: "The rumor is again revived that the Puget Sound and Alaska Association is to have opposition. It is said that within a few days the Flyer is to be put on to run between Tacoma, Seattle and Port Townsend, and the George E. Starr between Port Townsend, Port Angeles and Victoria, both steamers to make round trips daily, Should this rumor prove a fact, a most lively out in rates may be expected."

During the past month, the B.C. Benevolents were concluded the companies went through their manual and company drill, after which all accourtements were thoroughly and carefully inspected by the Colonel. Immediately he had done this, he stepped forward and addressed those present; telling them as a result of his inspection, that, although there was no the officers and men that they had not during that time taken any retrograde step. He noted with the very greatest pleasure the acquisition at last of a new drill hall, and sincerely hoped that the B.C.B.G.A. would so work and improve it hemselves as to make their brigade as much a credit to the hall as the latter would undoubtedly be to the city. The Deputy Adjutant General further remarked that the brigade was by no means perfect, and that much still remained to be done to bring it to a proper state of efficiency.

A very large crowd of people watched the manceuvres.

CANADIAN. Quebec's Physicians and Surgeons Insist or Regulations—Fires and Casualties— Death of a Prominent Citizen.

QUEBEC, May 14.-The College of Phyicians and Surgeons have passed a resolution refusing to admit as practitioners in this province, the holders of diplomas from this province, the holders of diptomas from the universities of other provinces not reciprocating with Quebec.

PETERBORO, Ont., May 14. — W. J. Young, alias A. C. Tustin, has been committed for trial on a charge of offering counterfeit bills for sale.

mitted for trial on a charge of offering counterfeit bills for sale.

Niagara Falis, May 14.—At 10 o'clock W. L. Fraser's planing mills at Suspension Bridge took fire and were destroyed. Thousands of feet of lumber were destroyed. The place was partially insured.

Galt, Ont., May 14.—Henry O'Neill, aged 50, a blacksmith of Preston, died in the lock-up here after being arrested for intoxication. The coroner's inquiry found that he had died from an over dose of medicine administered by himself.

Dunnville, May 14.—A boiler in Winslow's sash factory exploded, completely wrecking the building. Loss, \$3,000. No one was injured.

Norwood, Ont., May 14.—Thomas Buck, lumberman and miller, is dead, aged 75. He had been a prominent figure in these parts for many years.

the Government, that anarchy is every where in the Parliament, in the public nind and in the streets. The sole remedy in the opinion of the Prince, is a strong Government to he elected by a plebisoite which alone would be capable of suppressing the factions that threaten the ruin of the

Murder in High Life.

WARSAW, May 14.—Boguslawa Crezicka, a young lady of high position, belonging to one of the upper noble families, has been arrested for the murder of Josephine Ger. arrested for the murder of Josephine Gerlach, a beautiful hallet girl, and has confessed the crime. Josephine, ever since her
advent on the stage, has been the craze
among the Polish nobles, to some of whom
she; has shown particular favor. A few days
ago, she was found murdered in her room,
and suspicion pointing to Boguslawa Crezika, she was arrested. Her motive was
jealousy. She says Josephine ruined her
happiness. Upper society is shocked over
the orime.

An Early Dissolution.

London, May 14.—Mr. Gladstone evi dently anticipates an early dissolution of Parliament, as he has written to his constituents in Midlothian, "in my opinion l stituents in Midlothian, "in my opinion I will ask the electors for their votes before the end of June." There is a widespread opinion among the Liberals that the Government proposes to take them by surprise by giving an impression that there will be a dissolution late this summer, and then suddenly dissolving Parliament early next month

water inundated the surrounding country and poured into the mines, causing terrible loss of life. The water poured into the mines so quickly that the unfortunate men received no warning of danger. The water cose rapidly, and in a short time every avenue of escape was shut off and the men per-him. A new organ has been purchased by the congregation of the Mount Pleasant Presbyterian Church.

To-day the hardware men commenced closing at 2 o'clock on Saturday afternoons.

A special meeting of the City Council was held, last night, to discuss and consider the water inundated the surrounding country mines so quickly that the unfortunate men received no warning of danger. The water rose rapidly, and in a short time every avenue of escape was shut off and the men perished miserably. It is know that 22 men are dead in one pit, and many other lives have been lost at different points. The men who lost their lives were working in the lower levels. The others escaped and, with the assistance of those who flocked to the months of the nits, went to rescue the men 2. Canoe race (Klootchmen,) 9 paddles, i mile to stake boat, turn and return.
