Had the matter come before the house in the form of a bill it would be out of order as attacking the prerogative of the crown both upon the power to deal with crown lands and to initiate legislation for the administration of the lands besides, and I am of opinion that in its present form being mandatory in its expression and intent, the resolution would have all the effects of a bill, since its passage would compel the Government to bring down an amendment to the Land Act or adopt the only alternative open to them (see Speaker's decisions, pp. 74, 75, 77, 126, 138 and p. 36, journals of this house, 1887). I rule the resolution out of order in its present form.
