

A Victorious Happy.

Harry Morton Returns With Gold and Great Faith in the Klondike.

A Good Winter in Dawson—Atlin Nuggets Again in Evidence.

Mining Men Not Pleased With Englishman's Criticism of the Law.

From Our Own Correspondent.

Vancouver, June 16.—Harry Morton, of Victoria, returned from Dawson today on the steamer Cutch. He is a guest of Archie Macnaughton. Harry has been lucky, and brings a bag of dust and one of nuggets, which he states are only samples, as he is interested in several claims. He estimates the season's output at \$20,000,000. The returning Victorian is enthusiastic over the great riches of Klondike and tells several stories in illustration of the luck some people have. Two Swedes struck Dawson without a penny. The owner of a claim on Eldorado gave them a lay on a part he thought worked out. They struck a paystreak and got \$11,000 in one day. Several other despised and neglected claims have proved rich. Laborers have received \$1.00 to \$1.50 an hour all through the winter. Mr. Morton left on the 30th May and many miners were preparing to come out. The Dawson fire did not raise the price of lumber, and it still sells, rough, at \$150. The water in the rivers is unprecedentedly low, and thousands of tons of the freight destined for Dawson will never reach there.

All through the winter hay brought \$500 a ton in Dawson, and oats sold at 25 cents a pound in the stores. Mr. Morton is manager for the Boyle mill besides being a claim owner. He will spend several weeks in Victoria before returning to the scope of his good fortune.

Atlin's Great Nuggets.

The Cutch also brought down Mr. Austin, of Port Townsend, who speaks in praise of the Atlin country. He says that many nuggets are being opened up and that the best being worth \$200,000. One weighed 315 and 225 are very numerous.

Dr. Buckle Returned by the Cutch Dawson.

While crossing Lake Bennett, Dr. Buckle was drenched by the party's boat against the rocks. They saved their lives by jumping on a log. Dr. Buckle lost \$17,500 he was taking in to build a hotel.

The Mining Law.

The interview in the Colonist this morning with Mr. Hilder, Kenter's special correspondent, regarding the mining laws of British Columbia, has caused much adverse as well as favorable comment in high standing as well as gentlemen in naturally very indifferent, as it is considered by them to be indirectly a challenge that they cannot afford to let stand unnoted. One gentleman who is considered very high did his own case on the Coast as consulting mining engineer, and who corresponds for three papers in England, states that if the reporter is sure that Mr. Hilder says what appeared, he will at once deny the statements in England.

STEAMERS IN TROUBLE.

Columbia a Wreck and Humboldt Is Aground—A Miner at Dawson—Officials Acquitted.

Seattle, June 16.—(Special)—The City of Seattle arrived here to-night with 195 passengers from Dawson. Over \$500,000 in dust from the interior. Humboldt is on the rocks at Chatham Point. There is no danger of losing the Humboldt will probably be hoisted without the assistance of a tug at the next high tide.

A MURDER COMMITTED IN DAWSON.

A murder was committed in Dawson on June 3, the victim being Jas. Prater, who formerly was employed on a paper in Jameau. He was murdered by Arthur Goddard, who went to Dawson from Seattle and is supposed by the Canadian Mounted Police at Dawson to be insane.

THE RETURNING KLONDIKERS.

The returning Klondikers had a hard trip out as the river and lakes were nearly full of ice.

A BLACK FRIEND.

Marlborough, Md., June 16.—John Berry, colored, was hanged here this morning. Berry was but little more than 17 years of age but little known to the community.

WALDECK-ROUSSEAU NOW.

President's Favorite Asked to Form a French Cabinet After Two Other Leaders Declined.

CABLE AND BOUNDARY.

Government Questioned as to Development in the Negotiations on These Subjects.

From Our Own Correspondent.

Ottawa, June 16.—In the Senate today Sir Mackenzie Bowell drew attention to a cablegram published in the newspapers stating that there was a desire on the part of the Imperial authorities for another conference with the colonies on the Pacific cable project. He would like to ask if this was correct, and if the government had appointed a commissioner. He also wanted to know whether the cablegram about a meeting in London on the Alaskan boundary having been arrived at was correct.

Hon. David Mills said he believed the colonial secretary had invited another conference on the Pacific cable project. Sir Mackenzie Bowell: "Is England?" Mr. Mills: "Yes." Continuing, the Minister of Justice said the provisional boundary for Alaska had been decided upon, but he could not give particulars. Sir Mackenzie Bowell wanted further information about the Pacific cable conference and the Minister of Justice said the matter was now being discussed by the high commissioner and colonial secretary in London.

Boundary Mines Now Closing.

Some Owners There Also Refuse the Old Pay for Shortened Day.

Ten Hour Shifts Reported Still in Operation on Several Properties.

By Associated Press.

Roseland, June 16.—The enforcement of the eight-hour mining law has already caused trouble in the Boundary Creek country. About 50 men employed in the Steamship and Brooklyn mines in Deadwood camp, owned by D. D. Mann, the Montreal railway contractor, and other Eastern capitalists, have quit work because of the new law. The old rate of wages of \$3.50 per day for 10 hours work. Under the new arrangement they only offer to pay \$3 per day. The miners employed in the Knob Hill, Old Ironsides, City of Paris and Lincoln mines, of which companies J. P. Graves is the general manager, are at work as usual, receiving \$3.50 per day for eight hours work. On a number of other properties controlled by other individuals 10-hour shifts are still in vogue.

DOMINION NEWS NOTES.

Special to the Colonist.

Kipling's Worship.

Montreal, June 16.—The degree of LL.D. was conferred upon Rudyard Kipling in absentia by McGill University this afternoon. The function took place at the annual convocation of the medical faculty and was a brilliant affair.

Capital Made to Suffer.

Montreal, June 16.—The stock of the Pays de la Loire was sold on the exchange to-day at \$3.10. Eight days ago it was brought eagerly at \$4.10 per share. The actual loss in the value of the stock of this corporation which is estimated at 1,000,000 shares, is \$1,000,000 in eight days. The rapid decline is due entirely to the enforcement of the eight-hour law.

Sudden Death.

Corwall, June 16.—George Shaver, of the firm of Grand & Shaver, dropped dead off his bicycle to-night.

An Overworked Principal.

Hamilton, June 16.—College reports occupied the chief attention of the Presbyterian general assembly to-day. Sir Thomas Taylor said that Rev. Principal Hamilton is on the rocks at Chatham Point. There is no danger of losing the Humboldt will probably be hoisted without the assistance of a tug at the next high tide.

BEFORE KRUGER'S PEOPLE.

Pretoria, June 15.—Both chambers of the volksraad have adjourned to enable the members to consult their constituents on the franchise proposals of President Kruger.

WALDECK-ROUSSEAU NOW.

President's Favorite Asked to Form a French Cabinet After Two Other Leaders Declined.

HOW TO GET PLUMP AND ROSY.

Nature meant every woman to be plump, rosy and well developed, and if she has become pale, weak and nervous, Dr. A. W. Chase's Nerve Food will restore and revitalize the weak and give new strength and elasticity to the whole body. For its power to women there is no remedy so successful as the great food cure of Dr. A. W. Chase. At all dealers.

Attacked By Rebels.

McArthur's Lines Visited at Daybreak, but Enemy Repulsed With Heavy Loss.

Plan Was to Surround the Americans, but Alarm Given Too Soon.

Luna Was Going to Assassinate a Guineo When Slain by the Guards.

By Associated Press.

Manila, June 16.—After cutting the railroad and telegraph at Apolit, seven miles out, for the purpose of severing the cables, the rebels attacked Gen. MacArthur's lines at San Fernando at 4:30 this morning. They met with an exceptionally warm reception and were repulsed with a loss of 75 killed, 30 prisoners and many wounded.

The rebel force advanced stealthily from the jungle north of the city and then divided with the evident purpose of surrounding the Americans. The outposts of the Iowa regiment discovered the enemy, and retired to their line in a trench position, awaiting the attack. The Iowa regiment and the Kansas regiment stood the first shock of attack, receiving the fire until the enemy was within 600 yards. Their first volley hit the rebels who returned the fire wildly, the rest of their line falling to advance. The Americans, who had been notified of the novelty of the situation of awaiting an attack, sallied forth and the Iowa regiment, which had been in a trench position, awaited the attack. The Iowa regiment and the Kansas regiment stood the first shock of attack, receiving the fire until the enemy was within 600 yards. Their first volley hit the rebels who returned the fire wildly, the rest of their line falling to advance.

First Round of Redistribution.

Remedy One of Most Glaring Inequalities.

Attempt to Force Continuous Debate Abandoned Because of Slim House.

From Our Own Correspondent.

Ottawa, June 16.—Mr. Mulock today moved the second reading of the redistribution bill, apologizing for his absence when the bill was introduced. He was closely questioned by opposition members and got much confused in his answers. He announced that one part of the bill would be withdrawn. The speaker of Toronto fixed by the bill at four members would be increased to five single member constituencies, while the representation of Kent county, which was fixed at three, is to be reduced to two. He could not say whether the commission of judges would hear evidence regarding the settlement of the bill.

How Luna Died.

A Spanish officer who has been a prisoner in the hands of rebels, and who was released by Aguinaldo, has come through the lines to Manila. He claims to have been a witness of the assassination of Gen. Luna. According to his report, the relations between the two Filipino leaders had been friendly until the breaking-point by reason of Luna's attempt to assume control of affairs, and the final rupture of the province.

Mr. Mulock's Friend.

An animated discussion occurred when Mr. Mulock read a letter from a political friend named MacLaughlin who is charged with securing a rate-off of 20 per cent. from farmers in settling claims for land damages on the Trent Canal.

Buffalo Protection.

Mr. Sifton introduced a bill to-day to amend the territories game laws, and preservation act of 1894. The bill extends for a further period of years the protection given to buffalo in unorganized territories. The present law has been found effective and has resulted in an increase in the number of buffalo.

Yukon Mails Again.

At the evening sitting, at which fair progress was made with the supplementary estimates there was further criticism of the Yukon mail service. Mr. Mulock, coming in for much adverse comment, the house adjourned at midnight.

Another Member's Reward.

Dr. Landerkin's family interests are being well looked after. He has one son in the gold commissioner's office at Dawson, and the estimates show that another son has been placed in the postoffice at Toronto.

WANTS AN APOLOGY.

London, June 15.—The Italian government says the Rome correspondent of the Daily Mail, has demanded satisfaction from France for the arbitrary arrest at Nice, on Monday, of the Italian general Giletta, taken into custody there on a charge of espionage.

OBOL RHODES' ENEMIES.

Petition Against His Receiving University Honors in Company With Kitchener.

THE RISING FRASER.

Lillooet, June 16.—The river is rising fast and approaching the ordinary high water mark. The weather is warmer. Quesnel, June 16.—The river raised eight inches to-day. The weather is warmer but cloudy.

ABERDEEN SATISFIED.

No Question of Canadian Annexation to the United States.

London, June 16.—The Earl of Aberdeen, formerly Governor-General of Canada, in an address before the Eighty Club in London this evening said that Canada was thoroughly and unquestionably loyal to the British crown. "Anything like serious contemplation of annexation to the United States," said his Lordship, "is absolutely a thing to be avoided, and the French-Canada element among the foremost supporters of direct British connection."

London, June 17.—The Pall Mall Gazette says that a petition has been presented against the bestowal by Oxford University on June 21 of an honorary degree upon Cecil Rhodes. The petition bears many important signatures including that of the head of a great college. The signers were influenced by the crisis in the Transvaal and by the fact that Lord Elgin and General Lord Kitchener are also to receive degrees. The general feeling is that the protest against the degree is belated.

NORTHERN FISHERMEN STRIKE.

Indians Demanding More For Fish Than the Cannerymen Can Afford to Pay.

From Our Own Correspondent.

Vancouver, June 16.—The Cutch brings the startling news from Rivers Inlet that all the Indian fishermen, numbering about 2,500, have gone on strike just as the season is opening. Some of the Skeena and Nass river fishermen have joined them, and from all accounts every fisherman in the North will be out by this time. The Indians demand 7 cents per fish, and the nine cannerymen on Rivers Inlet have decided to pay no more than 8 cents at the outside. Mr. MacLachlan, who came down to Vancouver to take men back with him to fish, says the cannerymen cannot operate at a profit and pay 10 cents, so that no fishing is being done. He says the Indians are determined, and men must be sent up.

CHEAPER TRAVELLING.

Northern Pacific Makes Reduction from Winnipeg—Better Grain Rates Also Suggested.

Winnipeg, June 16.—(Special)—The announcement of the proposed reduction in passenger rates on the Northern Pacific caused very favorable comment here. There is a rumor on the streets that the Northern Pacific company are willing to give assistance in building an air line from Winnipeg to Duluth, to give a rate on grain of three or four cents per bushel less than any yet talked of, that is to say, six or seven cents per hundred from Winnipeg to Duluth.

Yukon Mail Bungling.

Canadian Letters Stalled by Makeshift Bargain With American Contractor.

Officials Without Stipulated Bonds—Minister's Friend Denies Taking Toll.

Darcy Island Leapers Remain a Provincial Charge—One Member's Reward.

From Our Own Correspondent.

Ottawa, June 14.—In answer to Sir Hibbert Tupper to-day, the Postmaster General explained that when the United States services through Canadian territory to Alaska the Canadian government did not care to allow them to exercise such sovereign rights but agreed that the American contractor should have a nominal contract from the Canadian government. This contractor did carry some Canadian mails but Canada paid him nothing for them. Mr. Mulock under cross-examination admitted that American contractor Richardson did not give satisfaction to the States and the result was that the Canadian mails entrusted to him were also somewhat delayed.

Yukon Affairs.

Mr. Sifton admitted that none of the officials in Yukon are under bond although many are handling large sums of public money. The statute requires such officials to give bonds, but Mr. Sifton has not seen fit to enforce the law.

Darcy Island Leapers.

In a committee on the supplementary estimates for the year just closing Mr. Montague called attention to the condition of the lepers on Darcy Island. He suggested that they be removed to the lazaretto at Tracadie.

FREEDOM FOR EXILES.

French Political Prisoners Escape to Sea and After Great Privations Reach British Soil.

From Our Own Correspondent.

New York, June 16.—A despatch from Kingston, Jamaica, says: A few days ago a little boat containing four men came up the mouth of Essequibo river, in British Guiana, from the open sea. The men had been buffeted about at sea for three days and nights without food or water, and exposed to the fierce rays of a tropical sun. They were French convicts who had escaped from the penal settlement at St. Jean, in Martin, Cayenne, on which is Devil's island, where Dreyfus was confined. It appears they eluded the guard, stole the prison dogout, or canoe, got together a little food and water and put to sea. The food and water were washed overboard, but the men preferred to perish of hunger and thirst rather than return to the rigors of the penal settlement. They got to New Amsterdam, in Dutch Guiana, and were assisted by the police, and were sent to the British Guiana, which they reached after perilous adventures and much suffering.

Huge Army Required.

Americans Need Hundred Thousand Soldiers to Subdue the Filipinos.

Lack of Discipline Among Volunteers Adds to Difficulties of Campaign.

French Observer Lets New Light Upon Operations in Far East.

By Associated Press.

New York, June 17.—A prominent French newspaperman, M. Henri Turot, special correspondent of L'Eclair and Le Monde Illustré, and chief editor of La Petit République, returned from the Philippine islands by way of Vancouver, and sailed for France to-day in order to report the result of his mission to his papers. Speaking of the American troops, Turot says: "The American troops have, in my opinion, ration which are too heated. Admirably supplied with provisions, the soldiers eat too much meat and not enough rice. The latter conduct themselves well under fire, but they pay little attention to obedience to their chiefs. In spite of the energetic measures of these chiefs there has been regrettable pillaging. Also at times the volunteers have committed acts of grave lack of discipline. During one of the expeditions of General Lecoq, recently found in the river and refused to go further. It does not seem to me possible to hope for a complete victory during the rainy season. The difficulty of a campaign in this country of mountains and excessive heat, must not be forgotten. It also seems to me inconceivable that for the conquest of the interior 100,000 men would be too many. We know in France what the system of General Lecoq has cost. It is an example which the United States would do well not to follow."

Tramcar Riots in Cleveland.

Strikers Take Off and Batter the New Conductors and Motormen.

Many Victims of Their Violence Sent to Hospital—Passengers Hurt.

By Associated Press.

Cleveland, June 15.—While the sixth day of the street railway men's strike started peacefully, there was serious rioting to-night, and three non-union men were taken to hospital in consequence. The trouble began shortly after noon near the Lake View car barns on Euclid avenue. A crowd gathered and attacked a car on without police protection. A volley of stones and bricks was hurled at the car and the conductor was hauled from the platform, when he drew a revolver into the air and took to his heels. The mob then assaulted some
