The County Class, of which six ves- els are to be included in this quad- ron, according to report, are of the fast armored cruisers, the 9,800- ton displacement type, from which the principal particulars of the type are as follows: Displacement, 9,800 tons; length, 440 feet; beam, 60 feet; draught, mean, 24 1-2 feet; armament, four 6-inch, five 4-inch, five 12-pounders, three 18-inch, an indefi- nite number of machine guns, eight 18-inch tubes two 18-inch submerged. The arrangement of guns the coun- ders closely resemble the Re- ton, and bear much the same rela- tion to the big armored cruisers of the Drake or Cressy class that the

FLEET COMING TO ESQUIMALT

Fine Cruisers of Late Types In- cluded in Fleet Ordered to This Station

DESCRIPTION OF VESSELS

Generally Believed at Naval Village That Report is Well Founded

While no further advices have been received regarding the report from Halifax of the coming of the fourth cruiser squadron from that station, augmented by six of the county-class cruisers, to Esquimalt in May, the impression prevails at Esquimalt that it is correct. Since the Colonist some months ago first announced the report that the British navy would re- occupy the local station, reports have been made from time to time to the same end, usually promptly followed by a denial from the admiralty. A naval officer stationed at Esquimalt a short time ago received a letter from an official connected with the admir- alty in which the writer said that officially the information was that the reports of the coming of the fleet to Esquimalt were untrue, but the writer continued "unofficially, old chap, I can tell you that there is truth in it." The imperial government, although the Ottawa government has made requests for an early transfer of the naval yard at Esquimalt to the Dominion, has continued to retain the yard and station, and it is the opinion generally held at Esquimalt that the coming summer will see a squadron at Esqui- malt, larger than ever before.

The squadron of armored warships reported coming to Esquimalt in May include vessels of two of the latest types of the British armored cruisers, which are of the Cressy type, and the navy are of three classes, of 14,100 tons displacement, 12,000 tons displacement, 8,800 tons, respectively, and are known as the Drake, Cressy and Kent or county classes. Of the Cressy type there are six ships, all of the Fourth Cruiser Squadron, three of which, the flagship Hogue, Cressy and Hogue, are included in the fleet coming to Esquimalt. Perhaps the best available description of this type of armored cruiser is that given by the Vickers Maxim company of Barrow, builders of the Hogue. This vessel is of the Cressy type, and in some respects re- sembles the powerful, embodying the features of that ship, with the addition of an armored belt of consid- erable area. The displacement is 12,000 tons. The hull is sheathed with teak and copper. The armor consists of two 9.2 inch (22 ton) guns mounted in an armored barbette, the mounting being of special design, by which the guns are loaded at any angle or elevation of training. There are also eight 6-inch guns, twelve 12 pounders, quick firing, and a number of machine guns. The four boiler compartments take up 119 feet of the length of the ship; the coal bunkers being arranged on either side of the protective deck, and an ammunition passage is situated immediately under the protective deck. There is also an anti-aircraft gun mounted on the mainmast. The ship is 440 feet long, the beam is 60 feet, the draught is 24 feet, the displacement is 12,000 tons, the speed is 18 knots, and the range is 10,000 miles. The ship is 440 feet long, the beam is 60 feet, the draught is 24 feet, the displacement is 12,000 tons, the speed is 18 knots, and the range is 10,000 miles.

CONTRACT AWARDED FOR SHIP REPAIRS

Victoria Machinery Depot's Tender to Repair Port Pat- rick is Accepted

The contract for the necessary re- pairs to the British ship Port Patrick, Capt. Santy, which collided with Light No. 50 off the Columbia river bar, and afterwards grounded off Gray's harbor, striking and floating off, later putting into this port to discharge and repair, was awarded yesterday morning by Capt. Adam, overlooker for sel, to the Victoria Machinery Depot, which firm will receive about \$22,000 for putting in a new stern post, twelve new plates, fairing some others, re- pairing damaged decks, rigging, etc. The work is to be done in 25 days. The Port Patrick, which is moored alongside Turner Beaton's wharf, will be towed to the harbor and hauled out on the ways of the Victoria Machinery Depot about the middle of the month following the com- pletion of the repairs and overhaul of the steamer Camosun, of the Union Steamship company, which is expected to be ready for service again Febru- ary 15. The new stern post for the ship, which will be a large forging, will probably be secured from Morans at Seattle. The damage to the hull and the repairs will involve the re- placing of at least twelve of the plates, others being faired. There is some damage to the vessel's deck also which will have to be renewed, and the rigging generally overhauled. The bottom will be cleaned and painted. The contract for reloading the wheat cargo taken from the vessel by the Victoria & Vancouver Stevedoring company, was awarded to that concern.

Weak Kidneys

Weak Kidneys, surely point to weak Kidneys. The kidneys, like the heart, and the stomach, and the liver, are the great organs of the body, and if they are weak, the body is weak. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is to do little. It is a waste of time and of money as well.

Weak back aches or is weak. If the urine is dark, or is dark and strong, if you have a headache, or if you feel tired, or if you feel weak, or if you feel nervous, or if you feel dizzy, or if you feel sick, or if you feel anything wrong, it is a sign that your kidneys are weak. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is to do little. It is a waste of time and of money as well.

Renown bears to the Majestic class: the only striking difference is that they have the high forecastle common to all cruisers nowadays, and that the 12-pounder battery amidships is open as in the Duncan class for these differences the high forecastle is consid- ered absolutely indispensable to a swift cruiser. Early cruisers, like the Black Watch, which suffered from the sea they take in forward; the effect of which is noticeable in two vessels of the class, the Cressy and Royal Arthur, which had their forecastles built up to improve their steaming qualities in bad weather. The more or less open upper deck was the result of a report sent in by Capt. H. J. May, R. N., who pointed out that the high bulwarks in the Majestic, and later types up to the Duncan, would simply burst shells in the worst possible place, i. e. just in front of the men at the guns. The compromise in the county class cruis- ers falls a good deal short of Capt. May's ideal, which was to have the 12-pounders absolutely unobscured by boats, davits, stanchions or any- thing else; still it is a vast improve- ment. The older idea of high bul- warks, and the consequent necessity of protecting in this class, being mounted in armored casemates. The armor of the Black Watch is thin and extensive. There is a belt about 250 feet long amidships of 4-inch Krupp cemented armor, and this belt extends right up to the main deck, it is continued to the bow at a thickness of 2 inches. The armor is terminated by a five-inch bulkhead. A curved protective deck runs through the length of the ship and reinforces the water-line protection. The space above and below is filled with coal bunkers. The casemates are 4 inches thick and turrets 5 inches, but for these, nickel armor, not Krupp, is em- ployed. It has less resisting power than the more easily worked. There is said to be great difficulty in using the nickel armor for circular or nearly circular turrets. These turrets have short armored bases of five inches thickness, with armored hoists going down to the main deck. The turrets are distinctive, and so far, distinctive to this class. To begin with the gun in each can be trained together and used as one piece or else used inde- pendently. There is a single hoist to the pair of guns worked by electric motor. It serves with great rapidity, and when in full working order deliv- ers every alternate charge to the port gun, which has a special small motor to catch it as it comes up the endless chain. This arrangement can be eas- ily disconnected—the hoist is then re- mained to be added that three layers of projectiles are carried in the turret. The hoists, which can be loaded in any position of training. Double hoists, adopted from the aviation system, will, it is said, be fitted to the two-story casemates.

Heavy Snow Fall.

Vancouver, Feb. 6.—The southern interior of British Columbia was swept by a snowstorm last night, from North Bend to the summit of the Rockies, and south to the boundary, a heavy snow fall occurred.

Awarded Damages

New Westminster, Feb. 6.—Helps of the late H. J. Pollis, who was killed several months ago at the Schaake Ma- chine Works, were yesterday awarded \$1,500 under the Workmen's Com- pensation act against that firm.

Royal City May Borrow

New Westminster, Feb. 6.—Mayor Kearney has advised the calling of a public meeting to consider the special expenditures to be made this year for the schools, the market and the Lulu Island bridge, and it is possible that a bylaw to borrow the money may be put before the ratepayers.

Pioneer's Illness

New Westminster, Feb. 6.—Mr. James Johnson, an old-timer in New Westminster, suffered a paralytic stroke last night, and is not expected to live. He is an uncle of the Messrs. Johnson Bros., whose dealers, of Van- couver, Mr. Johnson is a resident of a large tract of land near the old Port Moody townsite.

MILK DEALERS SUMMONED

Vancouver Health Inspector Begins Prosecution Under Provincial Regulations

Vancouver, Feb. 6.—Health Inspect- or Meek has been conducting an ex- amination of the milk offered for sale by a number of the city vendors, and the result of his investigations is that six parties have been sum- moned to answer to a charge of vio- lating the provincial regulations gov- erning the sale of milk.

The alleged offense is in connection with section 20, which provides that milk shall contain not less than 3 per cent of fat; 3 per cent of solids, not fat; 2 per cent; 3 per cent solids, 12 per cent.

The parties summoned are: T. Arch- er, Lansdowne avenue; S. Garvin, Westminster avenue; A. Bickford, 70 Hastings street; East L. Fish, Seventh avenue; W. D. Woods of the Woods hotel, and L. D. McKay, respec- tively. The two last had the milk in their possession.

The cases will come up in court tomorrow. Other prosecutions are likely to follow.

New Hotel Opened.

New Westminster, Feb. 6.—The new Hotel Russell was formally opened in a blaze of glory last night by the hold- ing of a grand ball and supper. The affair was the most brilliant social success of the season, and was attend- ed by over three hundred guests, in- cluding a large number from Van- couver and other outside points.

Look For Cheaper Fuel.

Vancouver, Feb. 6.—A conference of the city council with representatives of the general hospital, school board, library board and other institutions indirectly connected with the city, has been called for Friday afternoon at 3 o'clock. The question of fuel will be considered. It is that of securing a sup- ply of fuel direct from the island op- erators, thereby making the purchases more economical. Mr. Macmillan is the father of the scheme, and is con- fident that the result of investiga- tion will show that the civic institu- tions can save a large sum.

GENERAL MEETING OF FRUIT EXCHANGE

Officers and Board of Directors Elected—Province Well Represented

Revelstoke, Feb. 6.—The general meeting of the Fruit and Produce Ex- change of British Columbia was held on Wednesday, February 5, in the city hall.

Forty-two delegates from all parts of the province were present, includ- ing Vernon, Armstrong, Enderby, Kel- own, Nelson, Chilliwack, Victoria, Peachland, Grand Forks, Kamloops, Salmon Arm, Penticton and Revel- stoke.

Harmony was the chief character- istic of the convention. The delegates were welcomed by Mayor Lindner. At the day session co-operation was assured. A banquet was given by citi- zens in the evening.

The board of directors is: Mr. Puckle, Victoria; Mr. Slavin, Kam- loops; Mr. McCallum, Salmon Arm; Mr. Hancock, Enderby; Mr. Main, Armstrong; Col. Glosop, Vernon; Mr. Vickery, Peachland; Mr. Mutch, Penticton; Mr. Smythe, Revelstoke; Mr. Hurbert, Nelson; Mr. Rorke, Grand Forks; T. Johnstone, Kel- own; J. Wilson, Chilliwack; Nelson, president; L. M. Hager, Revelstoke, secretary; executive, Messrs. John- stone, Wilson, Smythe, Hancock, Hager; Hon. secretary, Messrs. Cun- ington and Morris.

ORANGEMEN MEET

New Westminster County Lodge Elects Officers—Year—Many Local Lodges Represented

New Westminster, Feb. 6.—Officers were elected and other important busi- ness transacted at the annual meeting of New Westminster County Oran- gemen, which was held in this city Tuesday night.

All of the lodges of the district were represented, and County Oran- gemen W. E. Dunlop presided. The following were the officers elected: Bro. O. L. No. 1,433, Port Moody; Bro. E. W. Cook, deputy master, L. O. No. 1,593, New Westminster; Bro. R. A. Stoney, county recording secretary, L. O. L. No. 1,598, New Westminster; Bro. James Humphreys, county financial secretary, L. O. L. No. 1,150, New Westminster; Bro. George R. Mathias, county treasurer, L. O. L. No. 1,150, New Westminster; Bro. R. G. Patterson, county director of ceremonies, L. O. L. No. 1,150, New Westminster; Bro. G. A. Dockstead, county lecturer, L. O. L. No. 1,433, Port Moody; Bro. E. Percy, deputy county lecturer, L. O. L. No. 1,433, Port Moody.

The Emperor of Japan has no fewer than thirty residences, each a model of comfort

DEALING WITH TIMBER LANDS

Mr. Sifton Offers Defence of His Actions as Head of Department

"TU QUOQUE" ARGUMENT

Farical Nature of Competition for Limits Shown by Opposition

Ottawa, Feb. 6.—In the house of commons today Mr. Sifton was loudly cheered when he arose to take part in the debate on the motion of Mr. Lake for a committee to inquire into the generation of timber lands in the northwest. Mr. Sifton acknowledged that the things complained of in the debate had occurred during the time that he was Minister of the Interior, and that the reply was naturally due from him. The policy of the Laurier ad- ministration had been to develop the timber resources of the country, and the Conservatives, which he declared had been one of reserving the timber for their speculative friends and the police limit, why? asked Mr. Sifton, and answered, amidst Liberal cheers, that it was because there was no spe- culative value in them. At the present time in British Columbia timber lim- its were a drug on the market, and government had obtained quite as good prices as had the Quebec gov- ernment. The three limits on which Mr. Sifton based his charges could not contain more than two hundred mil- lion feet of lumber, and the big mills of Rainy river and Winnipeg could cut the whole of that in two years. There were 125,000 miles of forest area in the northwest, and at the present rate of disposing of limits, it would take 220 years for that area to be depleted. Mr. Sifton was loudly cheered on tak- ing his seat.

Dr. Raiche, of Marquette, followed. He said if Mr. Sifton had been as good as his word, the country as he had been well had Sir Wilfrid made him finance minister, "tu quoque" was no answer to the question at issue.

Mr. Erlston referred to the fact that the Conservative government always had three persons present when tend- ers were opened, while the present government left the job to one man. There was a farical competition for berths.

Col. Ward, whose name had been mentioned by Mr. Turfitt, showed that the claim in which he was interested had been granted three years before he was a member of the House. After spending \$4,000, he and two Libera- associates had dropped it as a bad venture. He would vote for Mr. Lake's motion.

Dr. Schaffner twitted the govern- ment for lying down, and remaining silent. The discussion was continued by Messrs. Avery, Taylor, Lalor, Crawford, Bergeron, and others, and Mr. Morin, after which the house divided. Mr. Lake's motion being voted down.

CHANGE RULES FOR STAKING OF CLAIMS

Hon. Dr. Young Brought Matter to Attention—Standing Commit- tee on Mining

(From Friday's Daily)

The mining committee met yester- day morning. Hon. Dr. Young pro- posed that an amendment with regard to the staking of placer claims should be introduced, but this was ruled out of order on the grounds that the com- mittee could not introduce legislation, but could only pass upon legislation referred to it by the house. The amendment of the provincial secretary would have to be brought to the notice of the house in a bill, which would be duly referred to the com- mittee.

Some years ago Dr. Young brought in a bill enlarging the size of placer claims. No action was taken with re- gard to staking was made. Hence with the larger claims it is necessary to place stakes as frequently as it was the case under the old law. Dr. Young proposed that only corner stakes be required. The committee transacted no fur- ther business.

GETS FIFTEEN MONTHS

Sentence on Basil Hewitt of Vancouver For Wrongfully Endorsing Cheque

Vancouver, Feb. 6.—For forging a cheque at the Northern bank on Gran- ville street Basil Hewitt, aged 46, was sentenced today to a term of fif- teen months with hard labor.

Hewitt was agent for the National Realty company on Cordova street, but had no authority to endorse cheques. He received a cheque for \$50 from Robinson & Hackett, and going to the bank endorsed the firm's name and got the money.

The defence argued that being a representative and agent of the firm, he had authority to endorse cheques. The prisoner said that in England he had signed a cheque for \$50 from Robinson & Hackett, and the bank had endorsed cheques in the same way. This statement was regarded as ab- surd by the court.

Duck Hunter Wounded.

Ladner, B. C., Feb. 6.—J. Gracia, fisherman, was very seriously injured here this morning by the explosion of his gun. He was firing a shot at a flock of ducks on the water, when the shot tore off his left hand. John Boyd, who plunged into the water to rescue Gra- cia, was immersed for half an hour

I want to send you my special price and special terms to-day. Will you write for them?

and suffered fearfully from cold and shock. Curiously enough a gun be- longing to Boyd accidentally discharg- ed as he was being helped into a boat, but no one was injured.

PRINCE'S GIFT TO CITY

Fine Portrait of Japan's Crown Prince Is Received by Mayor Hall

In common with those other Cana- dian cities, whose chief magistrates have been the honored recipients of a memento from Prince Fushimi, the heir to the Japanese throne, as an acknowledgment of the courtesy shown to His Imperial Highness on his visit to this country last year, Mayor Hall yesterday morning was presented with a portrait of the prince. It is an excellent likeness of Prince Fushimi in court attire and His Highness wishes to present to the city of Victoria as a souvenir of his visit to Canada in June, 1907.

In presenting His Highness' photo- graph I am to express his high appre- ciation of the courtesies and the cord- ially welcome which were extended to him by the citizens of Victoria during his visit to your country.

"I have the honor to be, sir, your most obedient servant,"

"K. MORIKAWA,"

"H. I. Japanese M's. Consul, Vancouver, B. C., Jan. 25, 1908."

"His Imperial Japanese Majesty's Consul."

"Sir—I am desired by His Imperial Highness Prince Fushimi to transmit to you, Mayor of Victoria, the accom- panying photograph of the Prince which His Highness wishes to present to the city of Victoria as a souvenir of his visit to Canada in June, 1907."

"In presenting His Highness' photo- graph I am to express his high appre- ciation of the courtesies and the cord- ially welcome which were extended to him by the citizens of Victoria during his visit to your country."

"I have the honor to be, sir, your most obedient servant,"

"K. MORIKAWA,"

"H. I. Japanese M's. Consul, Vancouver, B. C., Jan. 25, 1908."

"His Imperial Japanese Majesty's Consul."

"Sir—I am desired by His Imperial Highness Prince Fushimi to transmit to you, Mayor of Victoria, the accom- panying photograph of the Prince which His Highness wishes to present to the city of Victoria as a souvenir of his visit to Canada in June, 1907."

"In presenting His Highness' photo- graph I am to express his high appre- ciation of the courtesies and the cord- ially welcome which were extended to him by the citizens of Victoria during his visit to your country."

"I have the honor to be, sir, your most obedient servant,"

"K. MORIKAWA,"

"H. I. Japanese M's. Consul, Vancouver, B. C., Jan. 25, 1908."

"His Imperial Japanese Majesty's Consul."

Mayor Hall replied as follows to the above letter of presentation:

"Victoria, B. C., Feb. 6, 1908."

"Mr. K. Morikawa, His Imperial Ma- jesty's Japanese Consul, Vancouver, B. C."

"Sir—I have the honor to acknowl- edge the receipt of your letter of the 25th ultimo, accompanied by a framed photograph of His Imperial Highness Prince Fushimi, presented by His Imperial Highness to the city of Victoria."

"On behalf of the city council and citizens of Victoria I would esteem it a favor if you would be good enough to express to His Imperial Highness my sincere thanks for this most appropriate souvenir of his visit to this city in June last, which is remembered with pleasure by all."

"Everyone who has seen the photo- graph has admired it very much."

"I have the honor to be, sir, your obedient servant,"

"LEWIS HALL,"

"Mayor."

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight. The figures for height serv- to distinguish High Water from Low Water.

The height is in feet and tenths of a foot above the average level of the low tide water in each month of the year. This level is half a foot lower than the datum to which the soundings in the Admiralty chart of Victoria har- bor are reduced.

Let me send you the proof of the big money you can make raising chickens with a Chatham Incubator

I HAVE the proof from all parts of Can- ada and the United States, which shows emphatically that the Chatham Incu- bator is making good profits for its users.

Some people who "just kept" hens as a side issue are now making big money raising poultry with a Chatham Incubator.

Others who were raising poultry with other makes are now making bigger profits with a Chatham Incubator.

You know it doesn't do to put all your eggs in one basket. The year comes along when crops are not so good. The farm doesn't pay as much as it should. Then don't you think you will appreciate the sure and certain profit that you get from poultry raising with a Chatham Incubator?

Better still; the price I can sell you a Chatham Incubator for and the terms I can sell it on, mean that you will be making a profit out of it before you have paid me one cent.

I practically start you in a profitable poultry business—which really only takes a small part of your time, or your wife's or daugh- ter's—and it doesn't cost you one cent until you are making a profit out of it.

Now, I want you to write me to-day—a post card will do. Then I will send you my 1908 Booklet, which tells all about the Chatham Incubator, how it is made—the five-year guarantee we sell it on. How strong and successful a company is back of this

Guaranteed for Five years. Freight prepaid to any point.
