—The Nova Scotia legislature will soon convene in annual session for the transaction of provincial business, and a golden opportunity offers to do something that will benefit all classes of our people and revolutionize a condition of affairs that is positively disgraceful. We refer to the great road question. The government of to-day, as well as those that have previously held office in this province, have pursued a short sighted policy on this most important matter, and the time is approaching for an inquiry into existing conditions, and the projection of some measure of reform. Tens of thousands of dollars of government road money have been practically wasted by the lack of sufficient knowledge and care on the part of those entrusted with its expenditure. The people are only now waking up to the seriousness of the condition that confronts them, and it is certain that nothing short of a radical road reform will satisfy their demands.

The Bay Route.

(St. John Sun.)

(M. Chase, of Boston, who with John Atwood, of that city, has been down here in the integats of the proposed new steamer service on the bay route, came over the bay on Saturday. Mr. Chase has been down here in the integats of the proposed new steamer service or the bay route, came over the bay route, came over the bay solution. The pad pent over a week in expect of his visit. He said he had visited Digby, Annapolis, Bridgetown, and ada spent over a week making inquiries and learning the views of the proposed new service or the people with regard to the proposed new service. He had may have service the satisfied that a new service would a subscribed. Mr. Chase had been appointed at the versious place the winter and week making inquiries and learning the vi ical road reform will satisfy their demands. Electors would do well in every constituency to impress upon their representatives that immediate legislation is needed in this matter. There is no use in delaying the issue. If we expect any considerable improvement to be inaugurated, we must look to the provincial assembly to take the initiatory steps. It constitutes the centre from which a spirit of reform will rapidly radiate; the municipalities may be trusted to second the efforts of parliament. A practical measure of road reform will transcend in importance any other that may be dealt with in our legislative halls this winter, and a new erain Nova Scotia history will date from the passing of Scotia history will date from the passing of an up to date bill providing for the improvement of our public highways. Outario is engaged in a systematic work of improvement along this line; there good roads are considered as of paramount importance to the general agricultural and trade interests, and so they should be here. The heaviest tax the people of this province bear to-day is that inflicted by the despicable condition of public roads, which, in nearly every district, are a barrier between the producer and his market, and afford but wretched facilities for social intercents. The government that tic roads, which, in nearly every district, are a barrier between the producer and his market, and afford but wretched facilities for social intercourse. The government that deals with this matter as it should be dealt with will be kindly remembered by the people, and to the present administration the ple, and to the presents itself, just at a time opportunity presents itself, just at a time when a reform measure will be in accord with the popular vote. What they will do

EDWARD BAUCKMAN.

Edward Bauckman, of West Paradise, died at the hoine of his son, Abner, on Thursday, the 6th January. Deceased was of a great age, having been born in Lunenburg County revolt against the tyranny of previous Spanish rule, but it has been met with a firm refusal on the part of the Cuban leaders, who declare that absolute independence is what their people are fighting for and, until that is obtained, war will be waged with the Spanish forces. The parriots, as they may be called, have shown a remarkable persistence in obtained, war will be waged with the Spanish forces. The patriots, as they may be called, have shown a remarkable persistence in their efforts to free their country from the Spanish yoke, and while no great battles have been fought, yet the guerilla warfare has been a disastrous one to the foreign troops, whose losses have been terribly heavy.

Won for himself many warm friends. He died in the full possession of all his faculties and with a strong faith in the Saviour of the Spingfield was with him. He saviour of the Bauckman, of West Paradise, and Chipman Bauckman, of Boston, and a goodly family of grand children.

The funeral services were conducted by acclamation. Nominations ged his antlered game. Mr. Chas McNayr, of Springfield was with him. —There is but little talk of a civic election in February, and it is not unlikely that the retiring Councillors and the Mayor will be re-elected by acclamation. Nominations to the foreign the function of the foreign of the function o Apparent friendliness of the new Spanish cabinet, that has recalled Weyler, substituted a more human officer and granted autonomy, has had no palliative effect, and the next phase of the negotiations is in doubt. It is rumored that the United States will be half of Spain, but as her sympathies are generally regarded as with the Cubans, nothing much is likely to result from her intervention, unless indeed she can pave the way for Spain to quit the island without further humiliation. Recent advice from the provisional directorate of the Nova Scotia Hotel and Improvement Company, limited, is to effect that the enterprise is being vigorously pushed forward, and in spite of the short time allowed for securing the necessary capital, the indications are that all things will be in readiness by the 31st inst., and the Nova Scotia legislature will be asked for a charter at the coming session. We understand that considerable stock has already been subscribed in the eastern end of the vailey, and the people there have shown a commendable willingness to take hold of an enterprise that will speed to the province of the latter's sister, Mrs. Edward Ricketson, South street.

Mr. L. D. Shafner returned last Friday from a fluing business trip to Naw York.

Just what has been done toward securing subscriptions in Annapolis we do not know, but the project is being discussed everywhere. Several of the prospectuses of the company have been sent to the Monttoe, and those sacking information on the subject are invited to call and examine. The enterprise is assuredly a bona fide one, and created for the purpose of filling a want, now most needed, in better hotel accommadation throughout the valley.

Police Court.

Another cession of the police court was held yesterday to deal with a case of petry theft. One of the small boys of the town was arrested upon a charge of stealing four pairs of larrigans from MacKenzie Crowe & Co. When arraigned before Stipendiary Cox the culprit confessed his crime and was sentenced to twenty days in the common goal. Two pairs of the stolen larrigans were disposed of, subsequently to the theft, to two other persons in town and an effort was made to convict them of receiving goods, knowing them to have been stolen, but the only evidence against them was that of the person convicted of stealing and being otherwise unsatisfactory, His Honor dismissed the charges.
