WEEKLY NEWSPAPER GIVES EXCLUSIVE NEWS.

A prophet is rarely recognized in his own country, and one might add that a local weekly newspaper seldom has the support which it merits in its own community.

Support in this case means more readers, more subscribers, more circulation, which is the life blood of any paper. These weekly papers deserve support because having a definite and important mission in their respective constituencies, they fulfill it faithfully and well.

Every issue of the average weekly paper contains scores of news items which cannot be found elsewhere. In addition to the principal world news of the day, your local paper publishes any number of interesting items about people you know, right in your own town or in the neighboring towns.

The reports of Council meetings, agricultural societies, special sales, school and church news, fires accidents, deaths and births, marriages, entertainments, advertisements or merchandise for sale by your own stores—all the hundred and one items of exclusive news are gathered and published for you every week in the year by your local paper, and you cut off a source of information, instruction, entertainment and guidance which cannot be replaced by any other medium.

WHO WINS?

Who won the coal strike last year? Certainly not the miners, who were taken back at no more than their previous rates of pay, after five months of idleness.

The public didn't win the strike. At the beginning of 1922 anthracite coal at the mines sold at \$8 per ton. At the end of 1922 it sold for \$9.25. Today it sells for \$9.75 at the mine's mouth.

It is not that the cost of mining coal has been increased. The labor cost was the same after the strike as before. The general price level, which gives an indication of what the operators have had to pay for supplies, has remained stationary the last twelve months.

The price of anthracite has been increased from \$8 to \$9.75 simply because the strike exhausted all coal stocks and created such a slim margin between demand and supply that the mine owners have been able to hoist the price. They take the extra \$1.75 because they can.

A new strike upon the public we hope will be abandoned.—Boston Advertiser.

NEW BRUNSWICK'S MOTOR RECEIPTS

Over \$400,000 Paid For Licenses So Far This Year.

Fredericton, N. B.—Receipts for motor vehicle licenses in New Brunswick have already passed the estimates for the year, although there are still several months of the period to go.

Premier Veniot gave out figures showing the receipts to be \$406,877.20 up to Tuesday night, and W. H. McQuade, Inspector of taxation, has reported the amount may be supplemented by another \$30,000 or more before the year ends.

The estimate presented to the Legislature for receipts from motor vehicle licenses anticipated payments of \$405,000, so that the actual receipts are now about \$2,000 ahead of the estimates. The largest receipts on record previously were in 1923, when they exceeded \$376,000. The figures illustrate the growing number of automobiles in New Brunswick.
