

OF INTEREST TO THE TRADE!

PUBLISHED THIS DAY,

Christianity and some of its Evidences,

BY THE HON. OLIVER MOWAT, Premier of Ontario: Cr. 8 vo., nearly 100 pages, printed in large legible type for all readers, and neatly bound in seal paper cover, gilt top, and side die--50c.

Booksellers will find this to be one of the valuable works of the season, as the following extracts from press notices would indicate :

"The lecture fully deserves all the praise it received in its appearance in our columns. The compression into so small a space of a clear statement of the most recent results of the historical criticism of the Scriptures is really a remarkable piece of literary work the effectiveness of the writer's vindication of the great truths of Christianity is heightened by his calm and judicial tone".—TORONTO GLOBE.

"Too few of our public men, in this country pursue a course of study that does not bear directly upon their official duties. In England it is different, Mr. Gladstone finds time to study Moses and Homer, and to attempt to reconcile them. Mr. Balfour not long since turned from the intricacies of the Irish problem to tell us of the dreary barrenness of Positivism. We welcome Mr. Mowat among this class of statesmen."—EVANGELICAL CHURCHMAN.

"Mr. Mowat's method of dealing with his subject was singularly happy."—CANADA PRESBYTERIAN.

THE CHRISTIAN GUARDIAN of Toronto, and many of the local papers have also favorable notices of the work.

The trade can order supplies through W. J. GAGE & CO., WILLARD TRACT SOCIETY, and other wholesale houses.

RATE INLAID INTEREST TABLES.

4 PER CENT., 5 PER CENT., 6 PER CENT., 7 PER CENT., 8 PER CENT., 9 PER CENT., 10 PER CENT., ON EACH PAGE. \$100 UP TO \$10,000 ON EACH PAGE :

Printed on fine paper. The rates inlaid in delicate tints by outline figures, making a thorough safeguard against error, while not interfering with the calculations. Folio, Half Leather, Cloth Sides, \$5.00

The first edition of this valuable set of Tables being exhausted we have now in active preparation, a NEW and IMPROVED one, which will commend itself to BANKERS, BROKERS, and BUSINESS MEN generally.

Some Bankers' Opinions: "The novel system of Printed Rates and the improved plan of ruling must commend themselves strongly to all who use them, as being just what is required to assist the eye to determine the desired amount at a glance." * * * *

* * * "From my experience in computing interest on paper discounted, I consider your system the best and most time-saving of any."

"Your Rate Inland Tables are a great improvement upon those at present in use."
