

The Mission Field.

THE PUNJAB MISSION OF THE C. M. S.

Seventy-two missionaries (exclusive of their wives and of all lady missionaries), have been sent out from England by the Church Missionary Society to the Punjab and Sindh Missions since the year 1851; of whom thirty are still connected with the country. Twenty-four have retired from the service of the society, and seventeen have died. Amongst those who have retired from the society are Bishop French, who, after labouring for twenty-eight years as a C. M. S. missionary, was made Bishop of the Punjab in 1878; Bishop Ridley, who, when unable to work at Peshawur on account of severe illness, accepted a missionary Bishopric in North-West America; Mr. Bruce, who, after several years of faithful services in Umritsur and Dera Ismail Khan, left the Punjab to found the Church Missionary Society's Persia Mission at Julfa, near Ispahan, where he still labours; Dr. Trump, the well-known philologist, who, after writing grammars of the Sindhu and Pushtu languages at Kurrahee and Peshawur, translated the Punjabi *Guruth* in Lahore for the Government of India, and is now a Professor at Munich; Dr. Procknow who after several years of missionary labour in Kotgurh, returned to Germany to take the place of Pastor Gossner at Berlin; the Rev. J. Barton, who now occupies Simeon's pulpit in Cambridge; and the Rev. F. H. Barrin, the first cousin of a late Viceroy, who left the Umritsur Mission to found a Mission of his own in Batala, which he now maintains at his own expense. Amongst the Punjab and Sindhu C. M. S. missionaries who have died, we may mention Dr. Pfander, one of the greatest missionaries who have ever come to India, who, through his *Mizan-ul-Hagg* and other works (some of which were written in Persia before he came to India, and others were written in Agra), has laid bare the errors and fallacies of Mohammedanism, and laid open the truths of Christianity to the Mohammedans of India, Persia, Turkey, and Arabia, more than any other man has ever done; the Rev. T. H. Fitzpatrick, the first missionary of the Church of England in the Punjab who laid the foundations of the Umritsur and Multan Missions; the Rev. R. B. Batty, 2nd Wrangler and Fellow and Tutor of his College in Cambridge, who died at Umritsur; the Rev. J. W. Knott, Fellow and Tutor of his College at Oxford, who died in Pesowur; the Rev. Frederic Wathen, who died in Dalhousie; Dr. Elmslie, the well-known medical missionary in Cashmere, who died at Gujerat; the Revs. J. N. Merk and C. Reuther, who died at Kangra; the Rev. G. M. Gordon, who died a martyr's death in trying to help wounded English soldiers in Candahar. Of the 20 European missionaries who are now in the field, four are medical missionaries in Cashmere, Dera Ghazi Khan, and Umritsur, two are lay missionaries, and twenty-four are clergymen.

By Universal Accord,
AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.
For sale by all druggists.

GATES'
Acadian Liniment
AND
Nerve Ointment
CURE
Rheumatism and Diphtheria.

TRURO, February 1st., 1879.
MESSRS. C. GATES, SON & CO.—Gentlemen, I came home two weeks ago, and found my boy perfectly helpless, and crying with pain. I took your
Acadian Liniment and Nerve Ointment.
mixed them together, and bathed the painful parts, and they killed the pain immediately. I called in a doctor to see what ailed the child, and he pronounced it Inflammatory Rheumatism. I believe that pain cannot stay where they are properly tried. I have seen people who had Diphtheria use your

Acadian Liniment
in preference to the Doctor's gargle, as it gave them more relief. When the throat is coated, it can be used as it is in the bottle, without being diluted. I believe that every house should have your Medicines in them.
Yours truly,
JAMES FULTON.

What is Catarrh?

(From the Mail, Can., Dec. 14th).
CATARRH is a mucous-purulent discharge caused by the pressure and development of the vegetable parasite *amœba* in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are:—Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxæmia, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat, up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.
Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous-tissue. Some time since a well-known physician of 40 years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.

From a Gentleman well known.

CAPTAIN ROOD, of the steamship *Edgar Stewart*, has just brought to our notice a most remarkable case of a young lady who was a passenger with him some little time ago, who was on her way home "to die, as she expressed herself," as she had been told by her physician that there was no hope of her recovery, that she was in an advanced stage of consumption, and recommended her to go home.
The captain seeing that she was very sick having a very severe cough, gave her a bottle, that he had on board, of Putner's Syrup of Hypophosphites, which at once relieved her cough, and gave her much comfort. When she got home, she continued the bottle, and found that it had done her so much good, that a messenger was despatched to the captain to get the patient half a dozen bottles.
The patient has been taking it for some time, and has improved in a most astonishing manner, so that she is now able to attend to her duties, and enjoys better health than she has for over two years.
This is not the first charitable act of Captain Rood, who always looks after the interests of the passengers committed to his care, and says, "I always recommended your Syrup, as I could do it with the utmost confidence from the personal experience, I have had with it, and I consider my medicine chest not complete without Putner's Syrup Hypophosphites."
