## The Test of Time, Certainty of Action, and Good Construction,

are the most important features in portable fire extinguishers. The difficulties and uncertainties resulting from complicated mechanism and consequent corrosion have been entirely eliminated in the construction of the

## Underwriters' Fire Extinguisher.

There are no stop cocks, valves, levers or springs to corrode. There is no mechanism to adjust or get out of order. No mechanical force is required to put them in operation. They are certain to act, even after long standing.

Officially endorsed by 39 Boards of Underwriters and Inspection Bureaus in Canada and United States. Write for printed matter.
