ASSESSMENT SYSTEM

“THE BEST FRATERNAL BENEFIT SOCIETY
IN THE WORLD.”

FIRST—Because both men and women are admitted—thus bringing the blessings of insurance protection to both sexes.

SECOND—Because no one is rejected owing to their religion, nationality or politics.

THIRD—Because the rates are the “happy medium,” being very much lower than those of old line companies, but high enough to insure permanency and stability, thereby being superior to the cheap death assessment concerns.
