ARTICLE II

Paragraph 2 of Article IV of the Agreement shall be deleted and replaced with the following:

"2.   Each Party's specific objectives for emissions limitations or reductions are set forth in annexes to this Agreement as follows:

     (a)   Specific objectives for sulphur dioxide and nitrogen oxides, which will reduce transboundary flows of these acidic deposition precursors, are set forth in Annex 1.

     (b)   Specific objectives for volatile organic compounds and nitrogen oxides, which will reduce transboundary flows of tropospheric ozone and these precursors, thereby helping both countries attain their respective air quality goals over time, are set forth in Annex 3.

Specific objectives for such other air pollutants as the Parties agree to address should take into account, as appropriate, the activities undertaken pursuant to Article VI."

ARTICLE III

1.   Article VII of the Agreement shall be amended by adding a new paragraph 2 as follows:

"2.   The Parties agree to provide, subject to their respective laws and regulations, public access to the databases containing the emissions and monitoring data reported or shared under this Agreement."

2.   Paragraph 2 of Article VII of the Agreement shall be renumbered paragraph 3.

ARTICLE IV

Paragraph 3 of Annex 2 of the Agreement shall be amended as follows:

1.   Subparagraph (e) shall be deleted and replaced with the following:

"(e)   their analysis of and experience with market-based mechanisms, including emissions trading. Specifically, through the Air Quality Committee established under Article VII of the Agreement, the Parties shall exchange information, within 12 months of entry into force of the Protocol amending this Agreement and as may be agreed upon thereafter, about the structure, components, public information and disclosure requirements (including verification), environmental impacts, and administration of their respective NO_x and SO_2 emissions trading programs including emissions monitoring, reporting and tracking of transfers of authority to emit;"
