November 18th, 1932.

Sir Arthur Currie,
Principal,
McGill University,
Montreal.

Dear Mr. Principal,

(1) I desire to let you know that, after waiting for a fortnight to hear from the City Hall, I have just received a letter to say that the matter is to be considered by the Legal Department for their interpretation of the By-Law as to the possibility of allowing premises in Girouard Avenue to be used for the purpose of a school of music. I will let you know their answer as soon as I receive it.

(2) With reference to Messrs. Lindsay and the piano question. I gave Lindsay's permission to report on the state of three pianos in the Conservatorium as, in the event of our opening a department in Notre Dame de Grace, I thought it might be advisable to send our oldest pianos there, after they have been renovated, and instal others here on hire from Lindsay's. They have sent me their estimate for re-conditioning. We have, however, our regular piano tuner and repairer who has been with us for thirty years -- I believe when piano instruction took place in the R. V. C. before the existence of the Conservatorium. He is an excellent workman and moderate in his charges, and I see no reason why he should be deprived of work which he has always done. We have never employed Lindsay's to tune or repair pianos. Apart from supplying pianos they have had no business dealings with us.

Yours sincerely,

Joseph Clarke

DEAN
FACULTY OF MUSIC
