MONTREAL, Feb. 7th., 1922.

Dear Sir Arthur:-

I am sorry you are having the trouble to answer the letters referred to. They are coming to me literally by hundreds, all claiming to have cures. My Secretary is acknowledging by postal with intimation that they will hear further in due course. In the meantime, consideration is being given to the treatment these letters should have.

If you can send the letters to me I will instruct so that an acknowledgment goes forward.

Yours sincerely,

A. Halstam
