WANTS MONEY FOR **DEEPENING RIVERS**

Perth Asks Kent to Join Agitation for Diversion of Ten Million Grant.

(Special to The Toronto World)
CHATHAM, Jan. 28.—An aged man named W. H. Waring, a resident of Wallaceburg, dropped dead on the street near Harrison Hall this afternoon. Waring was being brought into Chatham to be placed in the county house of refuge. He was in charge of Chief of Police Couzens of Wallaceburg, and was taken to Dr. C. R. Charteris' office to get the papers which would admit him to the institution. Chief Couzens and the aged man had just left Dr. Charteris' office when suddenly Waring without any warning fell over dead.

At the meeting of the county council today a request was received from the

At the meeting of the county council today a request was received from the County of Perth asking Kent to join in a movement to nave the ten-million-dollar grant that the Borden government made to agriculture utilized in deepening the streams and rivers of the province. This work is usually done under the drainage laws. A motion was introduced to petition the legislature to arrange for making the counties of Elgin, Middlesex, Oxford. Perth, and Kent and the cities therein Perth, and Kent and the cities therei located proportionately responsible for taking care of the flood waters of the Thames River till they reached the outlet in the lake.

The annual meeting of the Dover Municipal Telephone Company was held yesterday when the reports showed the company to be in good shape. The company is considering a proposal to purchase the two Bell telephone lines that are run thru the township to add to its system. The deal will likely go thru in a few days.

City Treasurer R. G. Fleming disposed of two city debentures today to local citizens. The amount received from the sale aggregated \$2,100. Mr. Fleming stated this morning that he was rapidly getting the debentures of his hands by selling them to city treasures. ir vestors.

John Banks and David Grant, the local youths who are at present confined to the jail awaiting trial on the charge of highway robbery, will be straigned tomorrow on another charge of assault and robbery on a Tilbury

TAKES HALF THE COST TO CARRY TO CONSUMER

President of Corn Growers' Association Points Out Expenses in Marketing Produce.

PETROLEA, Ont. Jan. 28.—(Can. Estates, Trust and Agency Accounts: Funds and Investments Press.)—Lambton County's first corn show was opened in Victoria Hall this afternoon. The corn growers were welcomed by Charles Fleck of Corunna, president of the Corn Growers' Association, and Mayor R. Stirrett.

Prof. C. A. Zavitz, head of the experimental work at the O.A.C., gave an address on corn and alfalfa, and L. D. Handkinson of Aylmer, who has

corn in Elgin, gave an interesting account of his work.

President Fleck referred to the present high cost of living and ascribed it partly to the fact that half the cost as Lambton was concerned, was hydro

PORT HURON STORES WILL **QUIT SARNIA ADVERTISING**

Action Said to Be Due to Operations of Woman Customs Inspector at Border.

(Special to The Toronto World) SARNIA, Jan. 28.—The home David Devlin, in the south part of the town, was entirely destroyed by fire at ar early hour this morning. The man had gone to bed, leaving the fire going pretty strongly. Devlin was awakened by flames which were burning up the mattress on which he was sleeping, and he escaped thru the front door with only a burn on his neck and on his hand. The furniture is a total loss.

The woman customs inspector who was recently sent here from Ottawa to stop smuggling from Port Huron into Canada, has succeeded in her mission to such an extent that the Port Huron stores have decided to quit advertising in the Sarnia papers. During the past week the inspector and put the women to a severe search. The local papers have been carrying considerable amount of Port Huron

ESKIMOS SKILFUL IN THE HUNTING OF SEALS

Fine Art Exhibited in Handling Harpoon and Line and in "Playing" the Catch.

The Eskimo is said to be a skilful huntsman, and especially in the cap-turing of seals does he display considerable ingenuity. Whenever the seal hunter has gone to the trouble of splicing a fine spear handle he does not wish to break it, so the point, explains a writer in The Southern Workman, is put on with a "toggle" or join When a seal or walrus is harpooned, the sudden struggle of the anima does not break the spear, but merely unjoints the point, and the more the asimal struggles the more the point turns crosswise in the wound and the firmer the barbs take hold. But the animal cannot escape, for with thongs of skin the point is connected with the spear shaft. The animal merely swims away or dives deep into the sea, car-

away or dives deep into the sea, carrying with him the spear.

The long leather thong which is attached to it uncoils from the deck of the kyack and plays out. It carries with it a drag like a kite, but does not pull hard enough to break the line. Even this drag is, made of skin stretched over a spliced framework.

When the line is all played out it is When the line is all played out it is seen to be attached to a float which is also carried on the deck of the boat. This is made of an inflated skin. It has plugs and attachments cleverly

has plugs and attachments cleverly carved from ivory, for wood is far too precious to be used in this land of ivory so far from the forests.

The float serves as a buoy so that the Eskimo can follow the animal and find it after it gives up its struggle and dies. Then, too, the float keeps the catch from sinking and being less in the ocean's deaths.

in the ocean's depths.

National Trust Company, Limited

Annual Meeting of Shareholders

The Sixteenth Annual General Meeting of the Shareholders of the National Trust Company, Limited, was held in the Company's Board Room, 20 King street east, Toronto, on Wednesday, the 28th day of January, 1914.

The President, Mr. J. W. Flavelle, was in the chair, and Mr. W. E. Rundle, the General Manager, acted as Secretary to the meeting.

Before the proceedings of the meeting were begun the Vice-President, Mr. Z. A. Lash, referred to the death of the late Hon. Geo. A. Cox and his connection with the Company as follows:—

"Before the formal business of the meeting is proceeded with, my colleagues on the Board and myself think it is fitting that some allusion should be made to the part which the late Hon. George A. Cox took in the formation of this Company, which stands as an evidence of his business sagacity and his confidence in the onward growth and development of our country."

After dealing with this matter, Mr. Lash continued:—

"Mr. Cox became a member of our Board and remained with us till his death. He sought no other position than that of Director, but as Director he at all times gave the Company the benefit of his superior business judgment and long experience. He gave to the Company loyal and hearty support. He watched its growth with keen interest, and he was not disappointed. His confidence in its stability and efficiency was unbounded, and he has left for us the clearest evidence of this in his appointment of the Company as an Executor of his Will.

"The shareholders will miss his genial and familiar presence at their meetings, and their sympathy for his family in their great loss is, I am sure, sincere."

The President also referred to the late Mr. Cox in highly appreciative,

The President also referred to the late Mr. Cox in highly appreciative,

terms.

The Secretary read the Sixteenth Annual Report of the Directors and the Financial Statement, as follows:—

The Directors have pleasure in submitting herewith their Sixteenth Annual Report, showing Statement of the Assets and Liabilifies of the Company as at 31st December, 1913, together with the Profit and Loss Account for the year ending on that date.

The net profits, after providing for all cost of Management, Salaries, Advertising, Auditors' Fees and other expenses, amount, to \$252,022.76. To this must be added the sum of \$14,765.65 brought forward from 1912, making the total at credit of Profit and Loss Account \$266,768.41, which has been appropriated as follows:—

(a) To pay four quarterly dividends at the rate of ten per cent. per annum, amounting to \$150,000.00.

(b) To increase Reserve Fund, \$100,000.00.

(c) To carry forward in Profit and Loss Account, \$16,788.41.

The Reserve Fund now stands at \$1,500,000.00.

Financial Statement, 31st December, 1913

Respectfully submitted;

J. W. FLAVELLE.

The President seid :

In moving the adoption of the Report, I have pleasure in being able to present to you the record of another year of substantial progress. Before asking you to vote for its adoption the General Manager, Mr. Rundle, will address you, and what he will have to say will indicate that the business of the Company during the year has been satisfactory in every respect.

The death of the late Senator Cox, and his connection with the Company, to which Mr. Lash has so fittingly referred, coming, as it does at the termination of the sixteenth year of the Company's operations, leads me to recall the ideas which were in the minds of the founders of the Company, of whom the late Senator Cox was the chief.

At the time of the incorporation of the Company the Trust Company idea had not yet become general. In recent years, however, the number of Trust Companies has steadily grown, and with this growth in number there has been a corresponding expansion in the scope of the operations in which Trust Companies engage, until to-day their position is one of strength and importance.

Trust Companies engage, until to-day their position is one of strength and importance.

On September 30, 1898, immediately after the issue of Letters Patent, the Executive Committee was instructed by the Board to consider the best method of commencing the business of the Company. From a reading of their report two things are at once apparent: a determination to maintain a sound conservative position and a recognition of the fact that the Company's profits, over and above the return from the investment of its own funds, were to come solely from fees and remuneration in connection with trust business. As in saying that the wise policy indicated by the first Executive Committee has been faithfully observed. From an intimate personal knowledge of the workings of the Company in the many trusteeships which it has discharged I am able to assure you that the officers have had constantly before them the fiduciary position which a trustee occupies, and have faithfully carried out the several trusts committed to the Company's care. An examination of our the several trusts committed to the Company's care. An examination of our own capital.

Ella Wheeler Wilcox Describes the "Stone Boat" Vehicles

Propelled by Ox Power.

Writing of a trip to Algiers by way of Madeira, Ella Wheeler Wilcox, in The National Magazine, says:

"Waiting at the dock to convey the passengers to the town of Funchal, were as a child on the farm in Wisconsin, with a sort of phaeton top, and harnessed to each stone boat carriage was a pair of robust oxen. Over the cobblestone streets for the company in the many trusteeships which it has discharged I am the dock to convey the passengers to the town of Funchal, were as a child on the farm in Wisconsin, with a sort of phaeton top, and harnessed to each stone boat carriage was a pair of robust oxen. Over the cobblestone streets for the company in the many trusteeships which it has discharged I am the dock to convey the passengers to the town of Funchal, were sembled the old stone boats I had seen as a child

It is becoming more apparent from day to day that there is a general It is becoming more apparent from day to day that there is a general feeling throughout the country that the Trust Company is the safest custodian of trust funds and estates. With the rapid increase of wealth and a glowing complexity of business relazionships the demand for the services of Trust Companies will grow with great rapidity. Your Directors have every confidence that a continuance of the policy which I have outlined will insure to this Company an important place in this development.

Mr. Robert Kilgour, who has rendered valuable services as a Director of the Company since its organization, has, owing to ill-health, asked that his name be omitted from the ballot this year, and the Directors have rejuctantly agreed to do so.

of the Company since its organization, has, owing to intectif, asked this his name be omitted from the ballot this year, and the Directors have rejuctantly agreed to do so.

Your Directors deeply regret having to record the death of the Hon. Mr. Your Directors of the Company, and also the death of Mr. Arthur Stewart, member of the Company, and also the death of Mr. Arthur Stewart, member of the Company's Advisory Board at Winnipeg.

Mr. H. C. Cox has been elected to fill the vacancy caused by the death of his father, the late Hon. Mr. Cox, and Mr. F. H. Walker of Walkerville to fill that caused by the death of Mr. Watt.

On behalf of the Directors I take this opportunity of expressing appreciation of the service rendered to the Company by the Resident Directors at Montreal and the Advisory Board at Winnipeg.

The General Manager spoke as follows:—

The Report to which you have just listened will, I feel sure, be gratifying. It emphasizes in a marked degree the continued growth and prosperity of the Company, and I am pleased to say that the several offices have all contributed to this result.

The net earnings for the year 1918 amounted to \$252,022.76, or 16.80 per cent. upon the capital, an increase of \$0.080.24 over the preceding year.

Out of these earnings dividends at the rate of ten per cent. amounting that the in any other paper.

equal to the paid-up capital, and the balance credited to open Profit and Loss Account.

With a paid-up capital of \$1,500,000, and a Reserve of the same amount, not only are the Shareholders placed in a strong position, but the clients of the Company are also afforded substantial security and protection in any business they entrust to its care.

The Assets under the Company's administration amount to \$44,515.502.17, an increase of \$5,916,734.11 over the figures of a year ago. This increase is almost entirely represented by new estates, trusts and agencies which have been received for administration during the year, and, I submit, evidences in a striking manner the confidence which the public reposes in the Company. A further evidence of this confidence is sho-n by the fact that the officers are continually receiving advice of the appointment of the Company as Executor and Trustee under Will.

It will be noted that the Assets held on Capital and Guaranteed Account are mainly first mortgages upon the security of real estate, 76 per cent. of the

are continually receiving advice of the appointment of the Company as Executor and Trustee under Will.

It will be noted that the Assets held on Capital and Guaranteed Account are mainly first mortgages upon the security of real estate, 76 per cent. of the total being invested in this manner. Those who invest their money in mortgages have been gratified to know that while during the recent period of tight money, stocks, bonds and securities of various descriptions have fallen very considerably in market value, their mortgages, if wisely placed, have not fallen. Five per cent. of the Assets consist of bonds, debentures and stocks. These are all high-grade securities, and at the end of the year showed a market value substantially in excess of that at which they were taken into the Company's belance sheet. The Real Estate stands approximately at the same amount as it did a year ago, and consists entirely of property acquired by the Company for the use of its own offices. The remaining Assets, amounting to \$1,348,733.44, are in the form of Call Loans and Cash.

The Company now holds for itself and clients Real Estate Mortgages amounting in the aggregate to over \$15,700,000. Interest collections on these mortgages continue to be well met. The Shareholders will be glad to learn that we have only one property on hand in connection with this large volume of mortgage loan business. Our claim against that property is \$1,200, and it is perfectly good for the amount. It will also be pleasing to the Shareholders to know that we have yet to make a loss on mortgage loans.

The policy of the Directors in investing largely in farm mortgages will give the Company's Shareholders and clients an added interest in a remark recently made by Sir George Paish, Editor of The London, England, Statist, with respect to the values of farm lands in Canada. On his return from a trip through the Western Provinces he gave it as his opinion that "farm lands in Canada are not at inflated prices."

In closing, I desire to acknowledge the valuable
