

NEWS OF SPECIAL INTEREST TO WOMEN

CHIC COSTUMES IN TAILORED DESIGNS Features Are Stunning Corduroy Skirt and Silk Waist. WHITE SPORTS COAT Of Novelty Cloth and Smart Little Hat to Complete Outfit.

For the holiday trip on a sunny afternoon nothing is quite as suitable and certainly no more attractive than a smart little white cord skirt in one of the many exclusive designs, and one of the stunning sports coats to wear on the boat or while traveling by motor. The velvet cord skirt is prime favorite just now, and will be chosen by the discriminating devotee, for not only does it wash with the utmost satisfaction, but it gives a decidedly distinctive aspect to the entire costume. The cord skirt adapts splendidly to the numerous pleated designs and looks equally well in the plain full circular cuts. White kid belts with smart tabs and pearl or novelty buttons adorn the most exclusive models. Popular Midway Waist. The waist may be one of the very popular midday type, or for the girl who prefers a more tailored appearance, there is a host of chic designs in crepe de chine, silks, or organdie. Collars which may be rolled to a becoming "V", introduce contrasting stripe materials, while rows of tiny buttons which extend from wrist to elbow are favored sleeve ornaments. Vest portions in fine nets and imitation shirt front designs are very modish. Very stunning sporting length coats in any of the new white novelty cloths may be chosen. Huge pockets—and plenty of them—broad belts, placed at the natural waistline, and generous rolling collars which may be fastened snugly up to the chin, are notes of the most fashionable models. To complete this attractive outfit are charming little white linen or figured crepe brimmed hats.

SOLD LIQUOR WITHOUT LICENSE Special to The Toronto World. BELLEVILLE, June 27.—Roy Catherwood of Toronto, a news agent on a G.T.R. passenger train, was yesterday before Magistrate Masson of this city convicted of selling liquor without a license, and a fine of \$300 and costs was imposed. SUNDAY EDITIONS STILL DISCUSSED

Rev. D. W. Snider Preached a Sermon on The World.

WILL FIGHT THE ISSUE Lord's Day Alliance Claims Backing of Federal Sunday Law.

"Sunday papers are the next greatest curse to the liquor traffic in the United States," said Rev. D. W. Snider, who spoke at the High Park Methodist Church last night, soliciting funds for the Lord's Day Alliance, and in endeavoring to draw a parallel said: "The war has been on now nearly a year, and three weeks after it started a newspaper in Toronto got out a Sunday edition, and you all remember that only a few weeks ago another Sunday edition came out. We flatter ourselves that we were able to bring them into court and have them fined."

"Shortly after the war broke out, the Lord's Day Alliance notified the police departments throughout the Dominion and the publishers of newspapers of the law governing the publishing of papers on Sunday. The papers that were published in Toronto were punished for financial gain, and worked on the sympathies of the people."

The Lord's Day Alliance has been successful in stopping Sunday excursions on the local railways, and, although \$1000 was paid for the services of a boat to be used for excursion purposes last Sunday, we were able to suppress it."

"Sunday newspapers were first published during the civil war, when bulletins were posted; then papers came out, and although there has been an attempt to start a Sunday-edition paper here, there is a federal law that gives us protection, but the Lord's Day Alliance will fight the issue to the end," he concluded.

Will Carry Thousands Across the Lake. Dominion Day plans for the entertainment of Toronto's holiday crowds are already well under way at the C. S. L. docks. It is expected that the six sailings of the Niagara boats will be well filled with happy and hungry crowds, making heavy demands on the very excellent dining and buffet lunch service with which each boat is supplied. Low fares to the Falls and all connecting points, of course, will be in effect.

Hamilton and Toronto people will, as usual, on July 1, visit freely back and forth, and the C. S. L. will be ready with two extra boats, making six trips from each city on the holiday. The round trip fare is 75c.

The old favorite, to the 1000 islands, the holiday among the islands, the comfortable sail on the lake, the comfortable night aboard, and the E. and O. cuisine, always attract a goodly number of Toronto water fans. The fare—\$2.50—includes round trip among the islands, and is good going Wednesday at 3 p.m., and returning at 7 a.m. Friday, in lots of time for business.

AEROPLANE DECIDING FACTOR

Land Manoeuvres Can No Longer Be Cloaked With Secrecy—Strength, Not Strategy, the Test. Strategy in the massing and moving of troops for quick assault or swift silent retreat has been made impossible by reason of the aeroplane, which day and night keeps vigil over the battle line more than 350 miles in length. To withdraw any force is to invite immediate attack upon that part of the weakened line, to mass a heavy force is to indicate the intention to attack and the aeroplane speeds back to carry the news.

Thus the struggle resolves itself into a veritable hand-to-hand grapple and a pound of heavy artillery—a test of human strength, numbers and fitness. It is noteworthy that the German baster has scarcely advanced a yard in months while the Union Jack has steadily been forced ahead at many points, and aeroplanes with the emblem of our country are performing prodigies of valor every hour.

The Union Jack offered to readers of the "Canadian" a performance carried high above the enemy's lines by the craft of the Royal Aerial fleet. It is full-sized, fast-colored bunting of fine strong quality, completely equipped with brass-ferule jointed pole, ball, halyard and window socket all ready to hang from the house front of loyal citizens. There's no red tape or bother in securing it. Just clip the coupon from the announcement appearing on another page of this issue, present at The World office, 40 West Richmond street, Toronto, and 15 East Main street, Hamilton, and the outfit is yours.

STUDENTS ARE WAITING FOR OUTLINE OF WORK Arts Calendar Long Deferred, But Will Be Issued Within a Week. Although promised over a week ago, the university calendar has not yet made its appearance, and university officials are not certain of the date at which the arts publication will be issued. Students have been waiting for the last two months for the outline of the work which they will take during the next session. Many of the students were figuring on the opportunity to do a considerable portion of the work of the summer in preparation for the opening of the term in the fall.

Ordinarily the calendar is issued before the close of the term in May, but this year, on account of the disarrangement of the work, it was found impossible to do this, and promises were given out from time to time that the calendar would not be longer than a week. The officials of the university press mournfully announced that the copy in their hands, the issue will not be delayed longer than a few days.

CLAIMS TO BE INVENTOR OF SMOKELESS POWDER Toronto Man Will Submit Invention to Minister of Militia. W. A. Brodie, 5 Admiral road, a Toronto man, claims to be the inventor of a smokeless and noiseless powder. He has made thorough tests of the powder and has found it to be practicable for almost any distance. New York capitalists are greatly interested in this invention, and have been endeavoring to secure an interest in the company now under organization.

Mr. Brodie intends to go to Ottawa and submit his invention to the minister of militia there. That this invention is being taken seriously is shown by the fact that the inventor has been constantly watched and shadowed during the past two weeks. He has not reported this incident to the police authorities, but intends to do so if the surveillance continues.

MANY CROSSED LAKE. Traffic Estimated at Ten Thousand Sailors on Steamers Sunday. Taking advantage of the first opportunity of the season to enjoy all the late trip to Niagara, Lewiston and Hamilton, a number of Toronto people, estimated by a steamship official as at least 10,000, crossed the lake yesterday to escape the city's heat. Each boat that left Toronto at the close of the day, in addition to the large number who crossed the bay to Hamilton's Point and Centre Island, carried a large number of Toronto as well as each boat that docked at Toronto wharves was loaded with passengers.

More people took advantage of the lake breezes than any other day this season, according to the statement of the steamship officials. Ideal Summer Route to Western Canada is Over Great Lakes. When you use the Grand Trunk lake route between eastern and western Canada, more than five hundred miles of your journey is covered by steamship—a magnificent sail across Lakes Huron and Superior. No better summer trip could be planned. Full service was inaugurated on June 19, with the sailing of the S. S. Noronic, the flagship of the Northern Navigation Company's fleet, from Sarnia, Ont., for Fort William and other points. Throughout the season there will be three sailings each week, viz., Mondays, Wednesdays and Saturdays. All particulars from Grand Trunk agents.

More Muscle for Less Money

Good muscle and good brain are a combination that will beat the world. There is more digestible, brain-making, muscle-building material in

SHREDDED WHEAT

than in beef-steak or eggs. Wise old Mother Nature made the whole wheat the most perfect food given to man, and along came an American genius and made it digestible by steam-cooking, shredding and baking it. The tasty, delicious crispness of the baked wheat pleases the palate and delights the stomach after the heavy foods of winter. Wholesome, healthful, nourishing. Delicious for breakfast with milk or cream, or for any meal with berries or fruits.
