MR. ROGERS' ANNOUNCEMENT.

The announcement by Hon. Robert Rogers that the Dominion Government has acquired a site and will at once construct and operate a terminal grain elevator at the head of the lakes, with capacity of 3,000,000 bushels, will meet the charge made by the Liberals of Saskatchewan against Mr. Borden of

breach of faith upon the question involved. Their charge that the prime minister intended to repudiate his pledge to the western farmers respecting government ownership and operation of terminal grain elevators, received support from what appeared to be the inactivity of the government up to the time of Mr. Rogers' announcement from Mr. Foster's proposed establishment of "sample markets," and from Mr. Roblin's advice to Mr. Borden, publicly given from his place in the legislature of Manitoba, to have nothing to

do with government-owned elevators. Mr. Borden's campaign in the west last year was a campaign in itself of public ownership. He set up the great national advantages which would flow from government ownership and operation of national abattoirs, of the Hudson Bay Railway, of terminal grain elevators, against the problema:ioal advantages which might flow from the ratification by Canada of the Taft-Laurier reciprocity agreement. He came to power no less pledged to support public ownership than

measure and without delay, should be delivered by Hon. Robert Rogers, may is now being used to reduce the duties would be only too glad to agree to the of national figure and popularity must made. seem at first blush peculiar, because
Mr. Rogers was associated in the public
mind with the Roblin government, and
that government by selling the railways owned by the province to the
Canadian Northern, by its partisan administration of the province and by its reckless and cynical
system, and by its reckless and cynical
system, and by its reckless and cynical
