### PREFERENCE NEAR FOR DOMINIONS

Importers Notified That Australian and African Wines Will Pay Lower Duty.

London, March 6.—According to The Morning Post, Great Britain is taking the first step towards imperial preference by making provision for the granting of preferential treatment to the Dominions in regard to imports which pay a duty under the existing schedule. In particular the excise department is notifying wine merchants and importers that a lower duty is likely in the near future to be imposed on Australian and South African wines, so that they can make arrangements accordingly. Discussing the present state of British commerce and manufactures and measures necessary for their support and security, the same paper doubts efficacy of the license system and contends that British trade cannot recover if it has to be carried on under unequal competition from other countries. It welcomes signs of a reciprocity movement to the measure of preference given by the dominions, and argues that the license system on the one side, and a one-sided preference on the other are inadequate safeguards for home and colonial markets. Concluding, The Post says: "Soon-

### BRITISH AT COLOGNE TO HAVE DAILY PAPER

Cologne, March 6.—Arrangements are now fairly complete for the army of occupation to have a daily paper of its own. The Cologne Post will be the name of the new journal, which will concern itself with providing British troops here with all the latest news, as well as the doings of the various units composing the army of the Rhine. The editorial staff has already been selected; the printing and publishing will probably be done from the office of one of the most important local papers, namely The Koelnische Volks-Zeitung, which uses a font of type more or less resembling English. The new journal will be a four-page affair.

### SITUATION IN OMSK STEADILY IMPROVING

Washington, March 6.—Advises received today by the Russian embassy from the ministry of foreign affairs of the provisional government at Omsk, said the military and economic situations in Siberia as far west as Ufa, were steadily improving. It was said that the government with the aid of the Zemstvos and municipalities, was firmly counteracting the ideas of unimportant conservative groups.

### LICENSE NOT AFFECTED TRADE WITH DOMINIONS

London, March 6.—Replying to a question, Lord Somerleyton, speaking in the house of lords on behalf of the board of trade, said the license issued during the current year had not operated disadvantageously to the trade of the dominions. The government earnestly desired to give the dominions the utmost possible market for their exports so as to foster trade within the empire for those commodities which each part was best fitted to produce.

A conference between representatives of the Canadian mission and the government was held recently, he said, and at it, the views of Canada were fully stated and considered. It was hoped that the conference would produce good results to the mother country and Canada.

### DELEGATION PROTESTS RACE TRACK BETTING

Ottawa, March 6.—A delegation from the social service council of Canada is expected in Ottawa tomorrow to protest against discontinuance of the restrictions on race track betting. By an order-in-council passed under the war measures act, betting was prohibited during the war period. As the war measures act will itself expire on the conclusion of peace, however, the order-in-council will cease to be valid, unless continued by further legislation.

### VATICAN USES WIRELESS FOR THE FIRST TIME

Sends Message to Lenine Regarding the Reported Arrest of Aged Archbishop.

Rome, March 6.—The Vatican, for the first time in history, has used the wireless telegraph in international relations. A report recently told Pope Benedict that the Bolsheviks had imprisoned Monsignor De Ropp, archbishop of Mohilev, who resides in Petrograd and was keeping him as a hostage.

Considering the advanced age and infirmities of Mon. De Ropp, and that his imprisonment would virtually mean death, the pontiff ordered that everything be done to obtain his release. Cardinal Gasparri, papal secretary of state, after consultation with the Russian minister to the Vatican, decided to send a wireless despatch addressed to "Lenine, Moscow," in which the cardinal expressed the regret of Pope Benedict over the arrest of the prelate and urging his liberation, because of his ill-health and age.

Four days afterwards, Lenine, the Bolshevik premier, answered by wireless from Moscow, saying he had made immediate inquiries and had been informed that the De Ropp arrested was not the archbishop, but the archbishop's nephew, 22 years old, who was accused of intrigue against the Bolshevik government. The de-

### LETTER FROM CURRIE ANSWER TO HUGHES

Victoria, B.C., March 6.—The statement of Sir Sam Hughes in the house of commons Tuesday, in which he complained of the taking of Mons four hours before the cessation of hostilities and characterized it as a needless sacrifice of Canadian lives is by a coincidence answered in a letter received here yesterday from Lieut. General Sir Arthur Currie. In this Sir Arthur says: "We regard it as a special privilege that we were able to drive the Boches from the historic city of Mons before we knew the armistice was going into effect. I received the news of the taking of Mons before I received the wire from general headquarters telling me at 11 o'clock hostilities would cease."

### GERMAN CHANCELLOR LIKELY TO RESIGN

Copenhagen, March 6.—The impending resignation of Philipp Scheidemann as German chancellor is indicated in despatches received here today and dated Wednesday in Berlin. President Ebert is said to consider that the withdrawal of Scheidemann from the cabinet is necessary in view of political events. The chancellor was expected to tender his resignation Thursday.

### Midlet Principality to Have Representative at Conference

Berne, March 6.—The smallest country to have a representative in Paris for the peace conference, with the exception of Monaco, will be the principality of Liechtenstein, situated on the Swiss eastern frontier. It has an area of sixty-five square miles and only 10,000 inhabitants. Prince Johann of Liechtenstein has appointed Professor Beck, a young Swiss of Reichenau, as the representative of the principality at Paris.

### UPHOLDS CONDUCT CANADIAN COMMAND

Col. Peck, V.C., M.P., Does Not Think There Was Wanton Loss of Life.

Ottawa, March 6.—Col. C. W. Peck, V.C., M.P., who has just returned from overseas, does not share with Sir Sam Hughes in his criticism of the Canadian command. Asked with regard to General Hughes' assertions, Col. Peck stated: "I certainly cannot agree with what General Hughes says about wanton loss of life owing to the conduct of the Canadian command. I am very much pained to see such a matter brought up at such a time, when so many people are in distress over the loss of dear ones."

"The battle of Cambrai, which General Hughes alluded to critically, was simply part of a vast action over a whole front under orders from general headquarters and as a matter of fact other corps besides ours were engaged. I was there."

"As to the action at Mons, I never heard of any wanton loss of life or understood that the total casualties were very small."

### Von Hindenburg is Pessimistic On Eastern Front Situation

Berlin, March 6.—The military situation on the eastern front is painted in blackest colors by Field Marshal von Hindenburg in an interview printed here. The field marshal declares that unless the population generally rallies to the defense of their homes and families, it will be impossible to ward off attacks of Bolshevik forces.

"The expectation of the Poles and the entente that the Poles will succeed in the German sphere of influence in the east will be blasted," he says. "I know the Poles, and the country in the east will belong to us or to the Bolsheviks."
