

were sent to their homes today to remain off duty until the rioting had ceased. Patrol wagons were utilized to convey the negro employees to their homes for their protection and to assist in the street car strikes. All street repair work was stopped today because about one half of the employees are negroes and street cleaners also were laid off.

The department of public works closed nine public playgrounds in neighborhoods where whites and negroes are the patrons. The department also deputized 400 special policemen to help guard public property and it was planned to use 800 additional guards tomorrow if necessary.

Many Scattered Fights. Filtering of negroes into the Loop from the "bell" led to a number of fights late today, in which several persons were injured. One negro, escaped a mob by running into one of the largest stores on State street, talking the elevator to the eighth floor and clambering down a fire escape in the alley. A white man was wounded in the leg when a fire started in a crowd of whites at Michigan avenue and Thirteenth street, while a black was beaten by a crowd at Harrison and State streets.

Several fights took place at State and Vanburn streets. At least three negroes were stabbed and beaten at this point during the early evening. Near this intersection a colored man who said he had served three years in the Canadian army overseas, and had been both wounded and gassed, was severely wounded.

Threaten to Apply Torch. The menace of fire was added to an already serious situation when Fire Marshal O'Connor reported that he had been informed negroes were threatening to apply the torch to homes of whites on the south side. The marshal said every available fireman was being held in reserve to meet such an emergency.

A repetition of the desperate fighting in the county jail during the day and negro prisoners during the day was made impossible by locking the blacks in their cells and placing a machine gun in position to rake both the cell doors and the main entrance to the jail interior. Sheriff O'Connor said he was ready to meet any attempt to storm the jail from the outside.

When the mob surrounded the hospital an attempt to enter the building was beaten off by police.

The body of a negro who had been shot to death and burned was found tonight in the street west of the district when the police responded to a riot call. He had been stabbed also, the gasoline poured on his body and set fire.

Other witnesses observed similar scenes in writing the names or names of possible suspects as they passed. While John O'Neill and R. T. Edwards, the recent fire were caused by residents of the district. One declared with conviction his belief that the burning of the fire was caused by a person named "A Neighbor" who was seen on the morning of May 24 because he had made a strong anti-Hun speech at the Dundas presentation party of the previous night. Edwards expressed a strong opinion that if the guard had been certain of the districts the fire bug would long ago have been apprehended.

Farmers Guards Banned. Various witnesses today certified that the farmers were guarding their barns as well as possible and all declared that they had as yet only a suspicion to go upon in suggesting the possible identity of the pyromaniac. The anonymous letter written by Mr. Levine and evidence of trails leading from the farm yard of a neighbor are the only direct clues thus far presented.

RATEPAYERS MEET AT MT. PLEASANT

Delay Re Tenders Causes Naming of City Hall Deputation.

Mount Pleasant ratepayers held another rally last night, when a good big crowd gathered at Hodgson school to devise ways and means for pushing ahead the long-promised, long-delayed line on that highway. It was a lively meeting, too, with some sharp exchanges, the participants calling it made a spade, accidentally, Aid. H. H. Ball showed up some of the inconsistencies of the men who are talking secession from the city.

There was some criticism of the delay on the part of Commissioner Harris in getting along with the tenders for the work on the Mount Pleasant line. Fred Bell charging that the plans and estimates ought to have been ready for submission before this. On motion of James O'Brien, a committee was named to go down to the city hall and try and find out what was holding up the work.

High Taxes. George Hodgson spoke at some length on the high assessment and high taxes in the old municipality of North Toronto, and reference was made to the reduction obtained by Aid. H. H. Ball on his property on Merton and Yonge. A German came back with the clear-cut statement of the big reduction was obtained before the judge, and in open court, an appeal open to every man who chose to avail himself of it. He charged that a good deal of the high assessment in the northern part of the city was due to real estate men, who had given options at unheard-of prices as high as \$400 a foot, and which in no sense represented the value of the property. The city in turn had followed in the train, and the outcome was shown in retrospective.

In answer to Mr. Hodgson, that the Mount Pleasant men were working at cross purposes with the North Toronto ratepayers, James O'Brien, in respect to transportation, James O'Brien said that they were satisfied that the committee was shown in retrospective. They did not want to do anything that would delay the consummation.

C. W. Benson, president of the local association, was in the chair.

NO WINE, NO WORK ON FRENCH LINER

Crew Refused to Sail Without Stipulated Quantity of Bordeaux. New York, July 29.—Substitution of an inferior sour wine for their stipulated ration of one quart of Bordeaux daily, precipitated a "no wine, no work" strike among the crew of the French liner Chicago, which was only ended when fourteen barrels of the desired vintage was brought alongside and the vessel arrived here from France today.

After the Chicago had steamed 30 miles down the Garonne River to Pauillac on July 17, members of the crew discovered something amiss with their daily ration. They immediately declared a "strike" and refused to handle the ship unless the wine was changed.

An officer was despatched to Bordeaux to notify the company of the situation, and soon afterwards a lighter with fourteen barrels aboard was brought alongside. The crew appointed a committee of six to determine whether the new consignment was satisfactory. Each barrel was sampled and approved. Then the ship sailed after a delay of 72 hours.
