Negotiations Will Be Resumed Re specting Spheres of Influence of Britain and Russia.

London, Oct 7.-The negotiations respecting the spheres of influence in Afghanistan pending between Great Britain and Russia when the Russo-Japanese war broke out will be resumed should Russia be willing, of which there seems to be no doubt. The Br.tish government is anxious that the questions which have caused uneasiness in the past should form the subject of friendly discussions between the diplomats of the two governments, Great Britain has already taken steps toward this end. An official of the Press that it was rather premature to

foreign office informed the Associated Press that it was rather premature to speak of negotiations, but he inumated that the government had taken the initiative in looking to a resumption of the exchange of views. The government had always hoped, the official added, for the negotiations to be resumed, and realized that the present was the most opportune time as the peoples of the two countries recognized that it was to their mutual benefit that the questions in dispute be amicably set-tied. The negotiations which are about to

be resumed have particular reference to Afghanistan, where each desires that the other give guarantees not to ex-tend its sphere of influence. Russia has shown a desire to reach an understanding by curbing the aggressive po cies of her border governors. This has created a good impression in Great Bri-Respecting the report that Great Bri-

tain is willing to recognize Russia's special privileges in South Turkey in return for Russian assurances of a non-aggressive policy on the Indian frontier, the Associated Press was given Some Picturesque and Ludicrous to understand that the question has not been discussed officially. It is possible, however, that Great Britain is waiting for such a suggestion to come from Russia when it might receive favorable consideration. Great Britain's policy in regard to Constantinople is dominated by consideration for the security of the highway to India. With the safety of India guaranteed by the Anglo-Japanese treaty, and an understanding with Russia, there would be no reason to fear the presence of Russia on the Bospho-rus. Great Britain has also to offer in
