

CIVIL ASSIZES ADJOURNED

Judge Meredith Disposed of Several Cases at Last Day's Sitting of Court.

POSTAL CLERK GIVEN SIX YEARS

Argument Concluded and Judgment Reserved in the Bicycle Case—Grand Jury's Presentation.

The Civil Assizes for the trial of jury cases were adjourned yesterday afternoon by Judge Meredith. Several cases were disposed of at the last day's session of the court.

William Newton, a young man, 25 years of age, was sued for \$3000 damages by Mrs. Rebecca Hewitt, whose daughter, Annie, it is alleged, he seduced in January, 1901. Newton was not in court, nor did he defend the case. The trial yesterday was simply to fix the damages. The jury gave Mrs. Hewitt \$2000 damages.

Kate Berry was a suitor against Michael Timlin, an Ontario County farmer, and his wife, Kate Timlin. She alleged that the couple had ill-used her child, knocking one of her eyes out. The defendants denied the charges. The case, however, did not come to trial because the parties settled it.

The case of the widow of Peter King against the Police Iron Works Company and Teamsters W. K. Colville & Co. was adjourned to the next court. The widow seeks \$5000 damages. Mr. King was killed at Police's May 14 last, by a heavy piece of machinery falling on him.

Joseph Tremble, the C.P.R. fireman who was hurt in a collision at Shaw Station, Nov. 8 last, sued the company for \$3000. The case was on the list, but was struck out because the parties failed to appear.

The G.T.R. seeks an injunction against W. H. Vallon and damages from him on account of a property dispute between the two, at Maple Street. The case goes to the Non-Jury Court.

Charitable Institutions Praised. The grand jury of the Criminal Sessions made their presentation to Judge McDougall yesterday. According to the jury City Commissioner Coatsworth should take steps to furnish a proper room for the grand jurors. His attention had been called to the necessity, but he has done nothing. The same may be principal of the pressmen's room, and the grand jury's room.

The grand jury also made a presentation to the city of Toronto, and every one was commended as to its management and efficiency. The 30 persons in the jail should not be allowed to remain, the report says. The trial of the late system is recommended for the Mercer Reformatory, and the shoe-making and carpenter shops of the admirable Victoria Industrial Home at Mimico should be improved so as to properly teach the boys those trades. Judge McDougall complimented the grand jurors upon their faithful and intelligent attention to their duties.

Charles A. Hendry Sentenced. Charles A. Hendry, who was arrested on Tuesday night at the instance of Detective Inspector James Henderson, pleaded guilty to the charge of stealing \$3 from a registered letter. There was another charge against Hendry of stealing a letter with \$17 in it on March 7, and the lowest sentence that could be imposed on the three charges was a term of six months in the Mercer Reformatory. Hendry was given 40 days in jail for stealing \$3 from a registered letter. Samuel Campbell of the Grand Union Hotel, Robert McInerney and Henry Elko pleaded guilty to stealing 15 brass caps from the water hydrants in the East End district. Kate Lavie, convicted of keeping an immoral house, was sent to the Mercer Reformatory for six months. Hattie Clark and Edward Lavie, frequenters, were given 40 and 60 days respectively.

Bicycle Suit Finished. In the Non-Jury Assize Court yesterday afternoon Mr. Justice Ferguson reserved judgment, after argument had been heard, in the breach of contract suit of L. C. Lashley against the Good Bicycle Company of Brantford, Ontario. The case was postponed indefinitely.

Perpetrator for 10-day to 10 a.m. last. Colliery v. Fairbank, a case of Canada Cycle and Motor Co. v. Wilson, Grierson v. Fine, Central Ontario v. Weddell. The wife of the late Dr. George W. Jackson of North Toronto was yesterday entered for probate. He left an estate worth \$19,049.43, of which \$10,400 in realty, to the widow and children. Michael Burns, who died last December, had \$200 in personalty which he willed to his wife and children. Application for administration was sought for in the estate of George Newton, barber, who left property worth \$400.

THE BRANTFORD MURDER. Sergt. Wallace and P. C. Donnelly Are in Charge.

Brantford, April 2.—If any progress has been made by the police authorities during the last three or four days in solving the Quirk murder mystery there are no signs of it on the surface. The impression is widespread in the city that the police are at a standstill, and may remain so for some time. The case is in the hands of Sergt. Wallace and P. C. Donnelly of the local police force. They have paid numerous visits to the Commercial Hotel, and have gone over the whole ground thoroughly. They have taken measurements of all distances which are at all likely to be of any use as evidence. They have also interviewed a number of the servants and boarders during the past few days.

Interest in the case is gradually lessening as the prospect of anything startling developing seems farther away. There may be, however, a few suspicions at the next session of the inquest, and the result of the autopsy, which will then be made known, is watched for, with great interest.

REMOVED LANDMARK. Richard Frazier, an Official Civil Engineer of Canada, Did It.

Seattle, Wash., April 2.—Advisers from Skagway, Alaska, say that Richard Frazier, an official civil engineer of the Canadian government and one of the most prominent civil engineers in Canada, has destroyed a Russian boundary monument. The monument was of stone, resting on a stone base, and there was a Russian inscription on it. It was situated 18 miles beyond the modern line on the Canadian side. In the presence of two American miners, Mr. Frazier ordered his men to destroy the monument. It was torn down by a Russian soldier and covered with sand and gravel. The affidavits of the witnesses have been taken and sent to the State Department.

IT IS AN OFFICER OF THE LAW OF HEALTH. When called in to attend a disturbance it searches out the blighting place of pain, and, like a gardener of the peace, lays down upon it and says: "I arrest you." Evidence is used, as the law of health imposes a sentence of perpetual banishment on pain, and Dr. Thomas' Electric Oil was originated to enforce that sentence.

State of Governor Simcoe. A model for the statue of the late Governor Simcoe has been made by W. S. Allward. When completed, the statue will stand in the Queen's Park Buildings southeast of the Parliament Buildings.

Wrote: "One bottle of Charles' Kidney Pills cured me of Asthma. I am sending for some for a friend and feel sure it will do the same for him. Your remedy will, because people only know about this grand remedy, there would be more, given of free to the world today." The same comes from far and near, and in any wonder we have such an enormous sale for this remedy. It cures, that is, the secret. Send the Charles' Kidney Pills to Griffiths & Macpherson, Ltd., Limited, 121 W. Church-st., Toronto, Ont.

Ontario Nickel Affected. The Director of the Bureau of Mines, T. W. Gibson, has no doubt that the Sudbury mines will continue in operation even if the report is true that the International Nickel Company, New York, has absorbed the Canadian and Ontario Nickel Companies. There might, Mr. Gibson thought, be some temporary cessation of the work while the exchange is being made, but nothing else. The deal that is said to have been put thru will affect only Ontario properties, and not the mines of New Caledonia. The formation of the syndicate calls for any action on the part of the government.

They Advertise Themselves—Immediately they were offered to the public, Parolee's Vegetable Pills became popular because of the good report, rather than themselves. That reputation has grown and they are now being sold in large quantities for use in attacks of dyspepsia and biliousness, complaints of the liver and bowels, rheumatism, fever, ague and the innumerable complications to which these ailments give rise.

Should Try Referendum. Copeland, April 2.—There is a probability that the Upper Danforth House may acquiesce in the sale of the realty in the breach of contract suit of L. C. Lashley against the Good Bicycle Company of Brantford, Ontario. The case was postponed indefinitely.

Perpetrator for 10-day to 10 a.m. last. Colliery v. Fairbank, a case of Canada Cycle and Motor Co. v. Wilson, Grierson v. Fine, Central Ontario v. Weddell. The wife of the late Dr. George W. Jackson of North Toronto was yesterday entered for probate. He left an estate worth \$19,049.43, of which \$10,400 in realty, to the widow and children. Michael Burns, who died last December, had \$200 in personalty which he willed to his wife and children. Application for administration was sought for in the estate of George Newton, barber, who left property worth \$400.

THE BRANTFORD MURDER. Sergt. Wallace and P. C. Donnelly Are in Charge.

Brantford, April 2.—If any progress has been made by the police authorities during the last three or four days in solving the Quirk murder mystery there are no signs of it on the surface. The impression is widespread in the city that the police are at a standstill, and may remain so for some time. The case is in the hands of Sergt. Wallace and P. C. Donnelly of the local police force. They have paid numerous visits to the Commercial Hotel, and have gone over the whole ground thoroughly. They have taken measurements of all distances which are at all likely to be of any use as evidence. They have also interviewed a number of the servants and boarders during the past few days.

Interest in the case is gradually lessening as the prospect of anything startling developing seems farther away. There may be, however, a few suspicions at the next session of the inquest, and the result of the autopsy, which will then be made known, is watched for, with great interest.

REMOVED LANDMARK. Richard Frazier, an Official Civil Engineer of Canada, Did It.

Seattle, Wash., April 2.—Advisers from Skagway, Alaska, say that Richard Frazier, an official civil engineer of the Canadian government and one of the most prominent civil engineers in Canada, has destroyed a Russian boundary monument. The monument was of stone, resting on a stone base, and there was a Russian inscription on it. It was situated 18 miles beyond the modern line on the Canadian side. In the presence of two American miners, Mr. Frazier ordered his men to destroy the monument. It was torn down by a Russian soldier and covered with sand and gravel. The affidavits of the witnesses have been taken and sent to the State Department.

State of Governor Simcoe. A model for the statue of the late Governor Simcoe has been made by W. S. Allward. When completed, the statue will stand in the Queen's Park Buildings southeast of the Parliament Buildings.

Wrote: "One bottle of Charles' Kidney Pills cured me of Asthma. I am sending for some for a friend and feel sure it will do the same for him. Your remedy will, because people only know about this grand remedy, there would be more, given of free to the world today." The same comes from far and near, and in any wonder we have such an enormous sale for this remedy. It cures, that is, the secret. Send the Charles' Kidney Pills to Griffiths & Macpherson, Ltd., Limited, 121 W. Church-st., Toronto, Ont.
