FRANCE IS A VOLCANO

Everything Overshadowed by the Dreyfus Case.

Imminent Exposure of a Wicked Conspiracy.

Report in Circulation That the Noted Prisoner Is Dead—France and Russia Unready to Fight—Salisbury Better for the Fashoda Incident.

Paris, Nov. 14.—Everything else in France is overshadowed for the moment by the imminent proclamation of the innocence of Dreyfus. If this is not the signal for serious disturbances, either immediately or when the sets foot in France, all the observers on the spot are mistaken. The whole edifice of lies is about to crumble. The wickedest conspiracy ever known to civilized history is about to be exposed. As the moment draws nearer the temper of the anti-Semitic, clerical and military gang grows worse. Many of the best men in Paris are going armed, living in unknown places, and approaching their offices in the dark, by roundabout ways, for fear of assassination. Only yesterday the foreign minister called upon the German ambassador to apologize for newspaper attacks on his daughter, a girl of 15. Paris is a rumbling volcano.

REPORT THAT DREYFUS IS DEAD.

It is reported here that Dreyfus is dead. The rumor is understood to be based upon a mysterious telegram received from Colmar, capital of Upper Alsace, signed by an unknown correspondent. So far as can be ascertained, there is no official confirmation of the report. The father-in-law of Dreyfus discredits it. He says he has received accounts from the colonial office quite recently as to the prisoner's health. Despite these assurances, there are dark rumors afloat in view of the curious manner in which the letter from Dreyfus, declaring that he had abandoned all hope, was delivered to Mme. Dreyfus on Friday. Many people believe he is dead. Careful inquiries have been ordered to proceed to Tsi Nan, capital of the Province of Shan Tung, to concert measures with the viceroy of Shan Tung to prevent future inundations of the Yellow river (Hoan Ho). This appointment is regarded as virtually shelving Prince Li.

LETTER FROM THE PRISONER.

Mme. Dreyfus, it is said, applied at the office of the colonial minister yesterday to ask permission to send her husband some warm clothing for his return home. Her request was refused on the ground that the government would do whatever was necessary. At the same time the authorities read to her a letter from her husband, to the effect that, having for five months addressed appeals for pardon to the President, he was refused, and that he was being wearied and exhausted by his useless appeals, he would write no more to his family or to anybody. He described himself as ill and dying, and begged to be taken to his native country the care of rehabilitating his memory." Mme. Dreyfus then asked permission to telegraph her husband the decision of the court of cassation. This request also was refused. Then, through a friend, she appealed to President Faure, but with no better result. Her counsel will bring the matter before the court of cassation.

INTENTIONALLY PROVOCATIVE.

Lord Salisbury has made it very difficult for France to abandon her pretensions on the Nile. His attitude was provocative, and therefore, much disappointment in England that France did not accept the challenge. The chance to say to combined Europe, "You shall not rob America of the fruits of her victory, as was done in the case of Japan and China," would be welcomed by Lord Salisbury and the entire British nation. Such an opportunity, and very possibly its realization, were almost obviously in Lord Salisbury's mind when making his Guildhall speech on Wednesday.

FRANCE AND RUSSIA UNREADY.

Most English statesmen are now convinced that it is the distinct purpose of Russia and France, and perhaps other powers, to aggrandize themselves, politically and commercially, at the expense of Great Britain in several quarters of the world. It is equally likely that British resistance to this policy, to be successful, must be made now, and made with decisive vigor. The Fashoda incident has furnished proof, first, that Great Britain has at last determined to force the issue, and second, that France and Russia are palpably unready and are desirous to postpone the critical moment for at least two years.

BACK TO FASHODA.

Major Marchand, commander of the French expedition at Fashoda, has started for that point with Capt. Barthelemy, who carried Marchand's report to Paris and brought the reply of the French Government. On their arrival at Fashoda, the expedition will immediately retire by way of Sobat, southwest of Fashoda, at the junction of the Sobat River and the White Nile, from which point they will move overland to Jibuti, the French post in the Esea district, on the west coast of the Gulf of Aden.

Liberal journals in London are in the habit of describing Lord Salisbury as a man of health, overweighed with official cares, moody in temper, and morose and melancholy in mind. Those in daily touch with him say his health has greatly improved since his last journey on the continent, and the recent outbreak of the influenza epidemic has been a strong tonic for him. He has thoroughly enjoyed the Fashoda affair, and is far from being morose or morose. The best proof of his good spirits was the left march in which he played with his Guildhall auditors, dangling the Egyptian protectorate before their eyes, but not letting them have what they really wanted.

KAISER WILL NOT VISIT SPAIN OFFICIALLY.

London, Nov. 14.—The German imperial yacht Hohenzollern passed Crete waters at 4 o'clock this morning. The dispatch boat Herta entered Suda Bay in order to fetch dispatches for Emperor William.

A dispatch to the London Observer from Berlin says the German imperial party will not land at any Spanish ports. Owing to Spain's interpretation of the visit as a manifestation of sympathy with Spain in her present difficulty, she will have to forego the pleasure of a formal visit from the Kaiser.

CERVERA'S REPORT.

In his official report to the Spanish minister of marine describing the battle of Santiago, Admiral Cervera gives high praise to the humane, and courteous treatment accorded him and his subordinates by the American authorities. He speaks of the efforts made by the Iowa and Gloucester to save life, of the solicitude shown by the Americans for the comfort of those whom they had taken prisoners, and, finally, of the generosity of the victors in providing so hospitably for them in the United States. The admiral says: "The result of the battle was never in doubt, but I never thought that my vessel would be so quickly destroyed."

LI LAID ASIDE.

Pekin, Nov. 14.—Li Hung Chang has been ordered to proceed to Tsi Nan, capital of the Province of Shan Tung, to concert measures with the viceroy of Shan Tung to prevent future inundations of the Yellow river (Hoan Ho). This appointment is regarded as virtually shelving Prince Li.

THE MOHEGAN DISASTER.

London, Nov. 14.—The Mohegan inquiry was continued Saturday. A member of the coast guard testified that he fired a rocket and gave every possible warning to the Mohegan when he saw her danger. Undoubtedly, he said, the current from the Manacles was setting in shore. The coxswain of the Palmouth lifeboat explained the delay in launching the boat. The boat cruised around all night, but never found the Mohegan. The coxswain of the Lizard lifeboat said he believed that they could have saved the lives of the Mohegan crew if they had put the Mohegan immediately. Boatwain Cruickshank said that every effort was made to get out the boats. It was impossible to launch the boats, owing to the list of the ship. The inquiry was adjourned until Nov. 24.

The Opinion (Rome), referring to the possibility of an attempt by Russia to occupy the Sultanate of Rabieta, on the Red Sea, says it has authority to assert that England will support Italy in preventing his seizure.

At a general meeting in Paris of French holders of Cuban bonds, a resolution was adopted to appeal to the "good faith of Spain and the spirit of equity of the United States to settle the question of their rights as creditors, in conformity with the rules of justice and law."

BEHIND THE SCENES

Death of the Veteran Actress, Clara Fisher Maeder.

New York, Nov. 14.—Mrs. Clara Fisher Maeder, who has probably the oldest living actress, died on Saturday morning at the home of her daughter in Metuchen, N. J. She was 87 years of age, was born in England, but had been in this country since 1827, and until nine years ago was a prominent figure on the stage. Mrs. Maeder was on the stage for 72 years, commanding the attention and admiration of four generations of play-goers. She was the "rage" in London when George IV. was prince regent, and received his applause. She knew Beau Brummell, and acted with Keane, Macready and other historic favorites. Making her debut as a child in 1817, it was not until 1839 that she retired from the stage.

IMMIGRATION TO THE UNITED STATES.

Washington, Nov. 14.—Commissioner-General Powderly, of the immigration bureau, in his annual report to the secretary of the treasury, gives the total number of immigrants who arrived in the United States during the last fiscal year as 229,259, a decrease as compared with the fiscal year 1897 of 1,533. Of the whole number 135,775 were males and 93,484 females; 10,737 came into the United States through Canada. During the year 3,030 were deported.

ARRIVAL OF LORD AND LADY MINTO

The New Governor General Takes the Oath of Office.

His Arrival at Ottawa Delayed by the Illness of His Son.

Quebec, Nov. 14.—On the arrival of the steamer Scotsman, Saturday afternoon, with Lord and Lady Minto on board, Sir Wilfrid Laurier proceeded at once to the Queen's wharf, accompanied by General Lord Seymour and staff, Hon. Messrs. Borden, Fielding, Tarte, Blair, Dobell, Fitzpatrick, St. John and Scott; Lieut.-Governor Jette and staff; Premier Marchand and the Provincial ministers and Mayor Parent. At the Queen's wharf were drawn up a guard of honor from the Royal Canadian artillery with the band of the Queen's Own Canadian Hussars and a mounted escort of 34 men. The party proceeded immediately to the legislative council in the Parliament buildings. They were received with great enthusiasm, and many flags were hung in the streets through which the party passed. The legislative council hall had been tastefully decorated with flowers and bunting for the occasion. The chamber presented a brilliant scene. Lord Aberdeen was already at the throne when Lord Minto arrived, and he greeted his successor with words of cordial welcome.

The inauguration ceremonies were imposing, and witnessed by a large number of the ministers of the Dominion and Local Parliament.

After the reading of the royal commission the new Governor-General was sworn by Judge Segwick, of the Supreme Court.

Then Lord Minto ascended the steps of the throne, accompanied by the Governor-General, and took the chair. Afterwards Lord Aberdeen introduced to his successor the three lieutenant-governors and the members of the Federal Cabinet present. After the ceremony of inauguration, Lord Minto with an address in both languages in behalf of the city, and Lady Minto with a splendid bouquet of roses.

Lord Minto answered very happily to the address in the French and English languages. He said that it was not his first visit to Quebec, but although fifteen years had already passed since he arrived here for the first time he had always kept a happy and fresh memory of the fine city. He was coming back as the representative of our gracious Queen and Empress, and his sincere desire was to fulfill faithfully the duties of his high position. He said he was coming here in a period of prosperity, and that in spite of the difference of race and nationality, he was sure that the Canadians had nothing more at heart than to perpetuate the brilliant history of their country. The union, he hoped, was by the marvelous resources of nature, was always sure of a great future. For his part he would be happy if it was possible for him to contribute to a certain extent to the prosperity of our country.

A royal salute of 21 guns was fired from the citadel after the installation of the new governor-general, and the departure of Lord and Lady Aberdeen.

AT MONTREAL.

Montreal, Nov. 14.—Lord Minto, the new governor-general of Canada, and Lady Minto, and the other members of the gubernatorial party, were on board the Scotsman which arrived here yesterday afternoon, having come from Quebec instead of going right through to the capital as was intended. The change was necessitated by the illness of Viscount Melgund, the governor-general's son, who on the trip across, contracted acute bronchitis, and at one time was very ill. He is still very weak, but is convalescent, and it is expected that he will be able to leave the ship in a few days. The governor-general and Lady Minto will remain with him on board, but the other members left for the capital in the evening.
