WORLD'S MISSIONARY CONFERENCE AT WORK

Needs of Advance in All Parts of
the World Urged—N.W. Rowell,
K. C., Recording Clerk.

EDINBURGH, June 15.—The delegates to the World's Missionary Conference, which organized yesterday, got down to the real work of the international meeting to-day.

A warning to the Christian churches of the world that a decisive hour for missions had come, was given in the report of the commission on carrying the gospel to all the non-Christian world. The commission says that opportunities which have been neglected in the past are the reproach of the church. It urges that an international committee be formed, and that a great movement to carry Christianity into every region with increased force be undertaken.

The advance of Islam in equatorial Africa presents the question, the report says, whether the dark continent shall become Mohammedan or Christian. India, and the Mohammedan world as a whole, particularly Turkey and Persia, are pointed out as other large fields for effort.

"The Jewish people," the commission says, "are a peculiar people, and the missionary activities of the Christian church, Christianity is their presentment by right of inheritance."

The various missionary organizations are advised to get into touch with each other, and learn of each other's methods. The formation of an international committee to take up consideration of the whole question is urged on the conference.

N.W. Rowell, K.C., Toronto, has been appointed recording clerk of the conference.

ST. CLAIR AVENUE WIDENING

Edmund Burke Makes a Suggestion to the City.

Edmund Burke, architect, has written the mayor a letter in which he suggests the widening of St. Clair-avenue, saying:

There are two reasons for haste in deciding upon the completion of this future artery of a great city. First, the need of a decent roadbed. Second, the definition of its ultimate width, in order that long-delayed building operations may be commenced. The vital point is the prevention of the erection of any permanent structures beyond a line which will permit of the creation of a wide thoroughfare. Given that, and it does not matter much what else is done at the present time.

The contention of some of the property owners between Yonge-street and Avenue-road, that the widening will destroy their enjoyment of privacy and quiet, is a bugbear that need not be considered at the present time. That difficulty will arise in time, when the avenue will be as much in the heart of Toronto as Bloor or College-street now is. Till then, even with the avenue widened to 100 feet, the foot and vehicular traffic need not be nearer the houses than at present.

Let the roadway be 42 feet wide, as petitioned for, and the sidewalk seven feet wide, and set close to the kerb, leaving broad boulevards between the traffic and the houses. In such cases the street line need be looked upon as imaginary, only that the buildings may not be erected beyond that line. The effect would be that of a broad avenue, and yet without the disabilities which the residents fear. When the time comes, in the natural course of events, as it will come for the widening of the roadway to accommodate street cars and increased traffic, the old pavement will have served its purpose and can be relegated to the scrap heap when the city can afford to re-pave on broader and more comprehensive lines, and no money will have to be spent in the purchase of property at greatly enhanced prices.

Cannot our council devise a means of setting a defined line beyond which the new Wilton-avenue bridge, has been purchased from the St. James' Cathedral trust, at the corner of Blair-street and Wilton-avenue.

Arrangements are being made for the removal of the building to the new site, a quarter of a mile away.

The church, which is a roughcast building, is to be bricked over after its removal.

JUDGE, NOT JURY, TRIAL

Bald T. C. Robinette in Appeal for
Condemned Man.

After a special sitting the court of appeal yesterday reserved judgment in the appeal of T. C. Robinette, K.C., for a new trial for Pasquale Venturini, sentenced to hang June 30, for murder.

The two points urged by Mr. Robinette were that nothing should have been said when the jury returned with a disagreement, reporting 11 for conviction, about a recommendation for mercy, as such words probably influenced the one man then holding out for acquittal; and that the remark that his lordship would leave them for some time, unless they agreed in five minutes, acted like a threat to hurry them. Justice Riddell had said: "You may say that if you find him guilty, you may make any recommendation you think fit recommending mercy."

It was surely proper for his lordship to say what he did about the recommendation to mercy. How can we say there is anything wrong in law about that," asked Chief Justice Moss.

"That verdict," argued the lawyer, "was obtained—not intentionally, of course—but subterfuge. There was no intention on the part of the judge, but that is how it worked out. The jury fully expected that if they brought in a verdict of guilty, the recommendation for mercy would be heeded."

"And so it was," said the chief justice. "It was forwarded to the executive, who refused to do anything."

"The man was given a judge-trial, not a jury trial," said the lawyer, referring to the statement of Justice Riddell, finding a verdict in five minutes.

"I think his lordship merely meant to say that arrangements would have to be made for his supporters, and that his lordship wanted to go to supper himself, and that the jury was not influenced," commented the court.

POISON IN THE TEA

Peculiar Charge Brought Against
Brookville Tinsmith.

BROOKVILLE, June 15.—Charles Leamon, a tinsmith in the employ of the Brookville Tinsmith Co., is in jail on remand, charged with attempting to poison Sheridan, the son of the mayor.

Sheridan had been in the habit of bringing his dinner to the shop. He detected a peculiar taste in the tea on three different occasions, and each time investigated the source of the milk supply, which was found O.K.

His suspicions then became aroused, and, filling his tea can with water, the same peculiar acid taste was noticeable.

Finally a trap was laid for London. A constable was placed in hiding in the shop, and London, being alone, was noticed to remove the cover from Sheridan's lunch basket, open the can and drop in a powder of some other substance.

For Mercie England.

The Sons of England excursion to the home land was happily inspired. It is being heartily supported. Many citizens are taking advantage of the opportunity to visit the old country under patriotic auspices and enjoy a program of sight seeing hardly equalled by even the most expensive of the independent conducted tours.

At Bristol—the most historic port in England—the party will be welcomed by the mayor and entertained by the civic authorities. All thru the tour the arrangements for entertainments are on a lavish scale. The party will sail on the flagship of the Canadian Northern's new Atlantic fleet, the "Royal Edward," leaving Montreal July 8. There are no finer appointed or faster steamers sailing between Canada and England than the twin ships "Royal Edward" and "Royal George." Those who have not already secured reservations for the round trip should apply immediately to Joseph Hollins, 35 Adelaide-street east.

FLANDERS TOUR

Another Telegram Telling of Progress of Car.

RIDGETOWN, Ont., June 15.—The Flanders "20" "Under Three Flags" automobile pulled into this town about supper time after covering 180 miles for the day on roads that averaged slightly better than fair. The tourists passed thru Hamilton, Brantford, Woodstock, Ingersoll and London and retired for the night very much elated over the progress made during the day, which was the greatest made so far since the long grind began. The trip thru this prosperous Canadian section was in the nature of an ovation, the flying couriers being met at the outskirts of almost every village and city by owners of E-M-F. cars, who escorted them along the way. Notwithstanding these interruptions the car averaged between 18 and 20 miles per hour between Ridgetown and Toronto, and Messrs. Brusk and Lane expect to complete the Canadian leg of their strenuous trip by arriving in Detroit Tuesday afternoon.

Must Speak English or Take the Consequences.

In division court yesterday Hyman Fingerhut sued David and Max Fruitman for \$90 for services in a property dispute. He was wearing a sign that said "I speak English." FLOODS DEVASTATE FOUR EUROPEAN COUNTRIES

Current Swept Away Locomotives—
Villages Are Literally
Obliterated.

COLOGNE, Germany, June 15.—Stories of death and sufferings of the survivors are brought by refugees from the flooded valley of the Ahr. The waters are rapidly subsiding, but while at their height they wrought frightful damage. Several villages on the banks of the River Ahr were literally washed away. Houses collapsing, buried their occupants beneath the flood. So strong was the current that it swept away locomotives and steam road rollers as a child might scatter its toys.

In some instances, where the villagers, driven from their homes by the vagrant waters, lacked time to reach the hill tops, they climbed into the branches of trees, only to be drowned as the rising waters tore the trees up by their roots and bore them away.

Near the mouth of the Ahr River a rescue party recovered the bodies of a woman and an infant. The little one was tightly clasped in the mother's arms.

FAVORS NATIONAL ROULETTE

Sir Hiram Maxim Would Substitute It for Racing.

LONDON, June 15.—Mr. Hiram Maxim has been preaching the fallacy of trying to win money by betting on races. He has figured out mathematically that no system can beat racing. Admitting that some people must gamble, Sir Hiram shocks the non-conformist conscience by suggesting establishment of national roulette wheels, a percentage of the winnings to go to the treasury. He says:

"I would have national roulette substituted for betting on races. Betting on races should be penalized so that ultimately racing would cease except between genuine horsemen. By organizing roulette, with minimum odds against the players, which would mean that about \$2 (\$10) out of every \$100 (\$500) passing over the tables would go to the state, the latter could pay off the national debt in a few years."

It is not expected that the chancellor of the exchequer will seriously consider Sir Hiram's proposal as a new means of raising revenue.

SENSATIONAL LAWSUIT

Action for \$4,600,000 for Conspiracy Against Premier Dunsinuir and Others

VICTORIA, June 15.—What promises to be the most sensational law suit in the history of the province came to trial June 22, when Henry Croft and others will bring action against Hon. James Dunsinuir, and nine others, claiming \$4,600,000 for alleged conspiracy respecting an option on lands in the Skeena and Nanaimo Railroad belt.

The defendants are owners of lands in the cranberry, strawberry and oyster districts. Plaintiffs claim they obtained options on this land, commenced their development as coal mines and negotiated for the sale of their rights. They allege that defendant conspired in granting second option, to cloud their registration of the first option, in order to prevent competition in the coal producing business, which they claim defendant, Dunsinuir, has monopolized.

A LUCKY SECRETARY

Lloyd-George's Hard Worker Gets Lucrative Indian Berth.

LONDON, June 15.—The prizes which the English civil service system offers frequently surprise Americans because of their meagreness. For example, William Henry Clark, the 33-year-old secretary of the Indian department, of \$4000 a year, has just been appointed a member of the Indian council, a position of honor and a salary of \$12,500 a year and has two official residences, one at Simla and the other at Calcutta.

This promotion is his reward for his untiring work as secretary to Lloyd-George. For months last year Clark went with less than four hours' sleep at night, and he proved himself a zealous, capable aid.

Clark entered the civil service as a clerk after competitive examination, and was appointed secretary to the board of trade by Lloyd-George when the latter was president of the Chamber of Commerce. He is now carrying out the promotion is criticized severely by the leaders of the opposition, who contend that there are many older and equally deserving civil servants who are as well entitled to the India council portfolio.

Clark's appointment came about in a singular way. The secretary to the Indian council, asked the chancellor of the exchequer to recommend some one who would be useful in carrying out Morley's pending administrative reforms. Morley has found the greatest opposition to his reform plans among the reactionary members of the India council.
