

KING HOT WATER BOILERS AND IMPERIAL RADIATORS

By all the tests to which a Boiler can be subjected, the King Boiler makes a record of almost one hundred per cent. The scientific construction of the water channels; the arrangement of the fire chamber and flues; the quickness with which heat is taken up by the water, lessening the amount of fuel required; the air tight joints, preventing waste of fuel by unconvertible drafts; the strength of the materials; the convenience of all parts; the ease of shaking and ash disposal; the dust-tight ash pan, and other points, all explained in our Booklet are reasons why you should insist on having a King Hot Water Boiler.

Imperial Radiators

The latest improvements in our Radiators have doubled their power of quick and sustained heating. For graceful lines and beauty of proportion, Imperial Radiators are unequalled.

Write for Free Illustrated Booklet containing all particulars. Our Engineering Department is at your service and will cheerfully furnish full information as to the best method of heating your house, store, factory, warehouse or building of any size or description.

HOME TOWN GREETINGS MAJOR W. A. BISHOP

Owen Sound Welcomes Return of Renowned Aviator With Rousing Ovation.

Owen Sound, Sept. 28.—Owen Sound has never before witnessed such a spectacular event as when, yesterday afternoon, an outburst of public appreciation marked the home-coming of Major William Avery Bishop, the gallant aviator who has brought undying fame to the Canadian air-craft, when he arrived here by the C. P. R. train, the railway having placed one of its official cars at the aviator's disposal.

Prolonged cheering greeted the incoming train. Every whistle in the business section of the town shrieked its welcome, while from thousands of motor car horns came an incessant salute.

Addresses were delivered by W. S. Middlebro, K.C., M.P. of North Grey; B. J. Ball, M.P. of South Grey; Hon. Dr. James and Warden Goodfellow. Ex-Mayor John McQuaker then read the civic address to Major Bishop, which was expressive of sincere appreciation of the signal honor which his bravery had brought to Owen Sound, to the Dominion, and to the empire. Following the address, Judge C. T. Sutherland, on behalf of the citizens, presented Major Bishop with a diamond ring, engraved with a suitable inscription.

Major Bishop, who was evidently greatly moved by the ovation, ably replied to the addresses. He stated that many proud moments had come to him in the last few months, including the great honor of a trip to Buckingham Palace to meet the King, but none of the events meant so much to him as the splendid reception he received on reaching his home town.

COAL DEALERS BLOCK CONTROLLER OF FUEL

Inadequacy of Information Handicaps Rendering of Assistance.

Ottawa, Sept. 28.—Acting Cost of Living Commissioner W. B. O'Connor has been trying to find out the exact coal situation throughout the country in order that the fuel controller may take action to assist dealers who are having difficulty in securing a supply for the winter. To this end a circular was sent to dealers throughout Canada last month asking them for exact particulars as to the tonnage required by them and also the names of the firms with whom they had placed orders for coal. The circular particularly requests this specific information so that the fuel controller may act intelligently.

It was stated at Mr. O'Connor's office today that 75 per cent. of the replies received in answer to the circular did not contain the information asked for. Although many of the dealers stated that they were unable to get their orders for coal filled, they failed to furnish specific information as to the amount required, etc. The fuel controller therefore finds himself handicapped in his efforts to help them.
