### LABOR REDRAFTS **MOTHERS' PENSIONS** AND SUBURBS

MacBride Says Municipalities \$10,000,000 FOR Not to Share Tax-Drury Right on Finances.

Brantford, Ont., Feb. 26 .- (Special)-Discussing the bill for mothers' pensions, Mayor MacFride, M. L. A., today stated that the Labor members had redrafted Hon. Walter Rollo's bill. Mayor MacBride said: "The muncipanties will not be asked to provide any of the money for the mothers' ince has not the money available this year, the best thing that can be done will be to lay it over and let us all set about nnding ways and means to raise

"A perusal of the labor legislation to be introduced will show conclusively that we are now getting down to a basis where results may be expected, and any little abuse to which I was subjected, is more than compensated for in the fact that our program is now practically ready for the opening of the legislature. We have had three conferences, and it is results that count. It would be absolutery ridiculous to ask the municipali-

solutely ridiculous to ask the municipalities to pay any part of the expenses for any of our proposed legislation.

"The municipalities already have more than they can handle when it is remembered that the only means of raising revenue is by a tax on the property of the people, and most of this is the property of the people, and most of this is the property of the workers. Surely the Province of Ontario, with its great natural resources and its many strong and profitable financial institutions, can find ways and means of raising all the revenue needed for a few measures of dimmanitarian legislation.

revenue needed for a few measures of humanitarian legislation.

Agrees With Drury.

"I am not often accused of agreeing with Fremier Drury, but we might as we'l realize now that he is absolutely right in his gauge of the financial situation. Nationally and internationally we are at the mercy of certain financial conditions which we will not he able to overcome for a year or two at least. After that there is no reason why we should not be optimistic as to our future. Just for the present, however, everybody should help to put on the brake."

Iton, Dr. Pearson, said that not a hundred persons in the district knew where the hall was to be located, or that a site had been purchased. If it was proposed to erect a substantial fire hall he suggested that it be made a community hall, as a public hall was also needed in the village.

J. M. M. Grieg Reviews Proposed Scheme Before Engineering Institute.

J. M. M. Grieg of the York Township offices gave last night, in the rooms or the Engineering Institute of Canada,' a most interesting lecture on York township sewerage scheme. To complete the whole or the proposed plan would cost, Mr. Grieg said, something an acequate basis.

When Mr. Rollo made his announcement to The Hamilton Herald, he must have been passing his opinion merely on the draft of the bill as prepared by Dr. Riddell, and if you will observe, you will not that the Labor members when they put has Triesday made some decided that the strucked with the practice at once, but if the ratepayers approved, a portion of the around \$10,000,000, but, of course, it nnd that the Labor members when they met last Tuesday made some decided changes, which will greatly improve the bill and make it more workable. It becomes more and more apparent that it was a mighty good thing that a few of us took the initiative a few months ago and demanded that the Labor group should convene separately, and that all our measures should be based on the collective judgment of those elected to represent the people. near the Humber river, west of Weston road, and the other near Grenadier Pond, to take the drainage of Swansea district.

The cost of the Swansea section would be \$1,256,000; East York, \$2,357,-000, and the west end of the township \$6,000,000.

## BOTTLING FACTORY

Fire of an unknown origin last night totally destroyed a frame building on the west bank of the Humber river, quarter of a mile north of Bloor street. The building was being used as a bottling factory by the Purity Springs Company, and was a wellknown landmark on the Humber. The fire was first noticed at 6.40 p.m., but altho the Keele street station fire reels were called out, it had gained too much headway, and the dry wood burned like tinder. The blaze was seen for miles, and lit up the sky for an hour. The cause is not known, nor has the loss been given out by the owners, except that the structure was burned to the ground.
