

that organization were the speakers. Through the efforts of this department the subject of temperance has been brought before the Christian Endeavour Union, and the work urged upon the individual societies. The work of this department is more than important during the coming year when the young people must be an important factor in winning the great temperance battle in the plebiscite campaign. The local Unions will find this work will pay them a heavy dividend as the enthusiasm of youth only needs wise direction to do efficient work.

MISS LOTTIE E. WIGGINS.

Superintendent.

SABBATH OBSERVANCE.

Sabbath Observance in Toronto has almost become synonymous with Anti-Sunday Car work, and when that is over we are apt to forget that as temptation has increased so the test of discipleship is only more pronounced, not in one form of desecration alone but in everything which can hinder or promote the holiness of this Day of Days.

In March the special day of prayer for Sabbath Observance, held by the National and Dominion W.C.T. Unions was remembered in Toronto. The Superintendents in this department asked a large number of ministers to preach on this subject, and a great many kindly responded.

The principal work done by the W.C.T.U. in the late anti-Sunday car contest was in connection with the Citizen's Committee.

As we are an organized body and accustomed to the work, we took the initiative in the women's work, calling meetings and organizing, etc.

Many ladies joined with us in working under the Citizens Committee, and the woman's vote was very well canvassed.

Meetings were called in each ward, and our women were instrumental in holding some good public meetings as well as gatherings of women for organization.

Eastern held one meeting and though few in number did a good deal of canvassing in No. 1 ward.

Gordon reports, asking pastors to preach, and Sabbath School superintendents to bring the subject before their scholars.

One public meeting was held in Berkeley St. Methodist Church which was well attended.

On voting day the members turned out "en masse" to assist in bringing women voters to the polls.
